

HAZEL DREW'S CHUM

May be Able to Furnish Some Clue to the Police

TROY, N. Y., July 29.—The authorities are awaiting with much interest the return to this city today of Carrie Weaver, the chum of Hazel Drew. They feel certain that the Weaver girl will materially aid them in finding some tangible clue in tracing the person or persons supposed to be responsible for Miss Drew's death. A few days before the tragedy at Teal pond Miss Weaver went to Ohio to visit relatives but her vacation being over she is now returning. A despatch has been received here containing a statement by Miss Weaver, in which she wondered how Hazel Drew managed to live so well, to have so many fine dresses and to take so many pleasure trips to surrounding cities. Miss Weaver added that she never saw Hazel in the company of a man and that her chum told her she had no sweetheart.

"She could make a dollar go farther than any woman I ever saw," said

CITY MUST PAY STORE ENTERED

Court Expense of Officer Buchanan

BECAUSE HE SHOT A DOG

Under Orders of Superior Officers

Some months ago Patrolman Buchanan killed a dog supposed to be affected with rabies and the owner of the dog brought suit against the patrolman with the result that the court found against Mr. Buchanan. The following letter which has to do with the case and in which the board of police asks the city to pay the freight is self-explanatory:

July 18, 1908.

Chairman, Committee on Accounts, Lowell, Mass.

Dear Sir:—

In this month's bills charged to the police department you will find one from John Buchanan for \$42.50. This bill is the outcome of a suit brought against Patrolman Buchanan for killing a dog, and after investigation by the board of police, they find that the officer was acting under the instructions of his superior officers, and have, therefore, approved the bill, at the same time instructing me to forward this information.

Very respectfully,

John J. Flaherty, Jr., Clerk of Board.

Members of the committee on accounts including the chairman, Alderman Gray, said today that they would vote to approve the bill, because they believe that the officer had performed his duty when he shot the dog and it would be poor appreciation should the city refuse to pay the bill.

THE BIG MUSTER

Col. J. H. Carmichael Will Head the Parade

COL. JAMES H. CARMICHAEL, To Be Chief Marshal.

Elected Chief Marshal at Meeting of Butler Vets—Continuous Band Concerts During the Play Out—Slight Change in Route of Parade

As was exclusively announced in The Sun of recent date, Col. James H. Carmichael will be the chief marshal of the big firemen's parade on muster day, having been formally elected to the position at a largely attended and enthusiastic meeting of the Butler Veterans' Association, last evening. Prior to the meeting there was a strong sentiment in favor of Mr. Humphrey O'Sullivan for the position, but when it became known that he did not want the position, Col. Carmichael became the unanimous choice.

The meeting was held at the quarters of the Butler Vets at the corner of Cross and Fletcher streets and was presided over by James H. Walker, with Harry E. Clay secretary.

A committee on music was appointed, composed of the following members: J. J. Magee, H. E. Clay and T. J. Johnson. It was decided to have a continuous concert by two bands, on the North common from 11 a. m. to 6 p. m., on the day of the muster.

A slight change in the route of parade was made and as revised, the line of march will be as follows:

Right of line in Highland street, opposite Edison school house, through Locke street, to Central, to Merrimack, to Pawtucket street, counter-march to School street to Pawtucket, to Salem, to Castle square, where the companies possessing the odd numbers will march through Common street and the even numbers through Clark street. Secretary Clay announced that one more entry had been received, the latest being the T. W. Lane of Manchester, N. H. The Butler Vets will have two bands in the parade and the local association has also arranged for an ambulance corps to be stationed on the grounds.

A regular meeting of the league will be held in Boston next Tuesday at which six candidates for membership will be acted upon. If they become members they will enter the muster committee of the Butler Vets.

Mr. O'Sullivan is leaving no stone unturned to make the muster the greatest day Lowell has ever seen and they are quite sanguine of success. With his national reputation as an advertiser of rare enterprise and originality Mr. O'Sullivan is accomplishing things that an ordinary promoter could not possibly do. The Firemen's Treasure book which will contain the most comprehensive history of New England Veterans' Firemen companies ever published, it will be ready for the public August 15. So elaborate is it that the Boston library has asked for a copy in order that records of the early fire-fighting days may be had for public perusal. This book will be on sale at Lowell stores. Inasmuch as the committee has not asked and will not ask local merchants to give financial aid to the project, it feels that the stores will not hesitate to do this much as their contributions to the success of the event.

TO WIDEN BRIDGE

Lowell May Have to Pay Bill

Some time in September the county commissioners will give a hearing on the Billerica street bridge question. The bridge will have to be raised and widened and Lowell does not feel like paying all the freight. The city council at a recent meeting referred the matter to the county commissioners, asking for a hearing. The commissioners have given notice that they would grant a hearing in September.

FOUR YEARS AGO

The South Lowell Explosion Occurred

GREATEST TRAGEDY IN LOWELL

Many Visited Scene of Explosion Today

Five years ago today, July 23, 1903, the explosion occurred at South Lowell, the greatest disaster that ever befell this vicinity, in which 21 people were killed and 75 injured. Besides the loss of life there was a vast amount of property damage. Within a year the U. S. Cartridge company paid out nearly half a million in claims, mostly without litigation and there are still some pending in the supreme court.

The scenes that followed the holocaust will never be forgotten, and Lowell passengers on the Boston & Maine as they cross the "six-arch bridge" and look over upon a small curbed grass plot from the centre of which arises a flag staff, on which a flag flies a half-staff today, invariably shudder as they recall the great tragedy enacted there. The mound and flag staff are erected on the Higgs property in the centre of Riverside park, near where the powder houses stood. The locality will ever remain a park as it is now called for no house could ever be let to tenants on the scene while the memory of the horrible affair exists. A large number of people visited the scene of the explosion today.

THE IRISH LEAGUE EXCURSION TO REVERE TOMORROW

Tomorrow the United Irish League will run its annual "Ho! for the Beach" to Revere with free privileges at Wonderland for all who take the excursion.

In order to avoid the rush it would be well for those who intend to go to get tickets ahead at Carier & Sherburne's, Merrimack square.

The great attraction of the day will be Dan O'Leary, the champion walker of the world, who has been brought from the west through the courtesy of O'Sullivan Bros. to attend this excursion. He will be at the square in the morning to accompany the party to the beach and will give an exhibition walk at Wonderland at 4 o'clock when thousands will be present from Boston to see him.

The league headquarters will be at the Metropolitan hotel, where a separate parlor is provided for ladies. The cars are provided with curtains that afford ample protection in case of rain. The committee will meet again this evening to arrange the final details for the trip. All the members are invited to attend.

DRACUT ASSAULT

Young Man Held in \$700 for the Grand Jury

Girl Sent to Jail as a Stubborn Child—Old Love Affair Aired in Police Court

The session of police court this morning was long drawn out and rather uninteresting from a spectator's standpoint despite the fact that there was a varied list of cases and could have been classed as one of the quietest days in police court but for the fact that Lawyer Daniel J. Donahue and Deputy Redmond Welch got into an argument which necessitated the interference of Judge Pickman.

DRACUT ASSAULT CASE.

Albert Bourassa was charged with feloniously assaulting Jessie E. Harrison and entered a plea of not guilty. The Harrison girl testified that she stayed out all night Sunday night and slept in a field in Dracut. At noon Monday she was given food by a woman near the Navy Yard and taking it into a field nearby started to eat it when she was assaulted by Bourassa. During the course of her testimony she turned towards Bourassa and said: "If I was a boy I would have kicked you all over the street."

Bourassa denied having assaulted the girl, but probable cause was found and he was held under \$700 bonds for the grand jury.

GIRL SENT TO JAIL.

Just before the conclusion of the session the Harrison girl was charged with being a stubborn child. She had been on probation, but Officer Slattery surrendered her Monday evening. Mrs. Harrison testified that she could do nothing with her daughter, that the girl stayed out nights and she did not know where she was half of the time. During the hearing of the case the girl became hysterical, and crying at the top of her voice said that she was ill-treated and abused by her mother and sisters. She said: "If you put me away, God help you when I get out; I will never look at you again."

DRACUT BURGLARS

Made Small Haul at Lakeside Inn

Entered by Cellar Window and Got Away With \$10 in Cash and an Amount of Sealed Liquors—No Clue to Their Identity

Following close after the diamond robbery at Willow Dale, on Sunday afternoon, a burglary occurred Monday evening at the Lakeside hotel at the entrance to Willow Dale, formerly known as Mercier's hotel.

When the bartender who opens the hotel in the morning entered the barroom at 6 o'clock yesterday morning he found the money drawer open and \$10 in change gone. An investigation showed that the thieves had also gotten away with about \$20 worth of sealed liquor. It is believed that they entered through a cellar window. The Dracut police are at work on the case. State Inspector Byrne who is investigating the diamond robbery at Willow Dale will also give this case his attention.

FIRED ON OFFICERS

Men Believed to Be the Forest Hill Bandits

WALTHAM, July 29.—Two suspicious appearing men with revolvers drawn, believed to be the desperate brigands wanted by the Boston police in the shooting at Forest Hills, shot at and narrowly missed Patrolmen Bemis and McCarthy early this morning.

The officers were patrolling their route when the two men emerged from behind the Waltham railroad station, a short distance from the officers.

The patrolmen shouted for the two strangers to stop, only to find that the command was followed by a shot which whizzed by the head of Officer McCarthy.

Quickly pulling out their revolvers the officers engaged in a running fight with the fleeing men. Several shots were fired by the officers, but none seemed to have taken effect.

A hurry-up call was sent to the station. Followed by a squad of officers with revolvers ready for use the bandits were chased up the track for some distance, when they were lost in the darkness.

A strict watch was put on all of the places along the railroad where the men would be likely to go.

When the Waltham police found that the armed desperadoes had gotten beyond them, word was immediately sent to the police of adjoining towns to be on the lookout.

FIRED AT NEGRO

Who Tried to Rob Her Apartments

A PLUCKY WOMAN USED REVOLVER

And Scared Guests of Hotel Plaza

NEW YORK, July 29.—Shots fired at a negro burglar threw the Hotel Plaza and the surrounding fashionable blocks west of Fifth avenue into turmoil shortly before six o'clock this morning. The shots were fired by Mrs. Henry Heulett of Mobile, Alabama, who lives in an apartment house directly behind the Plaza.

Mrs. Heulett and her niece, Miss Adla Prendergast, lost several thousands of dollars worth of jewelry ten days ago when a burglar entered their apartments by the fire escape and got away over the roof. This morning a negro was found trying to enter Mrs. Heulett's apartment. Mrs. Heulett seized a revolver and from a window fired at the man who was on a fire escape but he shot went wild and the man escaped. Several hours later a negro was arrested charged with the attempt to rob Mrs. Heulett's apartment.

Hope cemetery.

A piece of the schooner's jibboom which broke off in the collision was left in the steamer's path.

STANDARD OIL CASE

The Prosecuting Officers Discuss Whether It Should Be Pressed

LENEX, July 29.—The leading prosecuting officers of the government with the assistance of several prominent lawyers of national reputation, including Senator Frank B. Kellogg of Minnesota took up the consideration today of the question whether the criminal suit against the Standard Oil Co. for alleged rebating and other violations of the interstate commerce laws shall be further pressed in the courts. The gathering in one of the spacious parlors of the Hotel Aspinwall included Attorney General Charles J. Bonaparte, Solicitor General Henry J. Hoyt of Washington; Edwin M. Sims of Chicago, United States district attorney for the northern district of Illinois; his first assistant, James Wilkerson of Chicago, Mr. Kellogg and several clerks from the department of justice at Washington.

A great mass of legal literature in connection with the trial of the suit of the Standard Oil Co. at Chicago some fifteen months ago was brought from Washington and Chicago together with the text of the decision of Judge Kearsley Mountain Landis in imposing the \$2,000,000 fine upon the company as well as the latest document in the case, the decision of the United States court of appeals setting aside Judge Landis' opinion and his finding.

BARON TO FIGHT

Arrested on Charges of Hotel Keepers

BOSTON, July 29.—Baron F. von Godan Seefeld, who was arrested on Monday evening at the Hotel Touraine, was taken to Rhode Island yesterday to answer the charges of fraud made by hotel keepers.

The baron arrived in Boston with his beautiful wife and young daughter and hired apartments at the Touraine.

It is alleged that the baron beat his hotel bills.

The baron expressed an intention of fighting the charges. One is made by the proprietors of the Matthews Hotel at Narragansett Pier. The owners of the Crown Hotel of Providence also accuse him. The amount involved is said to be about \$30.

The baron's wife said yesterday that she was confident of her husband being able to prove his innocence.

Like himself, she attributed the charges to a misunderstanding.

LIEUT. BELCHER OWNER OF AUTO

To Be Tried by Court Martial

THE MISUSE OF STATE FUNDS

Is the Charge Against Militia Officer

BOSTON, July 29.—Lieut. Robert E. Belcher, signal corps, M. V. M., is charged with having misappropriated \$686 of the Commonwealth's money due to 25 soldiers of his command, who did duty at the Chelsea fire.

He will be tried by court-martial on Aug. 12. While the papers in the case have not yet been issued, this date has been decided upon by Adj. Gen. Brigham. The court will sit in the state house at 2 o'clock in the afternoon.

The specific charge upon which Lieut. Belcher will be tried will be "conduct unbecoming an officer and a gentleman," and upon the developments of the court-martial will depend what further action may be taken.

The court will be presided over by Maj. George F. H. Murray, 9th regiment infantry, M. V. M., with Capt. Charles H. Cole, 1st corps cadets, M. V. M., as judge advocate general, and Capt. Howard L. Rogers, battery A, field artillery, M. V. M.

The court-martial was ordered by Gov. Guild yesterday afternoon after a number of complaints from soldiers of the signal corps had been brought to the attention of the adjutant general.

The men were indignant and used some very strong language about the way, as they thought, they were being used by the state. They asserted that soldiers of other organizations that had come duty in Chelsea had been paid.

The men explained to the adjutant general that the money was needed, and supposed it was being withheld because of an oversight of some kind at headquarters.

An investigation resulted, when it was discovered that money to the extent of about \$686 had been paid Lieut. Belcher, who had received for it.

BELCHER LEFT STATE.

No part of this money, an investigation has revealed, was paid over to the men and they, after waiting a considerable length of time, entered formal complaint with Adj. Gen. Brigham and Gov. Guild.

It was then that a second inquiry revealed the fact that Lieut. Belcher had left the state.

The statements of his friends was that he was in such ill health that a trip was absolutely necessary. This was accepted as the best possible solution of the difficulty. Inquiry into the matter was postponed from time to time in the hope that the lieutenant would recover sufficiently to appear and explain things to the satisfaction of the military authorities.

Cannot Be Sued Says Appellate Court

NEW YORK, July 28.—The appellate division of the supreme court holds that the owner of an automobile is not necessarily responsible in law for an accident caused by the machine while it is being operated by the chauffeur in the absence of the owner.

Three of the justices, Ingraham, Clarke and Scott, hold that even if the chauffeur is running the machine for his own pleasure or use with the consent of the owner the latter is not responsible. The other two, Justices Houghton and McLaughlin, are of the opinion that the owner can escape liability only where it is clear that the chauffeur is using the machine without his employer's sanction.

The evidence showed that Burton S. Castle had given permission to his chauffeur, Harry Boes, to take his machine out on September 19, 1904, for his own pleasure. Boes took with him two women and a man, and at 1:30 in the morning, while coming down Central Park west, the machine struck George Cunningham, who was crossing the avenue, and injured him severely. Justice Clarke, writing the majority opinion reversing the judgment for damages obtained by Cunningham against Castle, says that it is clear that blame for the accident attached to Boes and not to Cunningham, who was using all possible care in crossing the street. But, says Justice Clarke, it was error for the trial judge to charge the jury that full responsibility for the injuries sustained by Cunningham rested on the owner of the machine.

Justice Clarke says that intrinsically an automobile can no more be classed as a "dangerous instrumentality" and therefore improperly entrusted to the chauffeur than a team of horses and carriage or a wagon or a sailboat or motor launch can be classed as a dangerous instrumentality, or even a gun, under certain circumstances. If a gamekeeper borrows his master's gun, Justice Clarke asks, would the master be held liable for any negligence on the part of the gamekeeper that resulted in the shooting of a man when the gamekeeper was using the gun for his own purpose and not for the service of his employer?

"I do not think," says Justice Clarke, "that the question of the ignorance or consent of the master has any bearing whatever upon his liability. The fact that the servant has used the automobile without his consent has probative force upon the proposition as to whether or not the servant was engaged in his master's business within the scope of his employment. The question is whether he was or not."

Justice Clarke goes on to say that if the accident had occurred while the chauffeur was taking the machine, say, from the garage to the machine shop, to have it fixed, the master would be liable, whether or not he had knowledge of the trip, because the act had happened within the scope of the servant's employment. But if the master were to tell his chauffeur that he could use the machine for his own pleasure while the master was away on a vacation, the master would not be legally responsible for any negligence by the chauffeur during the vacation.

"It may be," concludes Justice Clarke, "that it would be wise and in the public interests that responsibility for an accident caused by an automobile should be annexed to the owner thereof, irrespective of the person driving it, but the law does not so provide."

Justices Houghton and McLaughlin are of the opinion that the act of Castle in giving his consent to the private use of the machine by the chauffeur, made the owner responsible for the accident. As they view it, the chauffeur was technically still on his master's business and the relationship of master and servant had not been severed.

But the dissenting justices are of one accord with the majority of the court that if the chauffeur had taken the machine out without the consent of his master and contrary to the latter's orders, there would be no liability on the master. It is expected that an appeal will be taken.

ROYAL PIPERS

ARE MAKING A BIG HIT AT LAKEVIEW.

With its program of Scottish airs of all kinds, martial and ballads, with its quaint highland costumes, and its Scottish dances, the Royal Pipe band of His Majesty's Royal Rifles of Halifax, N. S., will give an entertainment this week, every afternoon and evening, at Lakeview park, which will be entirely new and novel in this section as well as extremely interesting.

The band played all last week at Paragon park. Wednesday morning, by special request, it appeared at Fort Revere before Governor Guild, who was so delighted with its performance that at his request Saturday morning it played again at Fort Warren. Its martial airs were of the sort that made Uncle Sam's men take notice and realize why the Scots in battle, when stirred by such music, were among the most sturdy warriors of the world.

The bass drummer with this outfit is a whole entertainment in himself. He carries his own big drum, beats it with both hands, tossing the sticks in the air and waving them about at the same time and never missing a stroke in harmony with the time of the music. Thousands of people at Paragon park cheered themselves hoarse in continuous encores of the performance.

Fred Rourke Returns From Elks' Convention

Fred H. Rourke, past exalted ruler of Lowell lodge of Elks and representative to the grand convention of the order which was held at Dallas, Texas, the present month, arrived in this city last evening. Mr. Rourke left Lowell the 3rd of July for New York, taking the steamer for Galveston, thence to San Antonio and from there to Dallas where he arrived the 13th. He attended the several sessions of the grand lodge and also the grand barbecue which was held at the State Fair park in which provisions were made for over 35,000 persons. A grand display of fireworks was given at Lake Cliff park July 14th. The ladies of the visiting brothers were entertained at the Elks club and Lake Cliff pavilion.

On July 15 occurred the grand parade of all the bands and the several lodges that were represented and floats were furnished by many lodges which added much beauty to the occasion. It was estimated that there were some 60,000 persons present during the convention days. The 1908 convention will be held in Los Angeles, California.

The climate of Dallas, Mr. Rourke adds, is not so warm as has been stated in the several newspapers, and within the last few years the population has increased from 45,000 to 95,000. Mr. Rourke returned home by way of New Orleans, La., where the Massachusetts delegation was entertained for several days by the grand Esquire of the order, J. P. Sullivan. From there he took a steamer for New York and arrived home as before stated. Mr. Rourke speaks very highly of the convention and says that everything possible was done to make the visitors to Dallas welcome, and to use their own expression they had the "time of their lives."

WESTFORD

Three vacant schoolhouses were sold at auction by the selectmen yesterday. The one in the Long-Sought-For district was sold to Dennis Burke for \$405; the Nashoba school went to Thomas H. Elliott for \$235. These buildings have been vacant for the past two years, the school committee consolidating the schools. The Centre schoolhouse, which was closed this spring, sold for \$150, being bid off by Alec Fisher for the Spaulding Light Cavalry association to be used as their headquarters, as under its charter it is compelled to have a place for its meetings.

Westford meets the Wachusett of Lancaster at the Grantville grounds Saturday. This will be the last game played by the Westford team in town this season, and one of the largest crowds of the season will attend the game. The Wachusett have Belle, formerly of Lancaster, and St. George, catcher for the Townsend team, as battery, with Labuff at third base, and several of the Fitchburg players. Westford will present its usual strong team.

SHOT AT WHALE

Was Making Straight for Steamer

SAN FRANCISCO, July 28.—From the deck of the little coasting steamer Coos Bay, Capt. James Bowen waged a battle with a mammoth whale while his vessel was off Cayucas, on her way up the coast. The whale was observed making straight for the steamer and Bowen was obliged to put his vessel upon a different course to avoid collision with the mammal. Even this action of the skipper did not suffice to keep the Coos Bay out of danger, and drawing a revolver the captain opened fire upon his enemy.

Twice he emptied the contents of the revolver's chambers, but the leaden missiles apparently had little effect upon the mammal, as it renewed its attack upon the vessel. Finally in a last effort to escape from the whale, the skipper of the steamer ordered full speed ahead, and gradually the Coos Bay crept ahead of her pursuer.

One member of the crew said: "For some moments it looked like the whale would surely hit us, and considerable excitement was caused aboard the ship. The mammal was all of 100 feet long and seemed of a particularly vicious species."

"Even when Capt. Bowen discharged his revolver at it, the whale kept coming after us, although the water was dyed with blood."

DIED SUDDENLY

Doctor Was in Jail for Killing His Wife

NEW YORK, July 28.—Dr. Andrew Bergen Cropsey, the veterinary surgeon, who shot and killed his wife at her home in Bath beach, a week ago today, died suddenly in jail in Brooklyn yesterday. Heart disease was given as the cause of his death. Since his crime, for which he proclaimed sorrow and grief immediately after its commission, Dr. Cropsey had become a physical wreck and for several days had been on the point of collapse.

Dr. Cropsey belonged to one of the oldest families in Kings county. For generations the Cropseys had been prominent in social and civic affairs. He was forty years of age.

SECRET WEDDING

Boston Telephone Girl the Bride

BOSTON, July 28.—News of the secret wedding of Miss Jessie Ducommun, a 19-year-old Boston telephone operator, and Harry Moore of Lynn was received yesterday by Mrs. Carrie Ducommun, the bride's mother, who lives at 18 Paige street, Revere. The announcement was made on a postal card. The ceremony was performed by the Rev. A. E. Harriman, pastor of the East Baptist church, at Lynn.

The couple met 15 months ago at a social gathering. The mother objected to the marriage and thought they had broken off, until she received a postal from her daughter, saying they were married and on their honeymoon.

INJURIES FATAL

Concord Girl Struck by Locomotive

CONCORD, Mass., July 28.—Katherine Burke, daughter of Mr. and Mrs. James M. Burke, was struck by a south bound freight train on the N. Y. N. H. & H. railroad at Concord Junction last evening and died half an hour later.

Miss Burke, accompanied by several other girls, was crossing the track when the through freight train, Lowell, due at 8:30, bore down upon them. She apparently thought she had time to cross the tracks and did not hurry. She was struck by the locomotive and her body hurled to the side of the track. The other girls escaped injury.

When picked up Miss Burke was unconscious. She was carried to the baggage room, where medical aid proved of no avail.

BODY IDENTIFIED

Said to Be That of Harry Cornish

NEW YORK, July 28.—The body of the well dressed man found in Gravesend bay last Sunday afternoon was identified at 12:30 this morning as that of Harry S. Cornish, who figured so prominently during the murder trials of Roland D. Molinoux. This identification caused a stir among the Coney Island police, because all the circumstances which have come to light would indicate that the man was murdered. But no sooner had the police been told that they had the body of Harry Cornish on their hands than the press were apparently knocked out from under the identification by Edward Kinella, manager of Dreamland, at Coney Island, where Cornish holds many penny in the slot concessions. Kinella was positive that it was not Cornish's body.

Charles B. Crane, manager of a toboggan slide, was the man who saw the body in the Coney Island morgue and identified it as that of Cornish. Crane says he was a special detective at the second Molinoux trial.

Coroner Brewer and physicians at an autopsy yesterday after carefully examining the peculiar long cut on the back of the head, said the wound had been made probably with an axe.

Lord Roberts Will Reach Montreal Tonight

QUEBEC, July 29.—The main feature of yesterday's tercentenary program was the garden party at St. Lawrence, the beautiful residence of Lieut.-Gov. Jette, which overlooks the St. Lawrence just above Wolfe's Cove.

Yesterday was the prince's last day in Quebec, for last evening his royal highness went on board the Exmouth, where he was present at a state dinner. Later in the night the prince went on board the Indomitable.

At 11 a. m. yesterday the prince proceeded to Victoria Park and there planted a tree in commemoration of his visit. At 2 p. m. there was a military and naval turnout at which sports were indulged in, while the evening was taken up with a historical ball.

The crowds of visitors are thinning out, the soldiers are departing daily. Lord Roberts will leave Quebec today, arriving in Montreal in the evening.

The British tars scored a victory over the French and United States in the international race for 12-nared boats, representing the three fleets, in the regatta held in the harbor yesterday afternoon. For half a mile from the starting point it was between the Britishers and the Yankees, the Frenchmen dropping behind. Then the Britishers began to draw away and steadily increasing their lead, completed the three-mile course which finished at the Acrogant a minute ahead of the United States boat, with the Frenchmen a close third, 20 seconds behind the second boat.

LAW IS VIOLATED

Charge Made by Vermont Commission on Taxation

MONTPELIER, Vt., July 28.—Present and flagrant violations of the tax law, both by listers and by taxpayers and a too low appraisal of property throughout the state, are charged in the report submitted to Gov. F. D. Proctor by the Vermont commission on taxation appointed by the governor in accordance with an act of the legislature of 1906. The report was made public today. The commission which is composed of O. M. Barber of Bennington, John H. Senter of Montpelier, George W. Pierce of Brattleboro, A. A. Olmstead of Newbury, L. P. Slack of St. Johnsbury, and Ernest Hitchcock of Pittsfield, recommends the creation of a state tax commission of three members in place of the present single commissioner, the additional taxation of intangible property and many amendments designed

to strengthen the present tax laws. The report declares that less than three per cent. of all the inventories on file are filled as required by law, that many taxpayers file no inventories and that if the law imposing a penalty of \$100 upon a lister for accepting an inventory not properly made out were enforced the forfeiture thus incurred for 1901 alone would amount to more than \$20,000,000.

Messrs. Pierce and Olmstead are of the opinion that the present law giving the option to railroads to pay a tax based on their gross earnings instead of upon the appraised valuation of their property is an unjust discrimination in favor of such corporation and should be repealed. These two commissioners also recommend that a state tax be assessed upon the franchise and property of railroads at a rate to be ascertained by dividing the total amount of taxes levied by the total appraised value of property and polls entered in the grand lists. They also recommend a graduated income tax.

FOR MOTOR RACE PRES. GOLDEN

Subscriptions Solicited for the Big Race

To the Public Spirited Citizens of Lowell:

The Lowell Automobile club, after spending a great deal of labor and money, and having received all legal sanction from the state, city of Lowell and town of Tyngsboro, and having perfected all the details pertaining to the race, now respectfully call upon the merchants and financiers of the city for subscriptions.

We hope that everybody in this city will appreciate our labor and what this event means to Lowell, and let us prove to the country at large that this is a "city that does things."

That the spirit of progressiveness is not only characteristic of a few, but of the entire population and that we, one and all, will help to make this event a rousing success.

The following is a list of the expenses and resources incidental to erecting grand stands, band stand, judges' stand, oiling the road, wiring off same, 500 men to patrol, telephone service, and other expenses. The subscription to be paid back after the race from the revenue derived from the following sources as enumerated below:

EXPENSES.	
Erecting grand stand	\$4000
Erecting band stand	400
Erecting judges' stand	200
Telephone service, five stations around the course	300
Oiling and fixing road, not to exceed	1000
Wiring off road, 10-15 miles, labor and material	350
Banners across roadway at turns and in city at depot	300
1000 red and white flags	50
Caps and sashes for 500 men patrolling course	150
Wages for men patrolling course, 500 at \$2 per day	1000
20 megaphones	45
25 men to sell tickets, programs and score cards, \$2 per day	50
Printing programs and score cards, advertising in program to pay for same	60
Bulletin advertising, printing and distributing	2000
Incidental expenses	1000
Insurance	500
Legal expenses	500
Music	300
Total	\$12,145

RESOURCES.	
9000 seats in grand stand at \$1 each	\$9000
100 seats at \$5 each	500
50 boxes seating six at \$25	1250
10,000 programs at 25c each	2500
10,000 score cards 10c each	1000
Parking 2000 automobiles on side roads at \$2.50 each	5000
Parking space to peddlers for sale of eatables, tonics, candies, popcorn, peanuts, etc., and advertising spaces	2000
Entrance fees, 12 cars at \$250 each	3000
Revenue for vitagraph machines	1000
Total	\$25,250

Should we only receive 50 per cent of the apparent revenue we would then have enough to pay all expenses, and this would mean only 5000 people in the grand stand, parking only 1000 automobiles, selling 5000 programs, 5000 score cards and an equal depreciation from other sources.

We feel that there is not one chance in 100 for a deficit, as if it rains the race will be postponed to the next pleasant day.

We believe it a good investment for every public spirited citizen to help this celebration along, enabling our city to get a world-wide reputation, and bring in thousands of manufacturers, merchants, and sight-seers to our city, with the hope that some will ultimately locate their manufacturing establishments here or assist to finance some of our already established concerns, and besides this, a great multitude of people will certainly spend in our city many thousands of dollars during the day of the race and many days previous thereto.

We therefore respectfully hope that your checks will be willingly sent and credited to your lien on the revenue, pro rata to the amount of your subscription. Make checks payable to John A. McKenna, secretary, Lowell Automobile club and board of trade, 99 Central block, Lowell, Mass.

A guaranteed subscription to the amount of \$10,000 will be necessary to put this race through, and all subscriptions should be in before August 1.

Of the United Textile Workers of America

WAS IN LOWELL YESTERDAY

In Interest of Striking Brussels Weavers

John Golden, national president of the United Textile Workers of America, attended a meeting of the Brussels weavers held in this city yesterday afternoon. Mr. Golden came to Lowell to judge for himself the status of the trouble between the striking weavers and the Bigelow Carpet company.

At a meeting of the executive council of the organization held in Fall River on Thursday and Friday of last week the situation in Lowell was discussed and it was then that President Golden decided to come here in person. He wanted to find out how many of the Brussels weavers were still on strike and he satisfied himself that there is still a large majority of the original strikers not working.

President Golden will make his report to the emergency committee and that committee will report to the American Federation of Labor.

LINCOLN STATUE

School Receipts Netted

Only \$600

A meeting of the committee in charge of the Lincoln memorial, which is to be placed in Lincoln square, met yesterday afternoon in the rooms of the board of trade, Harvey B. Greene presiding. The fund, which is being raised by the school children, now amounts to \$600, though the total sum necessary is \$2000.

The committee has several thousand souvenir postal cards in hand, the proceeds of which when sold are to go to the fund, but it was the sentiment of the meeting that these should be held until September, when the school children will offer them for sale throughout the city.

Mr. Pratt, the Boston sculptor, who is at work on the medalion of Lincoln, sent word that the work was progressing very favorably.

It was stated that all of the money for the fund must be raised by the first of December.

FOR PIMPLES, TOO

New Discovery Cures Eczema and Eradicates Minor Skin Troubles Overnight.

A few months ago the dispensers of posium, the new discovery for the cure of eczema, decided to allow the druggists of the country to handle it. Previous to that time it could only be obtained direct from the laboratories.

Since this change in the method of distribution, posium has met with the most phenomenal success of anything introduced to the drug trade in the last 30 years. All leading druggists, including Fells & Burkinshaw and Carter & Sherburne in Lowell, are now carrying the special 50-cent size recently adopted, also the \$2 jar.

This great success is not surprising when it is remembered that, in eczema cases, posium stops the itching with first application, proceeds to heal immediately, and cures chronic cases in a few weeks. In minor skin troubles, such as pimples, blackheads, acne, herpes, blotches, rash, etc., results show after an overnight application. Experimental samples of posium are sent to anyone by mail free of charge by the Emergency Laboratories, 32 West Twenty-fifth street, New York City.

THE RED BOOKS

600 Will Soon Be Given Out

The committee on printing, Alderman Butlerworth chairman, held its second meeting of the year last night and it was a very important meeting for instance: It was voted to distribute the 600 red books. Each member of the committee will have 15 copies of the book to distribute, and all other members of the government will have seven each. Each member of the government will have one book with his name in gold letters (think of it) on the front cover. In executive session the committee voted to let the heads of departments have a book apiece and Clerk Dowling will send out for general distribution. After having attended to this momentous duty, going into it "exhaustively and exhaustively," the grandest committee of them all adjourned.

LOSS IS \$22,000

Several Injured at Fire in Boston

BOSTON, July 29.—Three firemen seriously injured by falling glass, practically all members of ladder Co. 2 affected by the excessive smoke, Chief Mullen of the fire department almost knocked out by inhaling the fumes of escaping gas and Supt. H. R. McConaghey of the Boston Mutual Life Insurance company rescued from his office by firemen, were among the many exciting features that attended a damaging and threatening fire, which broke out in the dry goods store of Woicott & Co., 31, 32 and 33 Central square, East Boston, shortly after 6 o'clock last night.

The damage is figured at \$22,000. The fire started in the basement of the building, a three-story brick structure, presumably from spontaneous combustion in a large consignment of cotton which arrived a few days ago. The blaze was discovered at 6.03 by E. Wyzanski, who is employed by the Woicott company. He observed smoke escaping through the cracks on the first floor. The fourteen young women that are engaged as saleswomen in the store were at the time preparing to go home. The store having closed for business at 5 o'clock, Mr. Wyzanski made known to the young women the presence of the smoke and they as quickly as possible, but without the slightest sign of commotion or excitement, left the store and were on the street before the fire had been observed by outsiders.

THEATRE VOYONS

"Damon and Pythias," the big hit of the Theatre Voyons bill today, is a most interesting picture and its story of the early days in Greece is an instructive and instructive one. The production is an exceptionally good one in regards actors, costumes and scenery. Historically the story as told is correct and the present production affords the best opportunity in years to see this story at its best. The comedies are exceptionally funny. "The Living Posters" shows a bill poster at work, and as soon as he

leaves the posters they come to life and their figures perform many strange stunts. "Stung" shows what mischief one boy and a bottle of bees can produce if combined with sleeping men and women. The youngster in the picture finds his victims everywhere and he causes them endless annoyance. "Sixteen" being especially catchy and novel. It is written by Kerry Mills who has given the music world many successful marches, and his latest is the equal of any. Tomorrow there will be a brand new bill, not only new to Lowell but composed of the latest and best selections of the product of the past week.

STAR THEATRE

As was expected, there was an immense crowd at the amateur show last night, the attendance beating all records. That the performance was keenly enjoyed was assured by the hearty outbursts of laughter and applause. There was some excellent singing and dancing by the little girls and an abundance of comedy was furnished by the several quartets of boys. The performance of James West was enthusiastically received. He has some new jokes that are great laugh-getters and his singing is very good. The songs, "You'll Have to Stay After School" and "As We Watched the Ships Go Sailing," sung by Babe Curry and J. C. Bell, have been very successful. The singers are generously applauded.

The new pictures today are both instructive and amusing. There is no better entertainment to be seen any place for the money. In fact it is worth many times the price asked. The theatre is cooled during the hot weather by mechanical means.

LAKEVIEW THEATRE

The popular comedy drama, "Fog's Ferry" is proving to be a good drawing card for the Adam Good company at Lakeview theatre this week, and the seating capacity of the theatre is taxed at each performance. The band concerts which are given daily at the park this week, are so arranged that they do not conflict with the performances at

the theatre, so that patrons are thus enabled to enjoy both of those sterling attractions at one visit. For the coming week, another good comedy is announced, "The Ranchman's Daughter," the scenes of which are laid on a cattle ranch in the west, and at an English country estate near London.

AN OVERTIME GAME

Lawrence Won Second Game in 12 Innings

A Couple of Misplays Lost the Game for the Home Team—Howard Plays Three Innings With Bad Ankle

After a ten minutes' intermission, the second game was started and the lineup was practically the same with the exception that Rivard replaced Warner on the slab for the Lowell team and Gilroy did the slab work for Lawrence while Dan Duggan went behind the bat.

FIRST INNING.

The visitors went out in quick order in the first inning. Flynn hit to Rivard and was out at first. McLean fled out to Uniac and Harter hit to Vandergriff and was out at first. Vandergriff hit to Wilson, who fumbled and the Lowell man was safe at first. Connors fled out to Harter. Zinsar sent a grounder to Gilroy and was out at first. Magee fled out to Connoughton.

Score: Lowell 0, Lawrence 0.

SECOND INNING.

Vinson singled, Flynn hit to Rivard, who threw to Uniac getting Vinson at second. Uniac's throw to first was off color and Wilson reached second. Connoughton hit clear to the trees in right field and Wilson thinking the ball was going over the fence, started for third. Zinsar sprinted for the ball and made a great catch, but injured his finger. He then threw to second getting Wilson for a double play.

Beard hit to Gilroy and was out at first. Uniac sent a grounder to Connoughton and was retired at first. Doran suffered the same fate.

Score: Lowell 0, Lawrence 0.

THIRD INNING.

Lawrence broke the ice in the third inning and scored two runs. Murch hit over Wolfe's head for a two bagger. Duggan singled to left field, scoring Murch. Gilroy bunted to Rivard who threw Duggan out at second. Flynn hit to Vandergriff and was out at second. Gilroy going to second on the play. McLean singled scoring Gilroy, but in his attempt to steal second was thrown out.

In the latter half of the inning Lemieux fled out to McLean. Rivard struck out while Vandergriff hit to Wilson and was retired at first.

Score: Lawrence 2, Lowell 0.

FOURTH INNING.

In the fourth inning Harter fled out to Uniac. Vinson hit to right field for a single. Wilson sacrificed sending Vinson to second but Connoughton fled out to Uniac.

In the latter half of the inning Connors drew a base on balls. Wolfe bunted to Gilroy and threw to first for a double. Magee struck out.

Score: Lawrence 2, Lowell 0.

FIFTH INNING.

In the fifth inning Murch hit to Vandergriff who threw to Doran, but the latter dropped the ball. Murch then stole second. Duggan fanned the breeze. Gilroy got a free pass. Flynn hit to Uniac who threw to second getting Gilroy and Connors threw to first for a double play.

Lowell scored one run in the latter half of the inning. Beard opened with a base on balls and he scored on Uniac's hit to right field for two bases. Doran singled and Uniac went to third, but he died there for Lemieux struck out and Doran in trying to steal third was nailed while Rivard hit to Gilroy and was out at first.

Score: Lawrence 2, Lowell 1.

SIXTH INNING.

In the sixth inning McLean opened with a single. Harter and Vinson fust fled to Lemieux. Wilson drew a free pass, but Connoughton hit to Rivard and was out at first. Nothing for Lowell. Vandergriff hit to Gilroy and failed to reach first. Connors fled to Harter and Wolfe struck out.

Score: Lawrence 2, Lowell 1.

SEVENTH INNING.

Murch fled out to Wolfe. Duggan fled to Magee and Gilroy struck out. The home team tied the score in the seventh inning. Magee opened with a two bagger to the right field fence and went to third on Beard's sacrifice. Uniac singled and Magee scored. Doran hit to Connoughton who threw to second and the ball was sent to first for a double play.

Score: Lowell 2, Lawrence 2.

EIGHTH INNING.

In the eighth inning Flynn drew a base on balls. McLean followed with a bunt to Rivard and the latter threw the ball to second to get Flynn but the latter beat the ball and both men were safe. Harter hit to Uniac forcing McLean at second. Flynn going to

And now it's Lowell's turn to join in the chorus of umpire knockers. Connolly did an awful job on balls and strikes, roasting both sides.

Officer Hamilton, manager of the Police team, offers to wager \$50 that he can pick a team of police officers who will defeat the Lowell team, two out of three.

Vinson has a fine clout. Howard limped into the second game to help out and made a beautiful double play.

Wolfe didn't show up as well as was expected of him.

Rivard made a couple of costly mis-

takes in trying to get men at second on sacrifice bunts.

Why not try out Martin? Greenwell and Rivard can't do all the work and Warner is too uncertain a proposition for a game of nine innings.

If George Mahoney of the High school team will play professional ball we think that he is worthy of a try-out in the New England league.

Jimmie Beard continues to play good ball and he has the crowd with him.

A bunch in the grand stand had a great time yelling at Duggan. Dan glared at them but said nothing.

Paddy Duff is getting one hit a day with New Bedford.

Umpire Lanigan "chased" Manager O'Brien and Capt. Donovan of Fall River "off the lot" in Brockton yesterday. Verily, these are the happy days for the ump.

The ground keeper ejected about 1400 well intentioned kids from the tree bleachers yesterday during the second game. It seems that a ball that went over the fence was "copped" by a youngster on the outside and before the ground keeper could get him the kid got in with the crowd. The ground keeper asked some of the others where the young thief had hidden himself and they refused to tell him. Then he got mad and said, "Just for that you'll all have to get out," and forthwith he chased them all. For half an hour the young army stood in Middlesex street yelling: "Sore head! Sore head!" while an occasional bunch found its way over the fence.

Says Newton Newkirk in the Boston Post:

At Lynn this week (Lynn is the town which made one end of the Boston, Revere Beach & Lynn Railroad famous) Umpire Joe O'Brien's decisions at a ball game did not please Dan Yerkes and Henry Labelle, and they told O'Brien to tell them to beat it to the Bad News Club. What followed beggars description. Yerkes had O'Brien's nose cut which transferred O'Brien's nose from the usual spot on one's face where the nose is located, to a point above O'Brien's eyebrows. Labelle passed O'Brien a wallop on the side of his face that started O'Brien's head turning so rapidly that it is said it turned 11 times before he had presence of mind enough to grab his head and stop it. Yerkes next tried to kick the back of O'Brien's trousers up between his shoulder blades and Labelle was just going to bite off O'Brien's right ear when the police intervened. Yerkes and Labelle were arrested for assault, while O'Brien hunched up a doctor who spent an hour in stock taking to find out how much of O'Brien there was left.

Worcester cites this instance to show that the location of a baseball umpire isn't exactly a rose-strewn path of bliss. Anybody who has an idea that the life of a baseball umpire is one continuous round of pleasure has been misinformed. For umpiring a baseball game an umpire gets anywhere from \$5 to \$10 a plus the hook. Those who don't like his decisions regard him a good deal as they regard a man who has been through the war of the Rebellion and yet have not as many scars to show for it as an umpire who has refereed one ball game.

ELKS VS. COPS

The Elks and Police team played a tie game at Spalding park yesterday. 10 to 10, the Elks giving the cops a big surprise as the latter believe themselves to be a strong aggregation, worthy of the New England league.

The Elks started to do things right away, but after a few innings the club swingers steadied down and evened up matters. Jimmie Gardner, the boxer, played with the Elks and showed up

CRICKET NOTES

The executive committee of the Bunting club held a meeting at the club house last night with President Henry Robertson in the chair. The delegates to the Lowell, Lawrence and district football league made interesting reports of the recent league meeting.

Each club in the league is to be allowed only 25 registrations, and 25 cents will be charged for each registration. What followed beggars description. Yerkes had O'Brien's nose cut which transferred O'Brien's nose from the usual spot on one's face where the nose is located, to a point above O'Brien's eyebrows. Labelle passed O'Brien a wallop on the side of his face that started O'Brien's head turning so rapidly that it is said it turned 11 times before he had presence of mind enough to grab his head and stop it.

The formal opening of the new club house will take place next Saturday afternoon at 2:45 sharp. Invitations and city officials and many other professional and business men. A large reception committee has been appointed to receive the invited guests, consisting of Joseph Ellis as chairman; Councilman Thos. Wilde, John Walcott, Michael Bowden, James Smith, John J. DETROIT RACES

DETROIT, Mich., July 28.—Minor Heir won the Chamber of Commerce stake in the presence of 10,000 people at the Grand Circuit meeting yesterday, after a notable struggle. Minor Heir was a favorite at 100 to 1 before the first heat.

This G. B. made the pace to the quarter, attended by The Eel, and then fell back to second place. On the back stretch Minor Heir advanced to second place, and was a neck behind The Eel at the half. The pair raced to the third turn at a two minute gait and just as they reached the home stretch Minor Heir broke. The Eel won easily in 2:03, the fastest heat ever paced in this race. Minor Heir barely escaped the distance flag.

Next time Minor Heir was on the outside and several lengths back when the word was given, but with a sensational rush, he took the pole at the turn and paraded the rest of the distance tea lengths ahead of The Eel, which broke before he had gone an eighth of a mile. In the third heat, The Eel stuck to Minor Heir for a quarter of a mile, but the pair killed him and again Minor Heir finished jogging.

Minor Heir won the fourth and fifth heat quite handsly, The Eel trying, but failing in the stretch. The race is the record for the stake. Summaries: 2 1/2 Pace: Purse \$100; 3 in 5. RIVER WATER FOR SPRINKLERS

SUPT. THOMAS, OF THE WATER DEPARTMENT, SAYS THE RUSTY SEDIMENT COMPLAINED OF IN THE CITY WATER AT CERTAIN POINTS IS DUE TO THE DISTURBANCE CAUSED BY THE STREET CAR SPRINKLER IN FILLING UP AT CERTAIN HYDRANTS.

WHERE THE MAINS ARE OLD THIS FRICTION CAUSED BY THE WATER RUSHING THROUGH THE PIPES UNDER GREAT PRESSURE, RUBS OFF PART OF THE RUST AND THIS PASSES OUT THROUGH THE FAUCETS IN THE VICINITY.

IT IS TO BE REGRETTED THAT A SUPPLY OF EXCELLENT WATER DRAWN FROM THE DRIVEN WELLS, SHOULD BE DAMAGED IN THIS MANNER.

THIS IS A RESULT THAT WAS NOT DREAMED OF WHEN THE CAR SPRINKLER WAS PUT ON. THE CITY WATERING CARTS OF COURSE CONTRIBUTE THEIR SHARE TO THE DISTURBANCE IN THE PIPES AND IN HOT WEATHER THIS AGITATION IS CONSIDERABLE.

THERE IS LITTLE PROBABILITY THAT THE RUSTY SEDIMENT OR ANY PART OF IT, COMES FROM THE WELLS, INASMUCH AS THE WATER ON LEAVING THE WELLS IS FOUND TO BE FREE FROM ANY SUCH IMPURITY; BUT THE CHARGE THAT THE WATER CONTAINS AT ANY POINT ANY POISONOUS SUBSTANCE IS WITHOUT FOUNDATION.

NOW IT IS WRONG TO HAVE A SPLENDID WATER SUPPLY SERIOUSLY DAMAGED BY ANY SUCH CAUSE.

WE CANNOT TELL WHETHER THE SOURCE OF SUPPLY IS INEXHAUSTIBLE BUT IN ANY CASE IT COSTS TOO MUCH TO BE USED BY THE STREET AND FIRE DEPARTMENTS INDEFINITELY IF THERE IS ANY OTHER SOURCE OF SUPPLY FOR THESE PURPOSES.

IF, HOWEVER, THE WATER SUPPLY IS DISTURBED AND CHARGED WITH RUST AS A RESULT OF WATERING THE STREETS, THERE IS BUT ONE REMEDY AND THAT IS TO PROVIDE STANDPIPES FROM WHICH THE CAR SPRINKLERS AND WATERING CARTS CAN BE SUPPLIED WITH RIVER WATER.

IF THIS WATER COULD BE USED FOR FIRES, THE WELL WATER WOULD BE SAVED TO THAT EXTENT, BUT THIS WOULD REQUIRE A WHOLE NEW SYSTEM OF MAINS THROUGHOUT THE CITY WHICH IS BEYOND OUR REACH.

BUT IT IS QUITE PRACTICABLE AND COMPARATIVELY INEXPENSIVE TO PROVIDE STANDPIPES AT A CENTRAL POINT FROM WHICH WATER FOR STREET SPRINKLING CAN BE TAKEN. THIS WOULD OVERCOME THE TROUBLE NOW COMPLAINED OF AND WOULD MOREOVER BE A SOURCE OF SAVING FOR THE WATER DEPARTMENT BECAUSE IT IS EASIER TO GET RIVER WATER THAN TO PUMP WELL WATER.

TWO NOTABLE EVENTS IN LOWELL

THE CITY OF LOWELL IS TO HAVE TWO EVENTS THAT WILL GIVE HER A GREAT ADVERTISEMENT.

THEY ARE THE NEW ENGLAND VETERAN FIREMEN'S MUSTER TO BE HELD ON AUGUST 20 AND THE GREAT AUTOMOBILE RACES ON LABOR DAY.

THE MUSTER WILL ATTRACT AT LEAST 100,000 PEOPLE TO LOWELL. IT IS ON A BUSINESS DAY AND FOR THAT REASON SHOULD BENEFIT LOWELL MERCHANTS AND TRADERS.

HENCE THE LOCAL COMPANIES SHOULD BE ASSISTED IN PROVIDING FOR THE ENTERTAINMENT OF THE VISITORS AND THE GENERAL SUCCESS OF THE UNDERTAKING.

INASMUCH AS THE CITY AS A WHOLE IS INTERESTED IN MAKING THE MUSTER A SUCCESS, THE LOCAL COMMITTEE SHOULD RECEIVE GENEROUS ASSISTANCE FROM THOSE WHO CAN AFFORD TO CONTRIBUTE.

THE AUTOMOBILE RACES ON LABOR DAY WILL BE ANOTHER GREAT ADVERTISEMENT FOR LOWELL.

THAT WILL BE AN EXPENSIVE UNDERTAKING AND UNLESS LOCAL CONTRIBUTIONS ARE FORTHCOMING IT WILL NOT BE A SUCCESS.

THERE IS AN OPPORTUNITY FOR PUBLIC SPIRITED CITIZENS TO AID BOTH THESE ENTERPRISES AND THEREBY HELP TO BOOM LOWELL AS A LIVE AND ENTERPRISING CITY, WHOSE PUBLIC SPIRIT GUARANTEES THE SUCCESS OF EVERYTHING SHE UNDERTAKES.

TO LOWELL'S ADVANTAGE

WHEN A CITY HOISTED BY BOOMS OF ONE KIND OR ANOTHER IS STRUCK BY A BUSINESS DEPRESSION, THE COLLAPSE SOMEWHAT RESEMBLES THAT OF A BALLOON WHOSE GAS BAG HAS BEEN PUNCTURED. THE FALL IS SUDDEN AND SEVERE. WITH LOWELL THE CASE IS DIFFERENT. AS SHE PURSUES THE EVEN TENOR OF HER WAY, SHE NEVER GETS UP VERY HIGH AND, THEREFORE, HAS NOT FAR TO FALL EVEN IN THE MOST SEVERE INDUSTRIAL CALAMITY.

SEEN AND HEARD

"My rolling is just wearing me out," said a young lady who is spending the summer at Willow Dale. "What do you mean by rolling?" was asked. "What do I mean by rolling? The rolling cure, reduces flesh. Lillian Russell does it, you know. You lie down and roll on the bare floor two hours each day. It makes one so lame! And I have tried it for two weeks and haven't lost a pound."

DON'T

A hundred times a day I hear from mother say: "Don't do that, dear!" From early morn till dusk 'tis all "Don't do that, dear!" I hear her call from the back porch and front and side. As though some evil would befall. Unless she dreamed it in his ear: "Don't do that, dear!" "Don't do that, dear!"

If he goes out and slams the door: "Don't do that, dear!" and if the floor is newly scrubbed and he comes near: "Don't do that, dear!" Is all I hear. If he comes tramping down the stairs: "Don't do that, dear!" and if he wears No 11, but hangs it somewhere near, She says and says: "Don't do that, dear!"

If he goes shinning up a tree: "Don't do that, dear!" If he should be Asleep a root I know I'll hear His call to him: "Don't do that, dear!" His life is all "Don't this," "Don't that," "Don't lose the dog," "Don't chase the cat," "Don't go," "Don't stay," "Don't there," "Don't here," "Don't do that, dear!" "Don't do that, dear!" "Don't do that, dear!"

Sometimes he seems to me as still As any mouse until a shill on the air And drives him swift away from there. So when he finds another spot: "Don't do that, dear!" and he says: "What?" And she replies and cannot say: "But—well, don't do it, anyway!" —J. W. Foley, in New York Times.

The Newburyport News says: A Japanese who has just passed the dental board of this state is to be "tooth-puller to the emperor." However, as an emperor has no more teeth than other people and they are no more liable to ache than those of other people, his position will be something of a "pull."

"PEOPLE, PROTECT YOUR PROPERTY."

"Keep off the grass" signs have been entirely abolished in the progressive cities. It is held that the trivial damage done by the throngs who walk on the grass on Sundays and holidays is more than compensated for by the pleasure bestowed in the knowledge that everything in the public property is free and open to all. The only admonition to the public which still finds favor is the terse sign used in Glasgow, Scotland: "People, protect your property." This reminder is said to operate more effectively than any of the old prohibitions.

EDITORIAL COMMENT

GLORY IN PLENTY.

Fall River Globe: In the field and track events at the London Olympiad, the Americans scored 114 2-3 points to 66 and 1-3 by the representatives of the United Kingdom. This is glory enough to compensate for all the unpleasant and unfortunate experiences the American athletes have had during this notable event. The treatment that was accorded them was, from all accounts, both ungracious and unsportsmanlike.

A SAMPLE OF TAFT "PROSPERITY"

From the Omaha World Herald.

Modestly tucked away in an obscure corner of our valued contemporary, the New York Sun, the World-Herald discovers the following bit of interesting and important information:

Pittsburg, July 18.—The Republic Iron and Steel company has signed an agreement with its union workmen to hold for the coming year. The scale, which was signed last night, provides for an average reduction of 10 per cent. It is announced that the eleven plants of the Republic company scattered throughout the country will start on Monday morning. The mills have been closed since June 30 owing to the expiration of the wage scale and the need of repairs. The scale is substantially the same as that adopted by the Western Iron association.

Just the significance of this item be missed, it might be mentioned that the Republic Iron and Steel company is one of the numerous great corporations and trusts of which George Rumsey Sheldon, the republican treasurer, is a director.

It is one of the constituent elements of the steel trust, under the domination of such powerful supporters of Judge Taft as Andrew Carnegie, J. Pierpont Morgan and John D. Rockefeller.

It was Mr. Morgan who ejaculated "Bully! bully!" when informed of Taft's nomination.

It was Mr. Carnegie who assured us blandly that Taft's nomination would surely be followed by his election, and that this assurance was all that was needed to "restore prosperity."

It was Mr. Rockefeller who, when the Taft fortunes hung in the balance, made his nomination certain by turning the vast influence of the Standard Oil monopoly in his favor.

All these interesting and amiable gentlemen have been telling us a great many things about the panic. They have told us there is no panic. They have said it doesn't amount to much anyhow. They have added that the certainty of Taft's election would promptly cure it, and restore us a prosperity more marvelous and abounding than any that has gone before.

Yet they shut down the mills and furnaces of the great Republic Iron and Steel company, and kept them shut down, until their employees consented to go back to work for the coming year at a 10 per cent. reduction in their wage scale!

Is this just a taste of the "prosperity" Mr. Taft's friends, and Mr. Taft's treasurer, are going to give the laboring men after Taft is elected?

If Taft's election is assured, and if his election means greater prosperity than ever, why not divide up that prosperity with the man who works for a living?

The cost of living is steadily increasing. The trusts and the railroads see to that. They continue piling the burden higher and heavier on "the ultimate victim," the consumer. Consequently a man whose wages remain dollar buys less and less. But here come Treasurer Sheldon and these other eminent pillars of prosperity and, not content with this, slash one-tenth off the wages they propose to pay their men under "Taft prosperity!"

Clearly, there is a screw loose, somewhere, republican logic doesn't track. It might be interesting if Treasurer Sheldon or the republican national committee would explain why the great steel corporation of which he is a director is reducing wages.

manlike. John Bull in this connection, shown himself to be a "bad loser." We shall probably, for a time at least, while the memory of certain occurrences at these games remains fresh in the public mind, hear less of that twaddle about "hands across the sea" and of "blood being thicker than water" than we have been having so frequently exploited by wind jamming after-dinner speakers and hot-air specialists.

The sentiment that seems to have prevailed all through these contests, both among the public over there and those having management of this international meet, was distinctly hostile to the Yankees, and when it was apparent that in any particular trial a Britisher could not win, the sympathy of the crowd was invariably with the contestants of other nationalities than the Americans.

YOUNG HAYES' REWARD.

Fall River Globe: Young Hayes, the winner of the Marathon, is a clerk in a large New York department store. He has been earning \$20 a week. His victory is going to be much more substantial than the mere glory that attaches to those who win the prize. He is now the head of the concern in whose employ he is, and has announced that when he returns he will be put at the head of the sporting goods department at a salary of \$4000 or \$5000 a year. Nothing hazy about that.

SCARLET FEVER VACCINE.

Worcester Post: The physicians of the Sick children's hospital in Toronto, Ont., believe they have developed a vaccine against scarlet fever not of any such extended efficiency as that against smallpox but sufficient to afford immunity during epidemics. Records carefully kept for nine months seem to support the claim.

The method is to extract an ounce of blood from the arm of a patient when the fever is at its height. This culture is placed in a suitable receptacle, kept for twenty-four hours at a heat that will induce the bugs to grow to the fullest extent. The organisms are then killed by heat, and suspended in a salt solution which is used for vaccination.

The theory is that the essence of the microbe creates a reaction in the human system, and assists nature in its effort to throw off the poison.

Or perhaps it would be more correct to say that the introduction of the microbes even dead arouses the counter forces of the blood to an activity that means immunity. If the discovery is sustained by experience it ought to have far reaching results, for the scarlet fever germs are of the species termed "steptococcus," which is also known to be the cause of erysipelas, and many kindred diseases. The bug has many different forms, each of which produces a different disease.

Norman J. Lee, formerly traveling passenger agent of the New Haven, and now general agent of the passenger department in New York, is one of the brightest of recent additions to the local passenger traffic colony. He is now installed at his headquarters in the Grand Central station, New York, and will be heard from in the contest for business in this territory.

Albert Jeannotte, who sang the role of Prince Danilo in the Chicago production of "The Merry Widow," was commanded to sing before the Prince of Wales on the occasion of the forty-first anniversary of the foundation of Quebec. He sang several French-Canadian folk songs.

The efforts of John W. Gates to make Port Arthur, Texas, the deep-water terminus of a number of lines of railroad, are already meeting with success. He owns practically the whole town, and is a controlling factor in the Kansas City Southern, which was the first line to be built here. When Mr. Gates

moved his place of residence from New York to Port Arthur several months ago, he announced that this place was to be his future home, and that he would devote his efforts to make it one of the greatest ports on the gulf coast.

In line with his intentions, Mr. Gates is promoting the building of two new railroads into Port Arthur, and has gone to Europe for the purpose of financing the projects. The contract for building one of these roads was let a few days ago to D. H. Donovan of St. Louis, Mo. This road is called the Port Arthur & Houston Short Line. It is to run between Port Arthur and Houston by the most direct route. Grading is already in progress between La Porte and Houston. The other road is to run between Port Arthur and Waco. The preliminary survey has been made, and if Mr. Gates is successful in financing it in Europe, the construction work will be started immediately after word is received from him.

In addition to these two roads, Mr. Gates has induced E. H. Harriman to give orders for the building of a branch line of the Southern Pacific into Port Arthur. An amendment to the charter of one of the Texas corporations of the Southern Pacific to provide for building this branch line was recently filed in the office of the secretary of state in Austin. It will be built and in operation within a few months.

It is said that Mr. Gates also has in contemplation the building of a direct line of railroad between Port Arthur and Memphis, Tenn. This would place Port Arthur in close touch with a large tract of country.

In the district court in Cambridge yesterday George W. Montgomery, 26 years old, of Dorchester, was sentenced to one year in the house of correction for the larceny of a bicycle, the property of J. Leo McDonald.

Montgomery has four previous convictions of larceny against him, and has served two terms at the reformatory and two at Deer Island. He told Judge Almy that morphine was the cause of his downfall. He said he was under the influence of the drug when he stole the bicycle.

"You could not get the drug while you were in the house of correction in Boston could you?" asked Judge Almy. "Yes, Your Honor," replied Montgomery. "I got all I wanted of it there and I learned the habit at the Concord reformatory."

Y. M. C. I. MEETING

LARGE ATTENDANCE AND MUCH BUSINESS TRANSACTED.

The Y. M. C. I. held its regular meeting last evening with a large attendance. Two new members were admitted.

In regard to the dance to be held in the hall, the committee in charge reported favorably, stating that arrangements are progressing rapidly and everything points to a successful entertainment, as is generally provided by the society. President Kelley spoke encouragingly on the sociable and urged the members to make it a grand success. The sociable committee will hold another meeting next Sunday morning.

FRANK J. GOULD ROBBED A WOMAN

Admitted That He Knew Man Found \$97 in Her Stocking

NEW YORK, July 29.—

Frank Jay Gould was put through a sharp examination last night by the defence in the alleged conspiracy plot to manufacture divorce evidence against him. He was questioned at length as to his acquaintance with Miss Bessie De Voe, whose name has figured in the case, but the most damaging admission the lawyers could draw from him, was the fact that he had met Miss De Voe and knew who she was.

As yesterday was the day set aside by the court for Mr. Gould to visit his children, Magistrate Corrigan, before whom the case is being heard, excused Mr. Gould at the day session and held court last night.

So great was the crowd of spectators and witnesses that it was necessary to move the hearing from the Tombs to the court to the court of special sessions.

District Attorney Jerome submitted a copy of Mrs. Gould's complaint in the divorce action to the court in order to show that the divorce suit was actually pending at the time of Mrs. Gould's arrest.

It simply alleged misconduct on the part of Mr. Gould in North Sydney, C. B. Canada, July 25, 1905. It did not name any person or persons or go into details.

Edward E. Raynes, the district attorney's detective, told of the arrest of Mrs. Gould, Miss Fleming and Mousley, and said he found on Mousley, a photograph of Mr. Gould and the affidavit signed by Miss MacCaulan.

After the prosecution rested, Messrs. Smyth and Blumenthal for the defense made arguments asking for the discharge of clients. Magistrate Corrigan reserved decisions on these motions.

BOSTON, July 29.—

An apartment house thief, who evidently entered through a skylight, secured \$90 under desperate conditions yesterday afternoon in the Woodbury, a lodging house at 608 Tremont street.

The money was taken from Mrs. Georgia Smith, manager of the lodging house, after a fierce fight in which the woman was roughly handled. The intruder escaped without being seen by any of the other inmates of the house, although Mrs. Smith screamed.

The robbery was committed about 1 o'clock. Mrs. Smith was putting away some towels in a room on the top floor. She was singing softly until she observed that the skylight in the room was closed. As she was bending over a drawer she was grabbed by a man who then threw her on the bed.

He pushed a pillow over her face, placed his right knee on her chest and his left hand on her face.

Her hands were free, but she was so weak from the fright that she was powerless to resist as the man began searching her clothing. In her stocking he found \$97. As soon as he secured this he ran from the room, locking the landlady in.

Nobody saw him as he ran down three flights of stairs to Tremont street. The screaming of Mrs. Smith attracted the wife of Dr. Thurlow, who has an office in the house. Mrs. Thurlow found her landlady locked in the room, shedding tears.

STOLEN LUMBER

Of Stone Crushing Shanty Returned

The greater part of the lumber stolen from the temporary ledge at the corner of Moody street and Riverside avenue has been returned. When the lumber was taken away Supt. Morse reported the matter to the police and Inspector LaFramme, assisted by Patrolman Frank Fox, investigated the matter and found that a number of boys and a man, thinking that the wood was to be thrown away, took it off and stored it for fire wood.

Supt. Morse, however, decided that he could use it to advantage and last night the boys piled the wood on wheelbarrows and brought it back. There were ten wheelbarrows in the procession.

GOT MORPHINE

Man Learned Habit at the Reformatory

In the district court in Cambridge yesterday George W. Montgomery, 26 years old, of Dorchester, was sentenced to one year in the house of correction for the larceny of a bicycle, the property of J. Leo McDonald.

Montgomery has four previous convictions of larceny against him, and has served two terms at the reformatory and two at Deer Island. He told Judge Almy that morphine was the cause of his downfall. He said he was under the influence of the drug when he stole the bicycle.

"You could not get the drug while you were in the house of correction in Boston could you?" asked Judge Almy. "Yes, Your Honor," replied Montgomery. "I got all I wanted of it there and I learned the habit at the Concord reformatory."

HISGEN AND GRAVES

Nominated to Lead the Independence League

CHICAGO, July 29.—Thomas L. Hisgen of Massachusetts was nominated for president, and John Temple Graves for vice president, by the Independence League convention last night. Hisgen was placed in nomination by Rev. R. L. Sawyer of Massachusetts.

The conclusion of Mr. Sawyer's speech was the signal for cheers from the Massachusetts seats in which California delegates and a few from Minnesota and South Dakota joined. A big banner bearing Hisgen's portrait was brought to the platform where it was joined by the California state flag.

After two minutes, Chairman Walsh began rapping for order. The Minnesota standard was put in the procession, then Illinois, Washington and Nebraska. Three minutes later the demonstration had subsided.

Bernard Sutter of Atlanta, Ga., presented the name of Temple Graves. In a snappy speech he set the convention hall ringing with cheers.

STORM BREAKS OUT.
When Kansas was reached, J. I. Sheppard of that state asked the chairman if it were possible to vote for any candidate for the nomination who was not a member of the party. The reply was that the question had not yet arisen, whereupon Mr. Sheppard took the platform, announcing that he had a candidate.

He mentioned the candidate of the democratic party and a storm of hisses and hoots greeted the reference. The hall continued in an uproar for several minutes, the galleries persisting in breaking into the proceedings with jeers and remarks.

Mr. Sheppard was finally allowed to proceed. He had spoken but a few minutes when the delegates broke in upon him. Charles H. Mitchell of Illinois in an ugly mood, closed in and

for a minute or two Sheppard was in actual danger. Brust and Annenberg also carried him and fought their way, foot by foot, along the passage way. John Dalley, a delegate from the 25th assembly district of New York city, struck at Sheppard's head with a cane, and if the blow had not been intercepted, might have seriously injured him. Dalley was shoved down into a seat, and escorted by the sergeant-at-arms, Sheppard was taken to the door and told to leave the hall. He lost no time in obeying the injunction. During the confusion Chairman Walsh strove desperately for order, but without avail. When Sheppard started down the aisle he called anxiously:

"Somebody protect that man!" He repeatedly begged the delegates to keep quiet and remember that they were gentlemen. The plea, however, fell on deaf ears until Sheppard had left the hall.

Judge Waterbury of Emporia, Kansas, took the platform for the purpose, as he expressed it, of "putting my state right." He denied that Mr. Sheppard acted with the knowledge of the delegates from his state, the denunciation of the speaker by the cause he attempted to advocate bringing cheers from the delegates and a few hisses from the galleries.

Hugh McIsaac of San Francisco, speaking for California, seconded the nomination of Hisgen of Massachusetts.

Minnesota seconded Hisgen's nomination. Michigan seconded the nomination of Graves.

Mississippi seconded the nomination of M. W. Howard of Alabama, and Missouri followed suit. Montana declared for Hisgen. New Hampshire seconded Hisgen.

THE SHORTEST SPEECH.
New York sent to the rostrum Judge John Palmiero, who placed Reuben Lyon, of that state in nomination. He spoke but a few minutes, making by far the shortest nominating speech of the night. Dr. J. D. Bush also of New York, seconded the nomination of Mr. Lyon.

West Virginia, called, brought resignations from the convention, two delegates leaving because they were not satisfied with the platform.

The incident caused little commotion and the seconding speeches concluding with seconds for Hisgen from Washington and Wyoming, and for Graves from the District of Columbia.

The convention then proceeded to ballot.

The first ballot resulted:
Hisgen 396, Howard 200, Graves 213, Lyon 71, Hearst 42.

The second ballot was:
Hisgen 530, Graves 153, Howard 103, Hearst 43.

HISGEN WINS.

On the third ballot the vote drifted toward Hisgen and it was evident his nomination was certain.

Virginia broke from Graves and placed him within a few votes of success. Then came the vote of Missouri. There was a scramble for the "band wagon." Missouri swung its vote for Hisgen. Georgia changed from Graves to Hisgen and then they came too rapidly to count, all changing from Howard and Graves. Alabama withdrew the name of Howard after Hisgen had been actually nominated and cast her vote for Hisgen.

The ballot resulted:
Hisgen 821, Howard 33, Graves 7, Hearst 2.

A roar of applause followed the announcement of the ballot and a motion making unanimous the nomination was adopted with a yell. The usual parade of standards around the hall then commenced while the band played patriotic airs.

CURRENCY PLANK

ALMOST CAUSED A BREAK IN THE PARTY.

CHICAGO, July 29.—The newly formed Independence party was threatened with a dangerous schism yesterday during the debate on the currency plank of the platform in the session of the committee on resolutions. So serious did the situation become that several party leaders not members of the committee were sent for in an effort to bring the recalcitrant members into line. William R. Hearst and Gesner Williams of California, appeared before the committee, the former making an extended statement in explanation of the position taken by the February conference of the party on the subject, the action at that gathering having formed the basis of the platform as originally drawn up yesterday. Despite this the committee directed a revision of the currency plank, the revised version taking new ground in the right of the government to loan treasury funds to national banks is not recognized.

The plank as corrected and adopted by the convention favors the establishment of a central governmental bank, which institution is to be the medium through which money shall be put into general circulation.

The storm broke in the committee almost as soon as the platform was taken up for consideration. The sub-committee had been busy making the final draft of the document since early morning and it did not complete its task until after noon. It was nearly five hours later before the currency plank was disposed of, the sub-committee having finally to retire and re-write the paragraph.

Roscoe T. Hardin of New Hampshire declared that the party was about to be "sold to the worst trust of all—the National Banking Trust," while Colonel J. C. Guffey, of Kentucky, asserted that if the organization was going to ally itself with the National banks, he was going home to resume his former political affiliations.

It was at this juncture that Mr. Hearst appeared before the committee. After his speech, Milton W. Howard, of Alabama, suggested a compromise and the incorporation of the declaration favoring the central governmental bank followed.

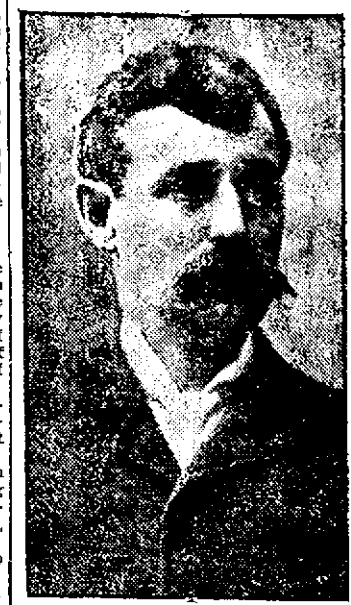

F. C. BEHARRELL BROKE RECORDS

Expired Suddenly on Steamboat Yesterday High Honor

ON ST. JOHN RIVER, N. B.

Was Returning Home From a Trip

ST. JOHN, N. B., July 29.—While coming down the St. John river on the steamer Elaine yesterday, Frank C.

THE LATE FRANK C. BEHARRELL

Beharrell, a retired contractor and wealthy real estate owner of Lowell, Mass., died suddenly from the bursting of a blood vessel in the region of the heart. The body was brought down to this city and will be taken to Lowell.

Mr. Beharrell, who was accompanied by his brother, J. R. Beharrell, arrived here last Thursday and went to Frederickton Friday. Soon after starting on the return trip yesterday morning, he was stricken with illness, which quickly proved fatal.

On arrival of the steamer at St. John, the body was removed to an undertaker's and was viewed by the coroner, who expressed the opinion that the lining of the vessels in the heart had been affected and a sudden strain had caused a rupture. He was 56 years of age.

Mr. Beharrell was a well known contractor and real estate broker in Lowell with a residence at 83 Fremont street.

Mr. Beharrell is survived by his wife, Mrs. Bertha Beharrell, a son, Arthur G., and two brothers, Joseph of this city, and Isaac L., of Concord Junction. He was a member of Lowell council, R. A.

Yesterday was a red letter day at the Wakefield rifle range and records were knocked "dally-west." The New England military rifle tournament is in progress and with the exception of the 200 yards range clean scores were made at all the ranges.

The rifle team representing Company C of the Sixth regiment, located in this city, was present and captured the state of Maine trophy.

The state of Maine match is open to teams of five men from any company, troop or battery unit of the organized militia of New England, for a trophy and medals presented by the governors and staffs' association of Maine; distances, 200 and 500 yards; number of shots, 2 sighting and 7 shots for record

at each range; time limit, 45 minutes at each range. Prizes: First, a trophy, to become the property of the team winning it three times, not necessarily in succession, and a medal to each member of the team; second, bronze medal to each member of the second team; third, bronze medal to each member of the third team.

With the exception of the three company teams that got places in the First corps of cadets match, the same teams were entered in this contest. The competition was keen from start to finish, and for the second time today the trophy being shot for dropped into the lap of the Sixth infantry, Co. C of Lowell.

landing first place, making a garrison finish, the last two men making clean scores at 500 yards, as did also the second man up, Co. K of the Second infantry, M. V. A., tied with Co. F, First Maine, with a score of 304, but as the latter made the highest score at the 500 yards range, 162 against 157, it was given second place. The score of Company C:

BRYAN TO REPLY

To the Statements of William H. Taft

FAIRVIEW, Lincoln, Neb., July 29.—The first authentic outline of Mr. Bryan's plan of campaign was secured today from one close to him. A few prepared speeches will be made at central points and nearly all of them will be made by Oct. 1. During October he expects to remain at home and assist in the educational work of the campaign through discussion of public questions in the form of interviews, signed articles and letters.

Despite the heat Mr. Bryan today was hard at work with his secretary, Mr. Rose, disposing of correspondence.

Mr. Taft's speech of acceptance of the republican nomination for the presidency was read with great interest and in view of the strictures upon Mr. Bryan himself and the democratic party in general it is not improbable that Mr. Bryan this afternoon will issue a formal statement in which he will answer some of his opponent's statements.

Mr. Bryan is much pleased with responses to his suggestion that democratic newspapers open subscription lists for campaign contributions. He said today that the fund, already considerable, was steadily growing.

THE PRESIDENT

To Learn Situation in New York

OYSTER BAY, N. Y., July 29.—The president will this afternoon receive full information on the political situation in New York state from the chairman of the New York state committee, Timothy Woodruff, who arrived here today. Mr. Woodruff was taken to Sagamore Hill where he will have luncheon with the president. It is Mr. Woodruff's intention to present to the president the political situation exactly as he finds it exists today. The president wishes to see everything possible done for the success of the election of Mr. Taft and his wishes in regard to the New York campaign undoubtedly will be made known to the republican chairman at Sagamore Hill today.

Francis B. Loomis, American commissioner to the Japan exposition at Tokio and Henry B. Needham also were luncheon guests of the president. Mr. Loomis formerly was American minister to Venezuela. When asked whether his visit to the president had any connection with the situation in Venezuela, Secretary Loeb said that it had nothing whatever to do with it. Mr. Loomis with the other commissioners will make a trip to Japan leaving in September.

SHOOTING TODAY

Contest for Bancroft Trophy and Medals

WAKEFIELD, July 29.—Regiments connected with the state militia of Massachusetts, Maine and New Hampshire were represented by teams of six men each in the competition for the trophy and medals offered by Major General William A. Bancroft of the Massachusetts volunteer militia which was the feature of the third day of the targets of the New England military rifle association's 4th annual tournament. The marksmen were first stationed at the 200 yard mark where their shots were governed by the rapid fire regulations of five shots in 20 seconds and later went back to the 600 yard stage with slow fire. The morning skirmish run of two hours was between teams from the several states represented. The Governor Floyd match at 300 yards, the Lawrence match at 200 yards and several pistol competitions all of which are shot in during each day of the tournament occupied the remainder of the targets. In the afternoon in addition to those matches which ran through the day there was a number of events to be decided among them the matches for the Shuman trophy at 300 yards, the Tanner match at 200 yards and the Hayden match at 600 yards and the Gov. McLane match at 500 yards.

CRISIS NOT OVER

Trouble is Still Brewing in Turkey

CONSTANTINOPLE, July 29.—The crisis in Turkish affairs is by no means over. The demonstrations that have been in favor of the sultan may at any moment turn against him if he does not yield to the demand of the constitution party for the dismissal of the palace camarlita. It is believed that the sultan will make these concessions. Some of the obnoxious officials already have been removed. The sultan is becoming uneasy.

CHARRED BODY

Found in Bonfire in Vacant Lot

NEW YORK, July 29.—The charred body of a woman was found in a bonfire on a vacant lot in the Williamsburg section of Brooklyn today. The legs and arms were nearly burned off and the head and other parts of the body were disfigured. A stableman who discovered and extinguished the fire was detained by the police.

The place where the body was found is used as a dump for refuse. Joseph Reddick, the stableman, told the police that he saw the fire burning when he awoke early today and that with the aid of his son he extinguished it. Beneath the body was an old mattress partially burned. The pieces of a large glass bottle which lay near the body led the police to believe that acid had been used, possibly to disfigure the body or cause the fire to burn more briskly. The police are working on the theory that the woman was murdered and her body carried to the dump and set on fire to conceal the crime.

THE TENNIS PLAY

Fourth Round in Longwood Singles

BOSTON, July 29.—The competition thus far in the tennis tournament now in progress on the courts of the Longwood Cricket club had brought the play in the Longwood singles event through to the fourth round and that in the eastern doubles to the third when the first players took their places on opposite sides of the nets today. In the former event there were eight matches to be decided before the fourth round was completed and it was expected that several matches might be played in the fifth round before the day's close. The same number of contests were necessary in the doubles tournament before all the pairs could reach an even standing in the fourth round, the Holt-Foster team having already reached that point while one match remained to be decided in the third round in which J. D. and H. L. Whitman of Boston and F. G. Anderson and J. D. Jones of Providence were the opposing teams. One of the most interesting of the forenoon matches in the singles was that between H. L. West and G. E. Touchard, both of New York who were paired together in the doubles. The gallery also showed much interest in the match between J. O. Providence who was responsible for one of the upsets yesterday and F. C. Innan of New York. The competition in the doubles was unusually keen and several exciting matches resulted. The Johnson brothers of Boston in their match with W. Y. Rosenbaum and R. H. Palmer of New York were the favorites and played a strong game and the Doyle brothers of Washington figured in an interesting match with W. F. Johnson of Philadelphia and R. C. Seaver of Boston.

Faltchid, Augustus Post, secretary of the Aero club of America, William Moore, chief of the weather bureau; Major Squiers, Captain Wallace and Lieut. Frank P. Lahm of the signal corps.

BANKERS INDICTED

They Are Charged With Grand Larceny

NEW YORK, July 29.—Quarantine Commissioner Frederick H. Schroeder of the Eagle Savings & Loan Co. of Brooklyn and Col. Edward E. Britton, president of the Eagle Savings and Loan Co., were arraigned today before County Judge Dike in Kings county on four indictments charging them with grand larceny. The indictments allege that Schroeder and Britton obtained sums aggregating over \$6000 in cash from the company on memorandum checks which were charged in the accounts of the company as cash. When arraigned Schroeder and Britton pleaded not guilty and were held in \$10,000 bail each.

Officials of the district attorney's office state that while the indictments specifically charge that four sums namely \$250, \$4000, \$600 and \$792, were obtained by Schroeder and Britton from December last until this month, that the total sum of such alleged larcenies will approximate \$10,000. There has been no suggestion made that the credit of the Eagle Savings & Loan Co. has been impaired in any degree. Commissioner Schroeder is an officer of several well known Brooklyn clubs and a local republican leader. Col. Britton for a number of years has been a staff member of the second brigade of the state national guard.

McINTYRE DEAD

McINTYRE DEAD

He Was Head of Failed Firm

NEW YORK, July 29.—T. A. McIntyre & company, the stock exchange house, failed for over \$400,000, following which McIntyre was indicted on charges of larceny growing out of various transactions alleged to have been fraudulent. He was in ill-health at the time of the indictment and had been failing rapidly since that time. A hearing was set for the case on July 31, but his condition then was such that a postponement was necessary.

Thomas McIntyre for many years was one of the prominent figures in New York financial and speculative circles. The firm of which he was at the head up to the time of his disastrous suspension, a few months ago, was identified with the stock exchanges and boards of trade of half a dozen cities. When the crash came there were revelations which resulted in the indictment of McIntyre on the charge of grand larceny and made necessary a thorough investigation into the failed company. The investigation still is in progress and when a board of trustees to administer the affairs of the involved company was appointed the other day it was announced that property valued at \$100,000 had been found to apply to the liquidation of debts of more than a million dollars.

Attorneys for McIntyre declared at that time, however, that eventually fifty cents on the dollar would be paid on the total indebtedness.

LATEST CORNISH IS ALIVE

Body of Drowned Man Had Been Identified as His

NEW YORK, July 29.—Although the body of a murdered man which was found in Gravesend bay last Sunday was believed to be that of Harry S. Cornish, one of the central figures in a mysterious murder case a few years ago, the identification was subsequently disproved. Mr. Cornish, who could not be found at first, on seeing the published identification, called up the newspapers and several of his friends and asked that the report of his death be corrected.

The mistaken identification was made by Crane, who was formerly employed as a detective in the murder

trial and who said he knew Mr. Cornish well enough to be positive that he was the man whose body lay in the morgue.

The condition of the body left no doubt that the man had been murdered. Three of his teeth had been knocked out and there was a great gash in the back of the head as is caused by a hatchet. The police believe that the man was struck from behind, robbed and the body thrown into the bay in an effort to cover up the crime.

The police have no clue to the identity of the murdered man.

THE BIG MUSTER

Col. J. H. Carmichael Will Head the Parade

COL. JAMES H. CARMICHAEL, To Be Chief Marshal.

Elected Chief Marshal at Meeting of Butler Vets—Continuous Band Concerts During the Play Out—Slight Change in Route of Parade

As was exclusively announced in The Sun of recent date, Col. James H. Carmichael will be the chief marshal of the big firemen's parade on muster day, having been formally elected to the position at a largely attended and enthusiastic meeting of the Butler Veterans' Association, last evening. Prior to the meeting there was a strong sentiment in favor of Mr. Humphrey O'Sullivan for the position, but when it became known that he did not want the position, Col. Carmichael became the unanimous choice.

The meeting was held at the quarters of the Butler Vets at the corner of Cross and Fletcher streets and was presided over by James H. Walker, with Harry E. Clay secretary.

A committee on music was appointed, composed of the following members: J. J. Magee, H. E. Clay and T. J. Johnson. It was decided to have a continuous concert by two bands, on the North common from 11 a. m. to 6 p. m., on the day of the muster.

A slight change in the route of parade was made and as revised, the line of march will be as follows: Right of line in Highland street, opposite Edison school house, through Locke to Elm, to Central, to Merrimack, to Pawtucket street, counter-march at School street to Pawtucket, to Salem, to Castle square, where the companies possessing the odd numbers will march through Common street and the even numbers through Clark street. Secretary Clay announced that one more entry had been received, the latest being the T. W. Lane of Manchester, N. H. The Butler Vets will have two bands in the parade and the local association has also arranged for an ambulance corps to be stationed on the grounds.

A regular meeting of the league will be held in Boston next Tuesday at which six candidates for membership will be acted upon. If they become members they will enter the Lowell league.

Mr. O'Sullivan and the muster committee of the Butlers are leaving no stone unturned to make the muster the greatest day Lowell has ever seen and they are quite sanguine of success. With his national reputation as an advertiser of rare enterprises and originality Mr. O'Sullivan is accomplishing things that an ordinary promoter could not. The Firemen's Treasure book which will contain the most comprehensive history of New England Veterans' Firemen companies ever published. It will be ready for the public August 15. So elaborate is it that the Boston Library has asked for a copy in order that records of the early fire-fighting days may be had for public perusal. This book will be on sale at Lowell stores. Inasmuch as the committee has not asked and will not ask local merchants to give financial aid to the project, it feels that the stores will not hesitate to do this much as their contributions to the success of the event. Furthermore, the Joseph J. Flynn Bill Posting company has been engaged to

STORE ENTERED

Eleven Year Old Boy Was Caught

Peter Fels, 11 years old, has started early on his career of crime and was caught last night in the store of Edward Chevalier, meat and provision dealer at 69 East Merrimack street.

Chevalier has been missing goods from his store of late and Sunday and Monday nights large quantities of meat and vegetables were taken. Last night he decided to remain in the store and endeavor to capture the thief. After he had closed the store and turned the light out, he sat down to wait to see if an attempt would be made to enter the place.

About eight o'clock he heard a slight creaking, and looking towards the rear of the store, saw a trap door being slowly lifted and the head of a boy walking about the store and after picking out various articles, started to leave.

Chevalier grabbed the boy, who said his name was Peter Fels, and that he lived off Howe street. The boy admitted visiting the store on three nights in succession. He got into a cellar under Chevalier's store through a cellar adjoining it.

Chevalier took the boy to the police station, where he was booked as a delinquent. He will appear in the juvenile session of the police court, Friday.

James Fels, aged 16, a brother of the boy, and William J. Thomas, aged 17, were later brought to the station and questioned about the matter and as a result both will be asked to appear with Peter Fels Friday morning. Both Fels boys will be charged with being delinquents and the Thomas boy will face a charge of larceny and entering.

The trio was released by Probation Officer Slattery until the calling of the juvenile session of court.

LISBON, July 29.—A bill has been introduced into the chamber of deputies by Alfonso Costa, the republican leader, which calls for the restoration of the legislation of 1871 under which the religious orders were driven out of Portugal.

FIVE YEARS AGO

The South Lowell Explosion Occurred

GREATEST TRAGEDY IN LOWELL

Many Visited Scene of Explosion Today

Five years ago today, July 23, 1903, the explosion occurred at South Lowell, the greatest disaster that ever befell this vicinity, in which 21 people were killed and 75 injured. Besides the loss of life there was a vast amount of property damage. Within a year the U. S. Cartridge company paid out nearly half a million in claims, mostly without litigation and there are still some pending in the supreme court.

The scenes that followed the holocaust will never be forgotten, and Lowell passengers on the Boston & Maine as they cross the "six-arch bridge" and look over upon a small curbed grass plot from the centre of which arises a flag staff, on which a flag flies a half-staff today, invariably shudder as they recall the great tragedy enacted there. The mound and flag staff are erected on the Riggs property in the centre of Riverside park, near where the powder houses stood. The locality will ever remain a park as it is now called for no house could ever be let to tenants on the scene while the memory of the horrible affair exists. A large number of people visited the scene of the explosion today.

THE IRISH LEAGUE EXCURSION TO REVERE TOMORROW.

Tomorrow the United Irish League will run its annual "Ho! for the Beach" to Revere with free privileges at Wonderland for all who take the excursion.

In order to avoid the rush it would be well for those who intend to go to get tickets ahead at Carter & Sherburne's, Merrimack square. The last section of the cars will leave in the morning at 8.45, the first going at 6.45. There will be cars at 1.15 p. m., for those who cannot go earlier. The first cars will return at 6.15, the last at 8.45 p. m.

The great attraction of the day will be Dan O'Leary, the champion walker of the world, who has been brought from the west through the courtesy of O'Sullivan Bros. to attend this excursion. He will be at the square in the morning to accompany the party to the beach and will give an exhibition walk at Wonderland at 4 o'clock when thousands will be present from Boston to see him.

The league headquarters will be at the Metropolitan hotel, where a separate parlor is provided for ladies. The committee will meet again this evening to arrange the final details for the trip. All the members are invited to attend.

CITY MUST PAY

Court Expense of Officer Buchanan

BECAUSE HE SHOT A DOG

Under Orders of Superior Officers

Some months ago Patrolman Buchanan killed a dog supposed to be affected with rabies and the owner of the dog brought suit against the patrolman with the result that the court found against Mr. Buchanan. The following letter which has to do with the case and in which the board of police asks the city to pay the freight is self-explanatory:

July 18, 1908.
Chairman, Committee on Accounts, Lowell, Mass.

Dear Sir:—In this month's bills charged to the police department you will find one from John Buchanan for \$42.53. This bill is the outcome of a suit brought against Patrolman Buchanan for killing a dog, and after investigation by the board of police, they find that the officer was acting under the instructions of his superior officers, and was justified in taking such action, and have, therefore, approved the bill, at the same time instructing me to forward this information.

Very respectfully,
John J. Flaherty, Jr., Clerk of Board.

Members of the committee on accounts including the chairman, Alderman Gray, said today that they would vote to approve the bill, because they believe that the officer but performed his duty when he shot the dog and it would be poor appreciation should the city refuse to pay the bill.

DRACUT ASSAULT

Young Man Held in \$700 for the Grand Jury

Girl Sent to Jail as a Stubborn Child—Old Love Affair Aired in Police Court

The session of police court this morning was long drawn out and rather uninteresting from a spectator's standpoint despite the fact that there was a varied list of cases and could have been classed as one of the quietest days in police court but for the fact that Lawyer Daniel J. Donahue and Deputy Redmond Welch got into an argument which necessitated the interference of Judge Pickman.

DRACUT ASSAULT CASE.

Albert Bourassa was charged with feloniously assaulting Jessie E. Harrison and entered a plea of not guilty. The Harrison girl testified that she stayed out all night Sunday night and Monday she was given food by a woman near the Navy Yard and taking it into a field nearby started to eat it when she was assaulted by Bourassa. During the course of her testimony she turned towards Bourassa and said: "If I was a boy I would have kicked you all over the street."

Bourassa denied having assaulted the girl, but probably cause was found and he was held under \$700 bonds for the grand jury.

GIRL SENT TO JAIL.

Just before the conclusion of the session the Harrison girl was charged with being a stubborn child. She had been on probation, but Officer Slattery surrendered her Monday evening. Mrs. Harrison testified that she could do nothing with her daughter, that the girl stayed out nights and she did not know where she was half of the time. During the hearing of the case the girl became hysterical and crying at the top of her voice said that she was ill-treated and abused by her mother and sisters. She said: "If you put me away, God help you when I get out; I will never look at you again."

HAZEL DREW'S CHUM

May be Able to Furnish Some Clue to the Police

TROY, N. Y., July 29.—The authorities are awaiting with much interest the return to this city today of Carrie Weaver, the chum of Hazel Drew. They feel certain that the Weaver girl will materially aid them in finding some tangible clue in tracing the person or persons supposed to be responsible for Miss Drew's death. A few days before the tragedy at Teal pond Miss Weaver went to Ohio to visit relatives but her vacation being over she is now returning. A despatch has been received here containing a statement by Miss Weaver in which she wondered how Hazel Drew managed to live so well, to have so many fine dresses and to take so many pleasure trips to surrounding cities. Miss Weaver added that she never saw Hazel in the company of a man and that her chum told her she had no sweetheart.

"She could make a dollar go farther than any woman I ever saw," said Miss Weaver. "Her salary was only a little more than mine, yet I never could manage to buy as fine hats and as swell costumes as she did. Let alone the luncheons at fashionable restaurants and the frequent trips she made out of town. From what Hazel told me she must have had an awfully good time when she went away from home. She said not the slightest attempt was made anywhere to offer her an insult. She knew how to take care of herself, but from what our little trips together cost I know that she must have spent a great deal of money on pleasures of this kind, and for the life of me, I don't see how she managed to save enough from her wages."

Prosecutor O'Brien confidently expects that Miss Weaver will be able to give facts about the dead girl's habits and associates that will ultimately enable to solve the mystery of the killing of Hazel Drew. Subpoenas were being served today for the inquest here tomorrow and it is quite likely that Carrie Weaver will be called to give her testimony before Coroner Strong. It is expected that the inquest will be closed at tomorrow's session.

The British river gunboat Robin and the French river gunboats Argus and Vigilance went adrift and were considerably damaged. The West river steamer Tung Kung, founded, the officers of the steamer Chay Sang gallantly rescuing Captain Basin and his crew, 25 survivors in all. In the city numerous houses collapsed, endangering the occupants. The public gardens were wrecked.

PRINCE OF WALES FELL FROM ROOF

Planted Tree in Honor of Visit of John Coo Was Fatally Injured

HIS LAST DAY IN QUEBEC

Lord Roberts Will Reach Montreal Tonight

QUEBEC, July 29.—The main feature of yesterday's tercentenary program was the garden party at Spencerwood, the beautiful residence of Lieut.-Gov. Jette, which overlooks the St. Lawrence just above Wolfe's cove.

Yesterday was the prince's last day in Quebec, for last evening his royal highness went on board the Exmouth, where he was present at a state dinner. Later in the night the prince went on board the Indomitable.

At 11 a. m. yesterday the prince proceeded to Victoria Park and there planted a tree in commemoration of his visit. At 2 p. m. there was a military and naval turnout at which sports were indulged in, while the evening was taken up with a historical ball.

The crowds of visitors are thinning out, the soldiers are departing daily. Lord Roberts will leave Quebec today, arriving in Montreal in the evening.

The British tars scored a victory over the French and United States in the international race for 12-oared boats, representing the three fleets, in the regatta held in the harbor yesterday afternoon. For half a mile from the starting point it was between the Britishers and the Yankees, the Frenchmen dropping behind. Then the Britishers began to draw away and steadily increasing their lead, completed the three-mile course which finished at the Arrogant a minute ahead of the United States boat, with the Frenchmen a close third, 20 seconds behind the second boat.

DRANK POISON

Young Woman Tried to Take Her Life

BOSTON, July 29.—About 2 o'clock yesterday afternoon a woman who gave the name of May E. Richards, 26 years old, who had been living at Hotel Commonwealth on Bowdoin street, attempted suicide in the women's toilet room of the Hotel Tremont by drinking carbolic acid. An attendant at the hotel who saw the woman's act immediately notified the police of station 4 and an ambulance from that station rushed her off to the City hospital. Nothing is known of the woman at the hotel, where she was not even a guest, but had entered it with the apparent intention of taking her life.

LAW IS VIOLATED

Charge Made by Vermont Commission on Taxation

MONTPELIER, Vt., July 28.—Frequent and flagrant violations of the tax law, both by listers and by taxpayers and a too low appraisal of property throughout the state, are charged in the report submitted to Gov. F. D. Proctor by the Vermont commission on taxation appointed by the governor in accordance with an act of the legislature of 1906. The report was made public today. The commission which is composed of C. M. Barber of Bennington, John H. Senter of Montpelier, George W. Pierce of Brattleboro, A. A. Olmstead of Newbury, L. P. Slack of St. Johnsbury, and Ernest Hitchcock of Pittsfield, recommends the creation of a state tax commission of three members in place of the present single commissioner, the additional taxation of intangible property and many amendments designed to strengthen the present tax laws.

The report declares that less than three per cent. of all the inventories on file are filed as required by law, that many taxpayers file no inventories and that if the law imposing a penalty of \$200 upon a lister for accepting an inventory not properly made out were enforced the forfeiture thus incurred for 1907 alone would amount to more than \$200,000.

Messrs. Pierce and Olmstead are of the opinion that the present law giving the option to railroads to pay a tax based on their gross earnings instead of upon the appraised valuation of their property is an unjust discrimination in favor of such corporation and should be repealed. These two commissioners also recommend that a state tax be assessed upon the franchise and property of railroads at a rate to be ascertained by dividing the total amount of taxes levied by the total appraised value of property and polls entered in the grand lists. They also recommend a graduated income tax.

WAS IN LOWELL YESTERDAY

In Interest of Striking Brussels Weavers

John Golden, national president of the United Textile Workers of America, attended a meeting of the Brussels weavers held in this city yesterday afternoon. Mr. Golden came to Lowell to judge for himself the status of the trouble between the striking weavers and the Bigelow Carpet company.

At a meeting of the executive council of the organization held in Fall River on Thursday and Friday of last week the situation in Lowell was discussed and it was then that President Golden decided to come here in person. He wanted to find out how many of the Brussels weavers were still on strike and he satisfied himself that there is still a large majority of the original strikers not working.

President Golden will make his report to the emergency committee and that committee will report to the American Federation of Labor.

LINCOLN STATUE

School Receipts Netted Only \$600

A meeting of the committee in charge of the Lincoln memorial, which is to be placed in Lincoln square, met yesterday afternoon in the rooms of the board of trade, Harvey B. Greene presiding. The fund, which is being raised by the school children, now amounts to \$600, though the total sum necessary is \$2000.

The committee has several thousand souvenir postal cards in hand, the proceeds of which when sold are to go to the fund, but it was the sentiment of the meeting that these should be held until September, when the school children will offer them for sale throughout the city.

Mr. Pratt, the Boston sculptor, who is at work on the medallion of Lincoln, sent word that the medallion was progressing very favorably.

It was stated that all of the money for the fund must be raised by the first of December.

FOR PIMPLES, TOO

New Discovery Cures Eczema and Eradicates Minor Skin Troubles Overnight.

A few months ago the dispensers of posham, the new discovery for the cure of Eczema, decided to allow the druggists of the country to handle it. Previous to that time it could only be obtained direct from the laboratories.

Since this change in the method of distribution, posham has met with the most phenomenal success of anything introduced to the drug trade in the last 50 years. All leading druggists, including Fells & Burkinshaw and Carter & Sherrill in Lowell, are now carrying the special 50-cent size recently adopted, also the \$2 jar.

This great success is not surprising when it is remembered that, in eczema cases, posham stops the itching with first application, proceeds to heal immediately, and cures chronic cases in a few weeks. In minor skin troubles, such as pimples, blackheads, acne, herpes, blotches, rash, etc., results show after an overnight application. Experimental samples of posham are sent to anyone by mail free of charge by the Emergency Laboratories, 32 West Twenty-fifth street, New York City.

THE RED BOOKS

600 Will Soon Be Given Out

The committee on printing, Alderman Butterworth chairman, held its second meeting of the year last night and it was a very important meeting—for instance: It was voted to distribute the 600 red books. Each member of the committee will have 15 copies of the book to distribute, and all other members of the government will have seven each. Each member of the government will have one book with his name in gold letters (think of it) on the front cover. In executive session the committee voted to let the heads of departments have a book apiece and Clerk Dowling wise old owl will have three or four barrels of them for general distribution. After having attended to this ponderous duty, going into it "exhaustively and exhaustively," the grandest committee of them all adjourned.

LOSS IS \$22,000

Several Injured at Fire in Boston

BOSTON, July 29.—Three firemen seriously injured by falling glass, practically all members of ladder Co. 2 affected by the excessive smoke, Chief Mullen of the fire department almost knocked out by inhaling the fumes of escaping gas and Supt. H. R. McConaghey of the Boston Mutual Life Insurance company rescued from his office by firemen, were among the many exciting features that attended a damaging and threatening fire, which broke out in the dry goods store of Wolcott & Co., 31, 32 and 33 Central square, East Boston, shortly after 6 o'clock last night.

The damage is figured at \$22,000. The fire started in the basement of the building, a three-story brick structure, presumably from spontaneous combustion in a large consignment of cotton which arrived a few days ago. The blaze was discovered at 6:03 by E. Wyzanski, who is employed by the Wolcott company. He observed smoke escaping through the cracks on the first floor. The fourteen young women that are engaged as saleswomen in the store were at the time preparing to go home. The store having closed for business at 6 o'clock. Mr. Wyzanski made known to the young women the presence of the smoke and they as quickly as possible, without the slightest sign of commotion or excitement, left the store and were on the street before the fire had been observed by outsiders.

THEATRE VOYONS

"Damon and Pythias," the big hit of the Theatre Voyons bill today, is a most interesting picture and its story of the early days in Greece is an interesting and instructive one. The production is an exceptionally good one in regards actors, costumes and scenery. Historically the story as told is correct and the present production affords the best opportunity in years to see this story at its best. The comedies are exceptionally funny. "The Living Posters" shows a bill poster at work, and as soon as he

leaves the posters they come to life and their figures perform many strange stunts. "Sting" shows what mischief one boy and a bottle of bees can produce if combined with sleeping men and women. The youngster in the picture finds his victims everywhere and he causes them endless annoyance. The songs are good, "Sweet Sixteen" being especially catchy and novel. It is written by Kerry Mills who has given the music world many successful marches, and his latest is the equal of any. Tomorrow there will be a brand new bill, not only new to Lowell but composed of the latest and best selections of the product of the past week.

STAR THEATRE

As was expected, there was an immense crowd at the amateur show last night, the attendance beating all records. That the performance was keenly enjoyed was assured by the hearty outbursts of laughter and applause. There was some excellent singing and dancing by the little girls and an abundance of comedy was furnished by the several quartets of boys. The performance of James West was enthusiastically received. He has some new jokes that are great laugh-getters and his singing is very good. The songs, "You'll Have to Stay After School" and "As We Watched the Ships Go Sailing," sung by Babe Curry and J. C. Bell, have been very successful. The singers are generously applauded. The new pictures today are both instructive and amusing. There is no better entertainment to be seen any place for the money. In fact it is worth many times the price asked. The theatre is cooled during the hot weather by mechanical means.

LAKEVIEW THEATRE

The popular comedy drama, "Fog's Ferry" is proving to be a good drawing card for the Adam Good company at Lakeview theatre this week and the seating capacity of the theatre is taxed at each performance. The band concerts which are given daily at the park this week, are so arranged that they do not conflict with the performances at

Gilroy hit to Wolfe who threw ball to first and Murch scored. Flynn flied to Wolfe.

Howard opened the latter half of the inning with a strike out. Rivard struck out.

Vandergrift got a base on balls. Connors hit to the right field fence for what looked to be a three-bagger but the umpire called it a foul. Connors then fouled to Murch.

DIAMOND NOTES

New Bedford today.

We should have won both.

Howard limped into the second game to beat out and made a beautiful double play.

Wolfe didn't show up as well as was expected of him.

Rivard made a couple of costly mis-

takes in trying to get men at second on sacrifice bunts.

Why not try out Martin? Greenwell and Rivard can't do all the work and Warner is too uncertain a proposition for a game in nine innings.

If George Mahoney of the High school team will play professional ball we think that he is worthy of a try-out in the New England league.

Jimmie Beard continues to play good ball and he has the crowd with him.

A bunch in the grand stand had a great time yelling at Duggan. Dan glared at them but said nothing.

Paddy Duff is getting one hit a day with New Bedford.

Empire Ligan "chased" Manager O'Brien and Capt. Donovan of Fall River "off the lot" in Brockton yesterday. Verily, these are the happy days for the umpires.

The ground keeper ejected about 1400 well intentioned kids from the free bleachers yesterday during the second game. It seems that a ball that went over the fence was "copped" by a youngster on the outside and before the ground keeper could get him the kid got in with the crowd. The ground keeper asked some of the others where the young thief had hidden himself and they laughingly refused to tell him. Then he got mad and said: "Just for that you'll all have to get out." And forthwith he chased them out. For half an hour the young army stood in Middlesex street yelling: "Sore head! Sore head!" while an occasional bunch found its way over the fence.

Says Newton Newkirk in the Boston Post:

At Lynn this week (Lynn is the town which made one of the Boston Braves) the Lynn Railroad (famous) Timpane Joe O'Brien's decisions at a ball game did not please Dave Yerkes and Henry Labele, and they told O'Brien so. O'Brien told them to beat it to the Bad Lands. What followed beggars description. Yerkes handed O'Brien an upper cut which transferred O'Brien's nose from the usual spot on one's face where the nose is located, to a point above O'Brien's eyebrows. Labele passed O'Brien a wallop on the side of his face that started O'Brien's head turning so rapidly that it is said it turned it times before he had presence of mind enough to grab his head and stop it. Yerkes next tried to kick the back of O'Brien's trousers up between his shoulder blades, and Labele was just going to bite O'Brien's right ear when the police interfered. Yerkes and Labele were arrested for assault while O'Brien hunted up a doctor who spent an hour in stock taking to find out how much of O'Brien there was left.

We merely cite this instance to show that the vocation of a baseball umpire isn't exactly a rose-strewn path of daisies. Anybody who has an idea that the life of a baseball umpire is one continuous round of pleasure has been misinformed. For umpiring a baseball game is an umpire gets anywhere from 15 to 100—plus the book. Those who don't like his decisions regard him a good deal in the light of a foot mat.

There are veterans who have gone through the war of the Rebellion and yet has not as many scars to show for it as an umpire who has refereed one ball game.

ELKS VS. COPS

TIE GAME AT SPALDING PARK YESTERDAY.

The Elks and Police team played a tie game at Spalding park yesterday, 10 to 10. The Elks giving the cops a big surprise as the latter believe themselves to be a superior aggregation, worthy of the New England league.

The Elks started to do things right away, but after a few innings the club swingers staid down and evened up matters. Jimmie Gardner, the boxer, played with the Elks and showed up well.

The team lined up as follows: Policemen—McCann 1b, Kelley ss,

takes in trying to get men at second on sacrifice bunts.

Why not try out Martin? Greenwell and Rivard can't do all the work and Warner is too uncertain a proposition for a game in nine innings.

RIVER WATER FOR SPRINKLERS

SUPT. THOMAS, OF THE WATER DEPARTMENT, SAYS THE RUSTY SEDIMENT COMPLAINED OF IN THE CITY WATER AT CERTAIN POINTS IS DUE TO THE DISTURBANCE CAUSED BY THE STREET CAR SPRINKLER IN FILLING UP AT CERTAIN HYDRANTS.

WHERE THE MAINS ARE OLD THIS FRICTION CAUSED BY THE WATER RUSHING THROUGH THE PIPES UNDER GREAT PRESSURE, RUBS OFF PART OF THE RUST AND THIS PASSES OUT THROUGH THE FAUCETS IN THE VICINITY.

IT IS TO BE REGRETTED THAT A SUPPLY OF EXCELLENT WATER DRAWN FROM THE DRIVEN WELLS, SHOULD BE DAMAGED IN THIS MANNER.

THIS IS A RESULT THAT WAS NOT DREAMED OF WHEN THE CAR SPRINKLER WAS PUT ON. THE CITY WATERING CARTS OF COURSE CONTRIBUTE THEIR SHARE TO THE DISTURBANCE IN THE PIPES AND IN HOT WEATHER THIS AGITATION IS CONSIDERABLE.

THERE IS LITTLE PROBABILITY THAT THE RUSTY SEDIMENT OR ANY PART OF IT, COMES FROM THE WELLS, INASMUCH AS THE WATER ON LEAVING THE WELLS IS FOUND TO BE FREE FROM ANY SUCH IMPURITY; BUT THE CHARGE THAT THE WATER CONTAINS AT ANY POINT ANY POISONOUS SUBSTANCE IS WITHOUT FOUNDATION.

NOW IT IS WRONG TO HAVE A SPLENDID WATER SUPPLY SERIOUSLY DAMAGED BY ANY SUCH CAUSE.

WE CANNOT TELL WHETHER THE SOURCE OF SUPPLY IS INEXHAUSTIBLE BUT IN ANY CASE IT COSTS TOO MUCH TO BE USED BY THE STREET AND FIRE DEPARTMENTS INDEFINITELY IF THERE IS ANY OTHER SOURCE OF SUPPLY FOR THESE PURPOSES.

IF, HOWEVER, THE WATER SUPPLY IS DISTURBED AND CHARGED WITH RUST AS A RESULT OF WATERING THE STREETS, THERE IS BUT ONE REMEDY AND THAT IS TO PROVIDE STAND-PIPES FROM WHICH THE CAR SPRINKLERS AND WATERING CARTS CAN BE SUPPLIED WITH RIVER WATER.

IF THIS WATER COULD BE USED FOR FIRES, THE WELL WATER WOULD BE SAVED TO THAT EXTENT, BUT THIS WOULD REQUIRE A WHOLE NEW SYSTEM OF MAINS THROUGHOUT THE CITY WHICH IS BEYOND OUR REACH.

BUT IT IS QUITE PRACTICABLE AND COMPARATIVELY INEXPENSIVE TO PROVIDE STANDPIPES AT A CENTRAL POINT FROM WHICH WATER FOR STREET SPRINKLING CAN BE TAKEN. THIS WOULD OVERCOME THE TROUBLE NOW COMPLAINED OF AND WOULD MOREOVER BE A SOURCE OF SAVING FOR THE WATER DEPARTMENT BECAUSE IT IS EASIER TO GET RIVER WATER THAN TO PUMP WELL WATER.

TWO NOTABLE EVENTS IN LOWELL

THE CITY OF LOWELL IS TO HAVE TWO EVENTS THAT WILL GIVE HER A GREAT ADVERTISEMENT.

THEY ARE THE NEW ENGLAND VETERAN FIREMEN'S MUSTER TO BE HELD ON AUGUST 20 AND THE GREAT AUTOMOBILE RACES ON LABOR DAY.

THE MUSTER WILL ATTRACT AT LEAST 100,000 PEOPLE TO LOWELL. IT IS ON A BUSINESS DAY AND FOR THAT REASON SHOULD BENEFIT LOWELL MERCHANTS AND TRADERS.

HENCE THE LOCAL COMPANIES SHOULD BE ASSISTED IN PROVIDING FOR THE ENTERTAINMENT OF THE VISITORS AND THE GENERAL SUCCESS OF THE UNDERTAKING.

INASMUCH AS THE CITY AS A WHOLE IS INTERESTED IN MAKING THE MUSTER A SUCCESS, THE LOCAL COMMITTEE SHOULD RECEIVE GENEROUS ASSISTANCE FROM THOSE WHO CAN AFFORD TO CONTRIBUTE.

THE AUTOMOBILE RACES ON LABOR DAY WILL BE ANOTHER GREAT ADVERTISEMENT FOR LOWELL.

THAT WILL BE AN EXPENSIVE UNDERTAKING AND UNLESS LOCAL CONTRIBUTIONS ARE FORTHCOMING IT WILL NOT BE A SUCCESS.

THERE IS AN OPPORTUNITY FOR PUBLIC SPIRITED CITIZENS TO AID BOTH THESE ENTERPRISES AND THEREBY HELP TO BOOM LOWELL AS A LIVE AND ENTERPRISING CITY, WHOSE PUBLIC SPIRIT GUARANTEES THE SUCCESS OF EVERYTHING SHE UNDERTAKES.

TO LOWELL'S ADVANTAGE

WHEN A CITY HOSTED BY BOOMS OF ONE KIND OR ANOTHER IS STRUCK BY A BUSINESS DEPRESSION, THE COLLAPSE SOMEWHAT RESEMBLES THAT OF A BALLOON WHOSE GAS BAG HAS BEEN PUNCTURED. THE FALL IS SUDDEN AND SEVERE. WITH LOWELL THE CASE IS DIFFERENT. AS SHE PURSUES THE EVEN TENOR OF HER WAY, SHE NEVER GETS UP VERY HIGH AND, THEREFORE, HAS NOT FAR TO FALL EVEN IN THE MOST SEVERE INDUSTRIAL CATASTROPHES.

SEEN AND HEARD

"My rolling is just wearing me out," said a young fellow who is spending the summer at Wilkes Barre. "What do you mean by rolling?" was asked. "What do I mean by rolling? The rolling cure reduces flesh. I'll tell you. I roll on the bare floor two hours each day. It makes me so hard. And I have tried it for two weeks and haven't lost a pound."

DON'T.

A hundred times a day I hear "Don't do that, dear!" From early morn till dusk "Don't do that, dear!" I hear her call from the back porch and front and side. As though some evil would befall "Don't do that, dear!" said in his ear. "Don't do that, dear!" "Don't do that, dear!"

If he goes out and slams the door: "Don't do that, dear!" and if the door is never closed and he comes near: "Don't do that, dear!" is all I hear. If he comes rattling down the stairs: "Don't do that, dear!" and if he wears No. 10, but keeps it somewhere near: "Don't do that, dear!" and if he says: "Don't do that, dear!"

If he goes slithering up a tree: "Don't do that, dear!" If he should be astride a rail: "Don't do that, dear!" If he calls to him: "Don't do that, dear!" If he is all "Don't do that, dear!" "Don't do that, dear!" "Don't do that, dear!" "Don't do that, dear!" "Don't do that, dear!"

Sometimes he seems to me as still as any mouse until a shrill "Don't do that, dear!" falls on the air. And drives him swiftly away from there. So when he finds another spot: "Don't do that, dear!" and he says: "What?"

And she replies and cannot say: "But—Well, don't do it, anyway!"

—J. W. Foley, in New York Times.

The Newburyport News says: A Japanese who has just passed the dental board of this state is to be "tooth-puller to the emperor." However, as an emperor has no more teeth than other people and they are no more liable to ache than those of other people, his position will be something of a "pull."

"PEOPLE, PROTECT YOUR PROPERTY."

"Keep off the grass" signs have been entirely abolished in the progressive cities. It is held that the trivial damage done by the throngs who walk on the grass on Sundays and holidays is more than compensated for by the pleasure bestowed in the knowledge that everything in the public property is free and open to all. The only admonition to the public which still finds favor is the terse sign used in Glasgow, Scotland: "People, protect your property."

To a reminder is said to operate more effectively than any of the old prohibitions.

EDITORIAL COMMENT

GLORY IN PLENTY.

Fall River Globe: In the field and track events at the London Olympics, the Americans scored 114 2-3 points to 66 and 1-3 by the representatives of the United Kingdom. This is glory enough to compensate for all the unpleasant and unfortunate experiences the American athletes have had during this notable event. The treatment that was accorded them was, from all accounts, both ungracious and unsportsmanlike.

A SAMPLE OF TAFT "PROSPERITY"

From the Omaha World Herald.

Modestly tucked away in an obscure corner of our valued contemporary, the New York Sun, the World-Herald discovers the following bit of interesting and important information:

Pittsburg, July 18.—The Republic Iron and Steel company has signed an agreement with its union workmen to hold for the coming year. The scale, which was signed last night, provides for an average reduction of 10 per cent. It is announced that the eleven plants of the Republic company scattered throughout the country will close on Monday morning. The mills have been closed since June 30 owing to the expiration of the wage scale and the need of repairs. The scale is substantially the same as that adopted by the Western Bar Iron association.

Least the significance of this item be missed, it might be mentioned that the Republic Iron and Steel company is one of the numerous great corporations and trusts of which George Rumsey Sheldon, the republican treasurer, is a director.

It is one of the constituent elements of the steel trust, under the domination of such powerful supporters of Judge Taft as Andrew Carnegie, J. Pierpont Morgan and John D. Rockefeller.

It was Mr. Morgan who ejaculated "Bully! bully!" when informed of Taft's nomination.

It was Mr. Carnegie who assured us blandly that Taft's nomination would surely be followed by his election, and that this assurance was all that was needed to "restore prosperity."

It was Mr. Rockefeller who, when the Taft fortunes hung in the balance, made his nomination certain by turning the vast influence of the Standard Oil monopoly in his favor.

All these interesting and amiable gentlemen have been telling us a great many things about the panic. They have told us there is no panic. They have said it doesn't amount to much anyhow. They have added that the certainty of Taft's election would promptly cure it, and restore us a prosperity more marvelous and abundant than any that has gone before.

Yet they shut down the mills and furnaces of the great Republic Iron and Steel company, and kept them shut down, until their employees consented to go back to work for the coming year at a 10 per cent. reduction in their wage scale!

Is this just a taste of the "prosperity" Mr. Taft's friends, and Mr. Taft's treasurer, are going to give the laboring men after Taft is elected?

If Taft's election is assured, and if his election means greater prosperity than ever, why not divide up that prosperity with the man who works for a living?

The cost of living is steadily increasing. The trusts and the railroads see to that. They continue piling the burden higher and heavier on "the ultimate victim," the consumer. Consequently a man whose wages remain just as they were is in effect suffering from a reduction. His hard-earned dollar buys less and less. But here come Treasurer Sheldon and these other eminent pillars of prosperity and, not content with this, slash one-tenth off the wages they propose to pay their men under "Taft prosperity!"

Clearly, there is a screw loose, somewhere, republican logic doesn't track. It might be interesting if Treasurer Sheldon of the republican national committee would explain why the great steel corporation of which he is a director is reducing wages.

manlike. John Bull in this connection, shown himself to be a "bad loser." We shall probably, for a time at least, while the memory of certain occurrences at these games remains fresh in the public mind, hear less of that twaddle about "hands across the sea" and of "blood being thicker than water" than we have been having so frequently exploited by wind jamming sentiment speakers and hot-air specialists.

The sentiment that seems to have prevailed all through these contests, both among the public over there and those having the management of this international meet, was distinctly hostile to the Yankees, and when it was apparent that in any particular trial a Britisher could not win, the sympathy of the crowd was invariably with the contestants of other nationalities than the Americans.

YOUNG HAYES' REWARD.

Fall River Globe: Young Hayes, the winner of the Marathon, is a clerk in a large New York department store. He has been earning \$20 a week. His victory is going to be much more substantial than the meager of that attaches to it, since the head of the concern in whose employ he is, has announced that when he returns he will be put at the head of the sporting goods department at a salary of \$4000 or \$5000 a year. Nothing hazy about that.

SCARLET FEVER VACCINE.

Worcester Post: The physicians of the Sick children's hospital in Toronto, Ont., believe they have developed a vaccine against scarlet fever not of any such exaggerated efficiency as that against small pox but sufficient to afford immunity during epidemics. Records carefully kept for nine months seem to support the claim.

The method is to extract an ounce of blood from the arm of a patient when the fever is at its height. This culture is placed in a glass receptacle, and kept for twenty-four hours at a heat that will induce the bugs to grow to the fullest extent. The organisms are then killed by heat, and suspended in a salt solution which is used for vaccination.

This theory is that the essence of the malarial creates a reaction in the human system, and assists nature in its effort to throw off the poison.
Or perhaps it would be more correct to say that the introduction of the malarial even dead arouses the counter forces of the blood to an activity that means immunity. If the discovery is sustained by experience it ought to have far reaching results for the scarlet fever germs are of the species termed "streptococcus," which is also known to be the cause of erysipelas, and many kindred diseases. The bug has many different forms, each of which produces a different disease.

PEOPLE OF NOTE

Norman J. Lee, formerly traveling passenger agent of the New Haven, and new general agent of the passenger department in New York, is one of the brightest of recent additions to the local passenger traffic colony. He is now installed at his headquarters in the Grand Central station, New York, and will be heard from in the contest for business in this territory.

Albert Jeannotte, who sang the role of Prince Danilo in the Chicago production of "The Merry Widow," was commanded to sing before the Prince of Wales on the occasion of the tercentenary celebration of the foundation of Quebec. He sang several French-Canadian folk songs.

The efforts of John W. Gates to make Port Arthur, Texas, the deep-water terminus of a number of lines of railroad, are already meeting with success. He owns practically the whole town, and is a controlling factor in the Kansas City Southern, which was the first line to be built here. When Mr. Gates

moved his place of residence from New York to Port Arthur some months ago, he announced that this place was to be his future home, and that he would devote his efforts to make it one of the greatest ports on the gulf coast.

In line with his intentions, Mr. Gates is promoting the building of two new railroads into Port Arthur, and has gone to Europe for the purpose of financing the projects. The contract for building one of these roads was let a few days ago to D. H. Donovan of St. Louis, Mo. The road is called the Port Arthur & Houston Short Line. It is to run between Port Arthur and Houston by the most direct route. Grading is already in progress between La Porte and Houston. The other road is to run between Port Arthur and Waco. The preliminary survey has been made, and if Mr. Gates is successful in financing it in Europe the construction work will be started immediately after word is received from him.

In addition to these two roads, Mr. Gates has induced E. H. Harriman to give orders for the building of a branch line of the Southern Pacific into Port Arthur. An amendment to the charter of one of the Texas corporations of the Southern Pacific provide for building this branch line was recently filed in the office of the secretary of state in Austin. It will be built and in operation within a few months.

It is said that Mr. Gates also has in contemplation the building of a direct line of railroad between Port Arthur and Memphis, Tenn. This would place Port Arthur in close touch with a large tract of country.

GOT MORPHINE

Man Learned Habit at the Reformatory

In the district court in Cambridge yesterday George W. Montgomery, 26 years old, of Worcester, was sentenced to one year in the house of correction for the larceny of a bicycle, the property of J. Leo McDonald.

Montgomery has four previous convictions of larceny against him, and has served two terms at the reformatory and two at Deer Island. He told Judge Almy that morphine was the cause of his downfall. He said he was under the influence of the drug when he stole the bicycle.

"You could not get the drug while you were in the house of correction in Boston could you?" asked Judge Almy. "Yes, Your Honor," replied Montgomery. "I got all I wanted of it there and I learned the habit at the Concord reformatory."

FRANK J. GOULD ROBBED A WOMAN

Admitted That He Knew Man Found \$97 in Her Miss De Voe Stocking

NEW YORK, July 28.—Frank Jay Gould was put through a sharp examination last night by the defense in the alleged conspiracy plot to manufacture divorce evidence against him. He was questioned at length as to his acquaintance with Miss Bessie De Voe, whose name has figured in the case, but the most damaging admission the lawyers could draw from him, was the fact that he had met Miss De Voe and knew who she was.

As yesterday was the day set aside by the court for Mr. Gould to visit his children, Magistrate Corrigan, before whom the case is being heard, excused Mr. Gould at the day session and held court last night.

So great was the crowd of spectators and witnesses that it was necessary to move the hearing from the Tombs police court to the court of special sessions.

District Attorney Jerome submitted a copy of Mrs. Gould's complaint in the divorce action to the court in order to show that the divorce suit was actually pending at the time of Mrs. Teal's arrest.

It simply alleged misconduct on the part of Mr. Gould in North Sydney, C. B. Canada, July 25, 1905. It did not name any person, or persons or go into details.

Edward F. Raynes, the district attorney's detective, told of the arrest of Mrs. Teal, Miss Fleming and Mousley, together he found on Mousley, a photograph of Mr. Gould and the affidavit signed by Miss MacCausland.

After the prosecution rested, Messrs. Smyth and Blumenthal for the defense made arguments asking for the discharge of clients. Magistrate Corrigan reserved decisions on these motions.

The committee on electric wires got together and said "how do" last night. Alderman Cheney is chairman of this electric committee and when the committee is in session signs are up outside forbidding hot air on the premises. The committee, last night, signed a number of petitions that later went to the board of aldermen.

Of Stone Crushing Shanty Returned

The greater part of the lumber stolen from the temporary ledge at the corner of Moody street and Riverside avenue has been returned. When the lumber was taken away Supt. Morse reported the matter to the police and Inspector Laflamme, assisted by Patrolman Frank Fox, investigated the matter and found that a number of boys and a man, thinking that the wood was to be thrown away, took it off and stored it for fire wood.

Supt. Morse, however, decided that he could use it to advantage and last night the boys piled the wood on wheelbarrows and brought it back. There were ten wheelbarrows in the procession.

HISGEN AND GRAVES

Nominated to Lead the Independence League

CHICAGO, July 28.—Thomas L. Hisgen of Massachusetts was nominated for president, and John Temple Graves for vice president, by the Independence League convention last night. Hisgen was placed in nomination by Rev. R. L. Sawyer of Massachusetts.

The conclusion of Mr. Sawyer's speech was the signal for cheers from the Massachusetts seats in which California delegates and a few from Minnesota and South Dakota joined. A big banner bearing Hisgen's portrait was brought to the platform where it was joined by the California state flag.

After two minutes, Chairman Walsh began rapping for order. The Minnesota standard was put in the procession, then Illinois, Washington and Nebraska. Three minutes later the demonstration had subsided.

Bernard Sullivan of Atlanta, Ga., presented the name of Temple Graves. In a snappy speech he set the convention hall ringing with cheers.

STORM BREAKS OUT.

When Kansas was reached, J. I. Sheppard of that state asked the chairman if it were possible to vote for any candidate for the nomination who was not a member of the party. The reply was that the question had not yet arisen, whereupon Mr. Sheppard took the platform, announcing that he had a candidate.

He mentioned the candidate of the democratic party and a storm of hisses and hoots greeted the reference.

The hall continued in an uproar for several minutes, the galleries persisting in breaking into the proceedings with jeers and remarks.

Mr. Sheppard was finally allowed to proceed. He had spoken but a few minutes when the delegates broke in upon him. Charles H. Mitchell of Illinois

offered a point of order, saying that it was against the rules that a man who was not a member of the independence party. He therefore asked that the convention proceed to name a candidate of its own.

SCENE OF RIOT.

A scene of riot immediately followed, several delegates attempting to reach the rostrum for the purpose of offering physical violence to the speaker. A number of the sergeants-at-arms threw themselves across the aisle in front of the rostrum steps and held back the infuriated men by sheer physical strength.

Mr. Mitchell persisted, however, in asking if Sheppard intended to nominate a man who was not a member of the independence party. He insisted upon a categorical answer and Chairman Walsh said:

"The gentleman will answer the question."

"Of course, I don't want to deceive you," said Mr. Sheppard. "I intend, if I am allowed to finish, to nominate Mr. William J. Bryan."

The hall broke into a wild uproar, a dozen delegates again madly struggling in the main aisle in an attempt to reach Mr. Sheppard. Canes and fists were shaken at him furiously while howls of execration went up from all sides of the hall.

Quiet was a long time coming, but when it finally arrived Chairman Walsh ruled that inasmuch as Mr. Sheppard had attempted to nominate a man who was not a member of the independence party, he was out of order. A frantic yell of approval went up from the convention. Sheppard instantly started to leave the platform, and Sergeants-at-Arms Frank Brust and Max Annenberg, realizing what might happen to Sheppard, stepped close to his side as he started down the aisle.

SHEPPARD IN DANGER.

Instantly a crowd of delegates, all of them in an ugly mood, closed in and

for a minute or two Sheppard was in actual danger. Brust and Annenberg also carried him and fought their way, foot by foot, along the passage way.

John Dalley, a delegate from the 25th assembly district of New York city, struck at Sheppard's head with a cane, and if the blow had not been intercepted, might have seriously injured him. Dalley was shoved down into a seat, and, escorted by the sergeant-at-arms, Sheppard was taken to the door and told to leave the hall. He lost no time in obeying the injunction.

During the confusion Chairman Walsh strove desperately for order, but without avail. When Sheppard started down the aisle he called anxiously:

"Somebody protect that man." He repeatedly begged the delegates to keep quiet and remember that they were gentlemen. The plea, however, fell on deaf ears until Sheppard had left the hall.

Judge Waterbury of Emporia, Kansas, took the platform for the purpose, as he expressed it, of "putting my state right." He denied that Mr. Sheppard acted with the knowledge of the delegates from his state, the denunciation of the speaker and the cause he attempted to advocate bringing cheers from the delegates and a few hisses from the galleries.

Hugh McInnes of San Francisco, speaking for California, seconded the nomination of Hisgen of Massachusetts.

Minnesota seconded Hisgen's nomination. Michigan seconded the nomination of Graves.

Mississippi seconded the nomination of M. W. Howard of Alabama and Missouri followed suit. Montana declared for Hisgen. New Hampshire seconded Hisgen.

THE SHORTEST SPEECH.

New York sent to the rostrum Judge John Palmer, who placed Reuben Lyon of that state in nomination. He spoke but a few minutes, making by far the shortest nominating speech of the night. Dr. J. D. Bush also of New York, seconded the nomination of Mr. Lyon.

West Virginia, called, brought resignations from the convention, two delegates leaving because they were not satisfied with the platform.

The incident caused little commotion and the seconding speeches concluding with seconds for Hisgen from Washington and Wyoming, and for Graves, from the District of Columbia.

The convention then proceeded to ballot.

The first ballot resulted: Hisgen 396, Howard 200, Graves 213, Lyon 71, Hearst 42.

The second ballot was: Hisgen 530, Graves 330, Howard 100, Hearst 42.

On the third ballot the vote drifted toward Hisgen and it was evident his nomination was certain.

Virginia broke from Graves and placed him within a few votes of success. Then came Washington, with ten votes for Hisgen, and he was nominated. There was scramble for the "band wagon." Missouri swung its vote for Hisgen. Georgia changed from Graves to Hisgen and then they came too rapidly to count, all changing from Howard and Graves. Alabama withdrew the name of Howard after Hisgen had been actually nominated and cast her vote for Hisgen.

The ballot resulted: Hisgen 531, Howard 38, Graves 7, Hearst 2.

A roar of applause followed the announcement of the ballot and a motion making unanimous the nomination was adopted with a yell. The usual parade of standards around the hall then commenced while the band played patriotic airs.

CURRENCY PLANK

ALMOST CAUSED A BREAK IN THE PARTY.

CHICAGO, July 28.—The newly formed Independence party was threatened with a dangerous schism yesterday during the debate on the currency plank of the platform in the session of the committee on resolutions. So serious did the situation become that several party leaders not members of the committee were sent for in an effort to bring the recalcitrant members into line. William R. Hearst and Gesner Williams of California, appeared before the committee, the former making an extended statement in explanation of the position taken by the February conference of the party on the subject, the action at that gathering having formed the basis of the platform as originally drawn up yesterday.

Despite this the committee directed a revision of the currency plank, the revised version taking new ground in the right of the government to loan treasury funds to national banks is not recognized.

The plank as corrected and adopted by the convention favors the establishment of a central governmental bank, which institution is to be the medium through which money shall be put into general circulation.

The storm broke in the committee almost as soon as the platform was taken up for consideration. The sub-committee had been busy making the final draft of the document since early morning and it did not complete its task until after noon. It was nearly five hours later before the currency plank was disposed of, the sub-committee having finally to retire and re-write the paragraph.

Roscoe T. Hardin of New Hampshire declared that the party was about to be "sold to the worst trust of all—the National Banking Trust," while Colonel J. C. Guffer, of Kentucky, asserted that if the organization was going to ally itself with the National banks, he was going home to resume his former political affiliations.

It was at this juncture that Mr. Hearst appeared before the committee. After his speech, Milton W. Howard, of Alabama, suggested a compromise and the incorporation of the declaration favoring the central governmental bank followed.

F. C. BEHARRELL BROKE RECORDS

Expired Suddenly on Steamboat Yesterday High Honor

ON ST. JOHN RIVER, N. B.

Was Returning Home From a Trip

ST. JOHN, N. B., July 29.—While coming down the St. John river on the steamer Elaine yesterday, Frank C.

THE LATE FRANK C. BEHARRELL

Beharrell, a retired contractor and wealthy real estate owner of Lowell, Mass., died suddenly from the bursting of a blood vessel in the region of the heart. The body was brought down to this city and will be taken to Lowell.

Mr. Beharrell, who was accompanied by his brother, J. R. Beharrell, arrived here last Thursday and went to Fredericton Friday. Soon after starting on the return trip yesterday morning, he was stricken with illness, which quickly proved fatal.

On arrival of the steamer at St. John, the body was removed to an undertaker's and was viewed by the coroner, who expressed the opinion that the lining of the vessels in the heart had been affected and a sudden strain had caused a rupture. He was 58 years of age.

Mr. Beharrell was a well known contractor and real estate broker in Lowell with a residence at 89 Fremont street.

Mr. Beharrell is survived by his wife, Mrs. Bertha Beharrell, a son, Arthur G., and two brothers, Joseph of this city, and Isaac I., of Concord Junction. He was a member of Lowell council.

Yesterday was a red letter day at the Wakefield rifle range and records were knocked "dally-west." The New England military rifle tournament is in progress and with the exception of the 200 yards range clean scores were made at all the ranges.

The rifle team representing Company C of the sixth regiment, located in this city, was present and captured the state of Maine trophy.

The state of Maine match is open to teams of five men from any company, troop or battery unit of the organized militia of New England, for a trophy and medals presented by the governors and staffs association of Maine; distances, 200 and 500 yards; number of shots, 2 sighting and 7 shots for record

at each range; time limit, 45 minutes at each range. Prizes: First, a trophy to become the property of the team winning it three times, not necessarily in succession, and a medal to each member of the team; second, bronze medal to each member of the second team; third, bronze medal to each member of the third team.

With the exception of the three company teams that got places in the First corps of cadets match, the same teams were entered in this contest. The competition was keen from start to finish, and for the second time today the trophy being shot for dropped into the lap of the Sixth Infantry, Co. C of Lowell landing first place, making a garrison finish, the last two men making clean scores at 500 yards, as did also the second man up, Co. K of the Second Infantry, M. V. M., tied with Co. P, First Maine, with a score of 304, but as the latter made the highest score at the 500 yards range, 162 against 157, it was given second place. The score of Company C:

FIRED ON OFFICERS

Men Believed to Be the Forest Hill Bandits

WALTHAM, July 29.—Two suspicious appearing men with revolvers drawn, believed to be the desperate brigands wanted by the Boston police in the shooting at Forest Hills, shot at and narrowly missed Patrolmen Benis and McCarthy early this morning.

The officers were patrolling their route when the two men emerged from behind the Waltham railroad station, a short distance from the officers.

The patrolmen shouted for the two strangers to stop, only to find that the command was followed by a shot which whizzed by the head of Officer McCarthy.

Quickly pulling out their revolvers the officers engaged in a running fight with the fleeing men. Several shots were fired by the officers, but none seemed to have taken effect.

A hurry-up call was sent to the station. Followed by a squad of officers with revolvers ready for use the bandits were chased up the track for some distance, when they were lost in the darkness.

A strict watch was put on all of the places along the railroad where the men would be likely to go.

When the Waltham police found that the armed desperadoes had gotten beyond them, word was immediately sent to the police of adjoining towns to be on the lookout.

FIRED AT NEGRO

Who Tried to Rob Her Apartments

A PLUCKY WOMAN USED REVOLVER

And Scared Guests of Hotel Plaza

NEW YORK, July 29.—Shots fired at a negro burglar threw the Hotel Plaza and the surrounding fashionable blocks west of Fifth avenue into turmoil shortly before six o'clock this morning. The shots were fired by Mrs. Henry Heulett of Mobile, Alabama, who lives in an apartment house directly behind the Plaza.

Mrs. Heulett and her niece, Miss Addie Prendergast, lost several thousands of dollars worth of jewelry ten days ago when a burglar entered their apartments by the fire escape and got away over the roof. This morning a negro was found trying to enter Mrs. Heulett's apartment. Mrs. Heulett seized a revolver and from a window fired at the man who was on a fire escape but her shots went wild and the man escaped. Several hours later a negro was arrested charged with the attempt to rob Mrs. Heulett's apartment.

Hope cemetery.

LENEX, July 29.—The leading prosecuting officers of the government with the assistance of several prominent lawyers of national reputation, including Senator Frank B. Kellogg of Minnesota took up the consideration today of the question whether the criminal suit against the Standard Oil Co. for alleged rebating and other violations of the interstate commerce laws shall be further pressed in the courts. The gathering in one of the spacious parlors of the Hotel Aspinwall included Attorney General Charles J. Bonaparte, Solicitor General Henry M. Hoyt of Washington; Edwin M. Sims of Chicago, United States district attorney for the northern district of Illinois; his first assistant, James Wilkerson of Chicago, Mr. Kellogg and several clerks from the department of justice at Washington.

A great mass of legal literature in connection with the trial of the suit of the Standard Oil Co. at Chicago some fifteen months ago was brought on from Washington and Chicago together with the text of the decision of Judge Kenesaw Mountain Landis in imposing the \$29,000,000 fine upon the company as well as the latest document in the case, the decision of the United States court of appeals setting aside Judge Landis' opinion and his finding.

BARON TO FIGHT

Arrested on Charges of Hotel Keepers

BOSTON, July 29.—Baron F. von Godan Seefeld, who was arrested on Monday evening at the Hotel Touraine, was taken to Rhode Island yesterday to answer the charges of fraud made by hotel keepers.

The baron arrived in Boston with his beautiful wife and young daughter and hired apartments at the Touraine.

It is alleged that the baron beat his hotel bills.

The baron expressed an intention of fighting the charges. One is made by the proprietors of the Matthews Hotel at Narragansett Pier. The owners of the Crown Hotel of Providence also accuse him. The amount involved is said to be about \$250.

The baron's wife said yesterday that she was confident of her husband being able to prove his innocence.

Like himself, she attributed the charges to a misunderstanding.

LIEUT. BELCHER OWNER OF AUTO

To Be Tried by Court Martial

THE MISUSE OF STATE FUNDS

Is the Charge Against Militia Officer

BOSTON, July 29.—Lieut. Robert E. Belcher, signal corps, M. V. M., is charged with having misappropriated \$686 of the Commonwealth's money due to 25 soldiers of his command, who did duty at the Chelsea fire.

He will be tried by court-martial on Aug. 12. While the papers in the case have not yet been issued, this date has been decided upon by Adj. Gen. Brigham. The court will sit in the state house at 2 o'clock in the afternoon.

The specific charge upon which Lieut. Belcher will be tried will be "conduct unbecoming an officer and a gentleman," and upon the developments of the court-martial will depend what further action may be taken.

The court will be presided over by Maj. George F. H. Murray, 9th regiment infantry, M. V. M., with Capt. Charles H. Cole, 1st corps cadets, M. V. M., as judge advocate general, and Capt. Howard L. Rogers, battery A, field artillery, M. V. M.

The court-martial was ordered by Gov. Guild yesterday afternoon after a number of complaints from soldiers of the signal corps had been brought to the attention of the adjutant general.

The man were indignant and used some very strong language about the way, as they thought, they were being used by the adjutant general, and that soldiers of other organizations that had done duty in Chelsea had been paid.

The men explained to the adjutant general that the money was needed, and supposed it was being withheld because of an oversight of some kind at headquarters.

An investigation resulted when it was discovered that money to the extent of about \$686 had been paid Lieut. Belcher, who had received for it.

BELCHER LEFT STATE.

No part of this money, an investigation has revealed, was paid over to the men and they, after waiting a considerable length of time, entered formal complaint with Adj. Gen. Brigham and Gov. Guild.

It was then that a second inquiry revealed the fact that Lieut. Belcher had left the state.

The statements of his friends was that he was in such ill health that a trip was absolutely necessary. This was accepted as the best possible solution of the difficulty. Inquiry into the matter was postponed from time to time in the hope that the lieutenant would recover sufficiently to appear and explain things to the satisfaction of the military authorities.

Y. W. C. A. NOTES.

Miss E. Stafford Miller, who made many friends during her stay in Lowell, will be a guest at "Lowell Lodge," East Northfield, for the first week in August. Cannot Be Sued Says Appellate Court

NEW YORK, July 29.—The appellate division of the supreme court holds that the owner of an automobile is not necessarily responsible in law for an accident caused by the machine while it is being operated by the chauffeur in the absence of the owner.

Three of the justices, Ingraham, Clarke and Scott, hold that even if the chauffeur is running the machine for his own pleasure or use with the consent of the owner the latter is not responsible. The other two, Justices Houghton and McLaughlin, are of the opinion that the owner can escape liability only where it is clear that the chauffeur is using the machine without his employer's sanction.

The evidence showed that Burton S. Castle had given permission to his chauffeur, Harry Bess, to take his machine out on September 19, 1904, for his own pleasure. Bess took with him two women and a man, and at 1:30 in the morning, while coming down Central Park west, the machine struck George Cunningham, who was crossing the avenue, and injured him severely. Justice Clarke, writing the majority opinion reversing the judgment for damages obtained by Cunningham against Castle, says that it is clear that blame for the accident attached to Bess and not to Cunningham, who was using all possible care in crossing the street. But, says Justice Clarke, it was error for the trial judge to charge the jury that full responsibility for the injuries sustained by Cunningham rested on the owner of the machine.

Justice Clarke says that intrinsically an automobile can no more be classed as a "dangerous instrumentality" and therefore improperly entrusted to the chauffeur than a team of horses and carriage or wagon or a sailboat or motor launch can be classed as a dangerous instrumentality, or even a gun, under certain circumstances. If a gamekeeper borrows his master's gun, Justice Clarke asks, would the master be held liable for any negligence on the part of the gamekeeper that resulted in the shooting of a man when the gamekeeper was using the gun for his own purposes and not for the service of his employer?

"I do not think," says Justice Clarke, "that the question of the ignorance or consent of the master has any bearing whatever upon his liability. The fact that the servant has used the automobile without his consent has probative force upon the proposition as to whether or not the servant was engaged in his master's business within the scope of his employment. The question is whether he was or not."

Justice Clarke goes on to say that if the accident had occurred while the chauffeur was taking the machine, say, from the garage to the machine shop to have it fixed, the master would be liable, whether or not he had knowledge of the trip, because the act had happened within the scope of the servant's employment. But if the master were to tell his chauffeur that he could use the machine for his own pleasure while the master was away on a vacation, the master would not be legally responsible for any negligence by the chauffeur during the vacation.

"It may be," concludes Justice Clarke, "that it would be wise and in the public interests that responsibility for an accident caused by an automobile should be affixed to the owner thereof, irrespective of the person driving it, but the law does not so provide."

Justices Houghton and McLaughlin are of the opinion that the act of Castle in giving his consent to the private use of the machine by the chauffeur, made the owner responsible for the accident. As they view it, the chauffeur was technically still on his master's business and the relationship of master and servant had not been severed.

But the dissenting justices are of one accord with the majority of the court that if the chauffeur had taken the machine out without the consent of his master and contrary to the latter's orders, there would be no liability on the master. It is expected that an appeal will be taken.

ROYAL PIPERS

ARE MAKING A BIG HIT AT LAKEVIEW.

With its program of Scottish airs of all kinds, martial and ballads, with its quaint Highland costumes and its Scottish dances, the Royal Pipe band of His Majesty's Royal Rifles, of Halifax, N. S., will give an entertainment this week, every afternoon and evening, at Lakeview park, which will be entirely new and novel in this section as well as extremely interesting.

The band played all last week at Paragon park. Wednesday morning, by special request, it appeared at Fort Revere before Governor Guild, who was so delighted with its performance that at his request Saturday morning it played again at Fort Warren. Its martial airs were of the sort that made Uncle Sam's men take notice and realize why the Scots in battle, when stirred by such music, were among the most sturdy warriors of the world.

The bass drummer with this outfit is a whole entertainment in himself. He carries his own big drum, beats it with both hands, tossing the sticks in the air and waving them about at the same time and never missing a stroke in harmony with the time of the music. Thousands of people at Paragon park cheered themselves hoarse in continuous encores of the performance.

NATIONAL BISCUIT COMPANY

SHOT AT WHALE

Was Making Straight for Steamer

SAN FRANCISCO, July 29.—From the deck of the little coasting steamer Coos Bay, Capt. James Bowen waged a battle with a mammoth whale while his vessel was off Cayucos, on her way up the coast. The whale was observed making straight for the steamer and Bowen was obliged to put his vessel upon a different course to avoid collision with the mammal. Even this action of the skipper did not suffice to keep the Coos Bay out of danger, and drawing a revolver the captain opened fire upon his enemy.

Twice he emptied the contents of the revolver's chambers, but the leaden missiles apparently had little effect upon the mammal, as it renewed its attack upon the vessel. Finally in a last effort to escape from the whale, the skipper of the steamer ordered full speed ahead, and gradually the Coos Bay crept ahead of her pursuer.

One member of the crew said: "For some moments it looked like the whale would surely hit us, and considerable excitement was caused aboard the ship. The mammal was all of 100 feet long and seemed of a particularly vicious species."

"Even when Capt. Bowen discharged his revolver at it, the whale kept coming after us, although the water was dyed with blood."

DIED SUDDENLY

Doctor Was In Jail for Killing His Wife

NEW YORK, July 29.—Dr. Andrew Bergen Cropsey, the veterinary surgeon, who shot and killed his wife at her home in Bath beach, a week ago today, died suddenly in jail in Brooklyn yesterday. Heart disease was given as the cause of his death. Since his crime, for which he proclaimed sorrow and grief immediately after its commission, Dr. Cropsey had become a physical wreck and for several days had been on the point of collapse.

Dr. Cropsey belonged to one of the oldest families in Kings county. For generations the Cropseys had been prominent in social and civic affairs. He was forty years of age.

The announcement was made on a postal card. The ceremony was performed by the Rev. A. E. Harriman, pastor of the East Baptist church, at Lynn.

CONCORD, Mass., July 29.—Katherine Burke, daughter of Mr. and Mrs. James M. Burke, was struck by a south bound freight train on the N. Y. N. H. & H. railroad at Concord Junction last evening and died half an hour later.

Miss Burke, accompanied by several other girls, was crossing the track when the through freight from Lowell, due at 8:30, bore down upon them. She apparently thought she had time to cross the tracks and did not hurry. She was struck by the locomotive and her body hurled to the side of the track. The other girls escaped injury.

When picked up Miss Burke was unconscious. She was carried to the baggage room, where medical aid proved of no avail.

BODY IDENTIFIED

Said to Be That of Harry Cornish

NEW YORK, July 29.—The body of the well dressed man found in Graveyard bay last Sunday afternoon was identified at 12.30 this morning as that of Harry S. Cornish, who figured so prominently during the murder trials of Roland B. Molineux. This identification caused a stir among the Coney Island police, because all the circumstances which have come to light would indicate that the man was murdered. But no sooner had the police been told that they had the body of Harry Cornish on their hands than the props were apparently knocked out from under the identification by Edward Kinsella, manager of Dreamland, at Coney Island, where Cornish holds many penny in the slot concessions. Kinsella was positive that it was not Cornish's body.

Charles E. Crane, manager of a toboggan slide, was the man who saw the body in the Coney Island morgue and identified it as that of Cornish. Crane says he was a special detective at the second Molineux trial.

Coroner Brewer and physicians at an autopsy yesterday after carefully examining the peculiar long cut on the back of the head, said the wound had been made probably with an axe.

Following close after the diamond robbery at Willow Dale, on Sunday afternoon, a burglary occurred Monday evening at the Lakeside hotel at the entrance to Willow Dale, formerly known as Mercer's hotel.

When the abductor who opens the hotel in the morning entered the barroom at 6 o'clock yesterday morning he found the money drawer open and

\$10 in change gone. An investigation showed that the thieves had also gotten away with about \$20 worth of sealed liquor. It is believed that they entered through a cellar window. The Dracut police are at work on the case. State Inspector Byrne who is investigating the diamond robbery at Willow Dale will also give this case his attention.

YIDDISH COLONY

Is Greatly Excited by Two
Recent Thefts

The police have been asked to locate a young man named Kaufman, who is alleged to have stolen a watch and chain valued at \$65 from a Mr. Shapiro of Howard street.

Kaufman, a name believed to be an alias, came to this city a week ago last Saturday and, representing himself as of independent means, took up his residence at the lodging house of Mrs. Shapiro in Grand street. Last Saturday Mrs. Shapiro requested of Kaufman remuneration for the week's board. Kaufman told her that a \$20 bill was the smallest that he had, and that he would go to the store of Mrs. Shapiro's brother in Middlesex street and have it changed. He did not return.

It is alleged that during his stay at Mrs. Shapiro's, Kaufman attempted to purloin several hundred dollars from the trousers of another boarder named Fine. Kaufman was caught in the act by Fine and in reply to the latter's questions he said that he had simply moved the trousers in order to lower a curtain to shut off a streak of sunshine that prevented him from slumbering.

Last Saturday evening Kaufman made his appearance again in the

heart of the Hebrew colony in Howard street, seeking a night's lodging. He told a cock and bull story about being financially embarrassed, and Philip Cohen, to whom he related his woe, took pity upon him and directed him to the residence of a Mr. Shapiro in Howard street where he was allowed to spend the night. Sunday morning shortly before noon when Mr. Shapiro awoke he found in his best clothes a watch and chain had disappeared. Kaufman was also conspicuous by his absence. The news of the larceny spread like wild fire throughout the Yiddish colony, and both Shapiro families speedily came to the conclusion that they had been worked by the same individual. The police were notified but up to date no inkling of the whereabouts of Kaufman has been secured.

Only a short time ago Max Sideman, a young resident with his parents in Howard street, was the victim of a thief who not only relieved him of \$3 in money but got away also with young Sideman's best suit of tailor-made clothes. Sideman met the stranger at a meeting of the Arbitration Ring, a Jewish organization. The stranger said he had no place to spend the night, and Sideman with open arms welcomed him to share his hospitality for the night. The stranger willingly accepted. But the next morning the stranger was among the missing. So was young Sideman's \$3 and his suit of clothes. The police were also acquainted with this theft, but without result.

ITS CONTENTS WERE
UNIQUESmall Fire in Middlesex
Street Today

The alarm from box 72 at 9.05 o'clock this morning was for a small blaze in Hill Bros' carriage shop in Middlesex street. The damage was slight. Fred C. Church carried the insurance.

A fire that occurred at the residence of Mr. Henry Garrity, 34 Chelmsford street, last night, destroyed one of the prettiest and most unique rooms in Lowell. The alarm was from box 25 at 8.25 o'clock. The fire caught in the draperies and soon the much prized den, containing old, and unique furniture, well selected pictures and beautiful bric-a-brac was a sorry sight. The room and its contents were destroyed. Mr. Garrity's children, good healthy boys, had been playing and romping about the house and it is thought that one of them must have stepped on a match, the fire from which communicated with the draperies. Fred C. Church carried the insurance on the furniture.

New Bedford with Manager Corcoran in the lineup, Paddy Duff, formerly of Lowell on the first bag, Fatty Lord at second base and Connolly, the deaf mute on the slab were the attractions at Washington park this afternoon. The attendance was rather small, there being only 400 present, owing probably to the fact that the home team lost both games yesterday. The fans present, however, were very glad to see that Empire Connolly was among the missing. Empire J. O'Brien being the decision maker.

The home team presented two new pitchers, Gleason and Duval. Gleason was doing the slab work for Hamilton, Ontario, which recently disbanded, while last year he pitched for Bangor of the Maine state league and was instrumental in that team winning the pennant. Duval belongs to one of the Canadian colleges and it is said that he is possessed of the goods and able to deliver them at critical stages of the game.

The game was called "order" at 3.15 o'clock the batting order being as follows:

LOWELL. NEW BEDFORD.

FIRST INNING.

Lowell scored one run in the first inning, but the visitors had to be contented with a goose egg. Barrows opened with a strike-out, but Corcoran singled and O'Brien got a base on balls. Lord hit to Gleason and failed to reach first while Adler hit to Vandergrift and was out at first.

In the latter half of the inning Vandergrift got a free pass and went to second on Connors' sacrifice. Connolly threw to second and Vandergrift went to third on the throw. Magge singled to center field and Vandy scored. In the latter half of the inning Doran hit to Connolly and was out at first. Rivard followed with a fly to Adler. THIRD INNING.

Barrows hit to Doran and was out at first. Corcoran hit to Unice and was out at first, while O'Brien struck out.

The latter half of the third inning was a record breaker for duration owing to the fact that every other minute one of the visiting players would hold

up the game in order to throw a few wireless flashes at Connolly, the deaf and dumb pitcher. Vandergrift drew a base on balls and Connors got hit by a pitched ball. Magge advanced both men with a sacrifice. Beard hit to Connolly and Vandergrift was caught between third and home. Unice was third out on a fly to O'Brien.

Score—New Bedford 7, Lowell 1.

EIGHTH INNING.

Adler fled out to Unice. Harrison got a Texas leaguer, but in trying to steal second was nipped. At this point the game came near winding up in a mixup. Harrison in stealing second was hit rather hard with the ball by Connors and after being declared out got to his feet and made a pass at Connors; the latter swung his right arm and came near sending Harrison out of business. Empire O'Brien then interfered and the members of both teams rushed towards second base. At this point Patrolman Coggins entered the mixup and put Harrison off the grounds. Adler was also ordered off the field. Duff was third out, hitting to Vandergrift and being retired at first.

In the latter half of the eighth inning Moore went to right field instead of

Harrison and Shea took Adler's place at third.

Magge got a single and Beard drew a base on balls.

At this point Robertson, a pitcher on the visiting team, who was seated on the bench, gave Empire O'Brien some back talk and the latter ordered him off the grounds. Robertson, picking up a bat, refused to leave the grounds. Patrolmen Coggins and Hill, James McQuade and Messenger Pindar of the police department entered the field and escorted Robertson from the grounds.

After quiet had been restored Unice drew a base on balls, filling the bases. Doran fled out to Lord. Rivard drew a base on balls forcing in Magge. Lemieux drew a base on balls forcing in Beard.

At this point Moore was sent in to pitch on. Hazelton was assigned to right field. The only man left on the New Bedford bench was Delave and as he is under suspension he could not play.

TAFT A MEMBER

He Joins the Shovel-
lers' Union

CINCINNATI, O., July 29.—In accepting membership in the International Brotherhood of Steam Shovelers and Dredgersmen, Mr. Taft expressed his appreciation of the intended honor and said he would take the compliment as showing that while in the Panama canal where he had dealings with the shovellers' organization and where he had found it necessary sometimes to disagree and had decided in some cases against the workmen he was now convinced of their appreciation of the situation and their intention to be impartial. He spoke of the propriety of becoming a member of the organization which he justified by the membership of McKinley in the bricklayers' union and of Roosevelt in the firemen's organization.

T. J. Dolan, president of the organization, introduced Mr. Taft into the membership, assisted by Charles Ross of New York; John Tiney of Chicago; Walter McDonald of Texas; Henry Huffer of Cincinnati and Arthur Whitcraft of Rochester, N. Y.

Mr. Dolan in speaking of the manner in which Mr. Taft had treated the organization in reference to the canal work, said:

"We have always been treated by you in an entirely fair and just manner; you have always shown your appreciation of our efforts in originally securing volunteers from our organization from all parts of the country, it being necessary to ask for volunteers because of the limited conditions then existing on the isthmus."

BURGLARS BUSY

"The Thorndike," a liquor saloon in

Thorndike street conducted by Messrs. Cushing and Dawson, was entered last night and money and cigars were stolen. The break was made some time after eleven o'clock and the men who entered the place must have been acquainted with the premises. When one of the proprietors closed the place at 11 o'clock last night there were few persons in the bar. The burglars gained an entrance through a rear cellar window. They used a screw driver to remove a grating in front of a window and then made their way into the cellar. They found a case of sealed bottled goods there and took it in the large space in the rear of the store. The men carried pieces of iron pipe with them for they were found in the cellar when one of the proprietors

opened up this morning.

Going up the cellar stairs they found the door leading to the saloon locked and they broke one of the panels in the door and threw back the latch. Then they made their way behind the bar and opened the cash registers and took whatever money was in them. Opening one of the drawers under the bar they stole four boxes of cigars. This morning when one of the proprietors entered the place he found one of the registers open. In the yard in the rear of the saloon he saw a case of whiskey opened and upon investigation he found that four bottles were missing. The matter was reported to the police.

On Monday night the saloon of McCausland & Co. in Centralville was entered but the burglars were scared away before they got anything.

TRIED TO START AUTO.

Patrolman Page, the man who supplanted "Tom" Sanborn at city hall, made an attempt this forenoon, but allowed his prisoner, a small boy, to go after advising him as to what was expected from small boys in the way of deportment in or about city hall.

The lad was one of four who were amusing themselves by tooting the horn on "Bolt" Thomas' automobile and not satisfied with tooting the horn they attempted to start the machine. Somebody realizing what might happen, gave Mr. Page the tip and despite the fact that he is the oldest man on the force he succeeded in nabbing one of them.

The captured one put up a fearful holler and on bended knees promised the venerable policeman that he would never again tout an auto horn and above all things he would never attempt to start one. It had not occurred to him, he said, what might have happened should he and his pals have succeeded in setting the electrical mechanism of the machine in motion. It might have been more disastrous to human life than was the wild run of the bandits in Boston a few days ago.

BRYAN TO REPLY

To the Statements of William H. Taft

FAIRVIEW, Lincoln, Neb., July 29.—The first authentic outline of Mr. Bryan's plan of campaign was secured today from one close to him. A few prepared speeches will be made at central points and nearly all of these will be made by Oct. 1. During October he expects to remain at home and assist in the educational work of the campaign through discussion of public questions in the form of interviews, signed articles and letters.

Despite the heat Mr. Bryan today was hard at work with his secretary, Mr. Rose, disposing of correspondence.

Mr. Taft's speech of acceptance of the republican nomination for the presidency was read with great interest and in view of the situation upon Mr. Bryan himself and the democratic party in general it is not improbable that Mr. Bryan this afternoon will issue a formal statement in which he will answer some of his opponent's statements.

Mr. Bryan is much pleased with responses to his suggestion that democratic newspapers open subscription lists for campaign contributions. He said today that the fund, already considerable, was steadily growing.

CHARRED BODY

Found in Bonfire in Vacant Lot

NEW YORK, July 29.—The charred body of a woman was found in a bonfire on a vacant lot in the Williamsburg section of Brooklyn today. The legs and arms were nearly burned off and the head and other parts of the body were disfigured. A stableman who discovered and extinguished the fire was detained by the police.

The place where the body was found is used as a dump for refuse. Joseph Reddick, the stableman, told the police that he saw the fire burning when he awoke early today and that with the aid of his son he extinguished it. Beneath the body was an old mattress partially burned. The pieces of a large glass bottle which lay near the body led the police to believe that acid had been used, possibly to disguise the body or cause the fire to burn more briskly. The police are working on the theory that the woman was murdered and her body carried to the dump and set on fire to conceal the crime.

THE TENNIS PLAY

Fourth Round in Longwood Singles

BOSTON, July 29.—The competition thus far in the tennis tournament now in progress on the courts of the Longwood Cricket club had brought the play in the Longwood singles event through to the fourth round and that in the eastern doubles to the third when the first players took their places on opposite sides of the nets today.

In the former event there were eight matches to be decided before the fourth round was completed and it was expected that several matches might be played in the fifth round before the day's close. The same number of contests were necessary in the doubles tournament before all the pairs could reach an even standing in the fourth round, the Holt-Foster team having already reached that point while one match remained to be decided in the third round in which M. F. G. Anderson and R. D. Jones of Providence were the opposing teams.

One of the most interesting of the forenoon matches in the singles was that between H. La. West and G. F. Touchard, both of New York who were paired together in the doubles. The gallery also showed much interest in the match between J. O. Ames of Providence who was responsible for one of the upsets yesterday and P. C. Loran of the upsets yesterday.

The competition in the doubles was unusually keen and several exciting matches resulted. The Johnson brothers of Boston in their match with W. Y. Rosenbaum and R. H. Palmer of New York were the favorites and played a strong game and the Doyle brothers of Washington figured in an interesting match with W. F. Johnson of Philadelphia and R. C. Seaver of Boston.

NEW YORK, July 29.—Quarantine Commissioner Frederick H. Schroeder of the Eagle Savings & Loan Co. of Brooklyn and Col. Edward E. Britton, president of the Eagle Savings and Loan Co., were arraigned today before County Judge Dilke in Kings county on four indictments charging them with grand larceny. The indictments allege that Schroeder and Britton obtained sums aggregating over \$60,000 in cash from the company on memorandum checks which were charged in the accounts of the company as cash. When arraigned Schroeder and Britton pleaded not guilty and were held in \$10,000 bail each.

Officials of the district attorney's office state that while the indictments specifically charge that four sums namely \$250, \$4000, \$3008 and \$782, were obtained by Schroeder and Britton from December last until this month, that the total sum of such alleged larcenies will approximate \$10,000.

There has been no suggestion made that the credit of the Eagle Savings & Loan Co. has been impaired in any degree.

Commissioner Schroeder is an officer of several well known Brooklyn clubs and a local republican leader. Col. Britton for a number of years has been a staff member of the second brigade of the state national guard.

MCINTYRE DEAD WINTHROP SANDS

He Was Head of Failed Firm

BALTIMORE, July 29.—Thomas A. McIntyre, who was head of the failed firm of T. A. McIntyre & company, died here today.

FAILED FOR \$400,000.
NEW YORK, July 29.—T. A. McIntyre & company, the stock exchange house, failed for over \$400,000, following which McIntyre was indicted on charges of larceny growing out of various transactions alleged to have been fraudulent. He was in ill-health at the time of the indictment and had been failing rapidly since that time. A hearing was set for the case on July 7, but his condition then was such that a postponement was necessary.

Thomas McIntyre for many years was one of the prominent figures in New York financial and speculative circles. The firm of which he was at the head up to the time of his disastrous suspension, a few months ago, was identified with the stock exchanges and boards of trade of half a dozen cities. When the crash came there were revelations which resulted in the indictment of McIntyre on the charge of grand larceny and made necessary a thorough investigation into the failed company. The investigation still is in progress and when a board of trustees to administer the affairs of the involved company was appointed the other day it was announced that property valued at \$100,000 had been found to apply to the liquidation of debts of more than a million dollars.

Afterwards, Mr. McIntyre declared that that time, however, that eventually fifty cents on the dollar would be paid on the total indebtedness.

As soon as help arrived Mr. Sands and the chauffeur were extracted but they had been horribly maimed and burned. They were carried into the chateau where Mr. Sands died at 9 o'clock. The chauffeur is still alive but his injuries probably will prove fatal.

G. Wintthrop Sands was a son of the present Mrs. W. K. Vanderbilt by her first husband, Samuel Sands, who was killed at the Meadowbrook Hunt some years ago. Mrs. Sands-Rutherford was married to W. K. Vanderbilt in 1903.

Mr. Sands' mother, Mrs. Vanderbilt, his step-father and his brother were at the chateau when the accident occurred. All were grief-stricken. Mrs. Vanderbilt was almost distracted when the torn and burned body of her son was borne tenderly.

It was evident that he was then past mortal aid and he did not regain consciousness before his death.

The members of the family were apprised of the accident by telegram. George W. Vanderbilt is at Dinard, W. K. Vanderbilt, Jr., left there this morning for London.

Mr. Sands suffered terrible tortures from his burns and injuries before death came.

When the car hit the tree it turned turtle. Mr. Sands being thrown under it and pinned there.

Several spectators rushed up but as the machine immediately took fire they kept a way from it, fearing an explosion. As this did not occur the men finally rushed in and extricated the horribly mutilated body of Mr. Sands, literally tearing off his leg which was firmly pinned down by the torn and twisted machinery of the blazing wreck.

CORNISH IS ALIVE

Body of Drowned Man Had Been Identified as His

NEW YORK, July 29.—Although the body of a murdered man which was found in Gravesend bay last Sunday was believed to be that of Harry S. Cornish, one of the central figures in a mysterious murder case a few years ago, the identification was subsequently disproved. Mr. Cornish, who could not be found at first, on seeing the published identification, called up the newspapers and several of his friends and asked that the report of his death be corrected.

The mistaken identification was made by Crane, who was formerly employed as a detective in the murder

ARTHUR I. VORYS THERON F. PIERCE

Had a Conference With Judge Taft Secretly Married to Miss May Deering

CINCINNATI, July 29.—William H. Taft will remain at the Taft residence throughout the day and leave with Mrs. Taft and General and Mrs. Henry C. Corbin for Hot Springs, Va., tonight. Mr. Taft this morning said he felt no effect whatever of the exertion of notification day. His voice which had undergone considerable strain was not husky.

The first thing on the program with Mr. Taft today was a conference with Arthur I. Vorys, his chief of staff. The understanding reached yesterday whereby Ohio will get the benefit of the work of the national committee in the same manner as all other states brings up many things for present discussion. This decision was joyfully received by state leaders.

Mr. Taft was early today made an honorary member of the steam shovelers' union.

THE BIG MUSTER

Col. J. H. Carmichael Will Head the Parade

COL. JAMES H. CARMICHAEL, To Be Chief Marshal.

Elected Chief Marshal at Meeting of Butler Vets—Continuous Band Concerts During the Play Out—Slight Change in Route of Parade

As was exclusively announced in The Sun of recent date, Col. James H. Carmichael will be the chief marshal of the big firemen's parade on muster day, having been formally elected to the position at a largely attended and enthusiastic meeting of the Butler Veterans' Association, last evening. Prior to the meeting there was a strong sentiment in favor of Mr. Humphrey O'Sullivan for the position, but when it became known that he did not want the position, Col. Carmichael became the unanimous choice.

The meeting was held at the quarters of the Butler Vets at the corner of Cross and Fletcher streets and was presided over by James H. Walker, with Harry E. Clary secretary.

A committee on music was appointed, composed of the following members: J. J. Magee, H. E. Clary and T. J. Johnson. It was decided to have a continuous concert by two bands, on the North common from 11 a. m. to 6 p. m. on the day of the muster.

A slight change in the route of parade was made and as revised, the line of march will be as follows:

Right of line in Highland street, opposite Edison school house, through Locke street to Central, to Merrimack, to Pawtucket street; counter-march at School street to Pawtucket, to Salem, to Castle square, where the companies possessing the odd numbers will march through Common street and the even numbers through Clark street. Secretary Clary announced that one more entry had been received, the latest being the T. W. Lane of Manchester, N. H. The Butler Vets will have two bands in the parade and the local association has also arranged for an ambulance corps to be stationed on the grounds.

A regular meeting of the league will be held in Boston next Tuesday at which six candidates for membership will be acted upon. If they become members they will enter the Lowell league.

Mr. O'Sullivan and the muster committee of the Butlers are leaving no stone unturned to make the muster the greatest day Lowell has ever seen and they are quite sanguine of success. With his national reputation as an advertiser of rare enterprise and originality Mr. O'Sullivan is accomplishing things that an ordinary promoter could not, notably the Firemen's Treasure book which will contain the most comprehensive history of New England Firemen's companies ever published. It will be ready for the public August 15. So elaborate is it that the Boston library has asked for a copy in order that records of the early fire-fighting days may be had for public perusal. This book will be on sale at Lowell stores. Inasmuch as the committee has no asked and will not ask local merchants to give financial aid to the project, it feels that the stores will not hesitate to do this much as their contributions to the success of the event.

Furthermore, the Joseph J. Flynn Bill Posting company has been engaged to

FIVE YEARS AGO

The South Lowell Explosion Occurred

GREATEST TRAGEDY IN LOWELL

Many Visited Scene of Explosion Today

Five years ago today, July 29, 1903, the explosion occurred at South Lowell, the greatest disaster that ever befell this vicinity, in which 21 people were killed and 75 injured. Besides the loss of life there was a vast amount of property damage. Within a year the U. S. Cartridge company paid out nearly half a million in claims, mostly without litigation and there are still some pending in the supreme court.

The scenes that followed the holocaust will never be forgotten, and Lowell passengers on the Boston and Maine as they cross the "six-arch bridge" and look over upon a small curbed grass plot from the centre of which arises a flag staff, on which a flag flies a half-staff today, invariably shudder as they recall the great tragedy enacted there. The mound and flag staff are erected on the Riggs property in the centre of Riverside park, near where the powder houses stood. The locality will ever remain a park as it is now called for no house could ever be let to tenants on the scene while the memory of the horrible affair exists. A large number of people visited the scene of the explosion today.

CITY MUST PAY

Court Expense of Officer Buchanan

BECAUSE HE SHOT A DOG

Under Orders of Superior Officers

Some months ago Patrolman Buchanan killed a dog supposed to be affected with rabies and the owner of the dog brought suit against the patrolman with the result that the court found against Mr. Buchanan. The following letter which has to do with the case and in which the board of police asks the city to pay the freight is self-explanatory:

July 18, 1903.

Chairman, Committee on Accounts, Lowell, Mass.

Dear Sir:—In this month's bills charged to the police department you will find one from John Buchanan for \$12.50. This bill is the outcome of a suit brought against Patrolman Buchanan for killing a dog, and after investigation by the board of police, they find that the officer was acting under the instructions of his superior officers, and was justified in taking such action, and have, therefore, approved the bill, at the same time instructing me to forward this information.

Very respectfully,
John J. Flaherty, Jr.,
Clerk of Board.

Members of the committee on accounts including the chairman, Alderman Gray, said today that they would vote to approve the bill, because they believe that the officer but performed his duty when he shot the dog and it would be poor appreciation should the city refuse to pay the bill.

DRACUT ASSAULT

Young Man Held in \$700 for the Grand Jury

Girl Sent to Jail as a Stubborn Child—Old Love Affair Aired in Police Court

The session of police court this morning was long drawn out and rather uninteresting from a spectator's standpoint despite the fact that there was a varied list of cases and could have been classed as one of the quietest days in police court but for the fact that Lawyer Daniel J. Donahue and Deputy Edmund Welch got into an argument which necessitated the interference of Judge Pickman.

DRACUT ASSAULT CASE. Albert Bourassa was charged with feloniously assaulting Jessie E. Harrison and entered a plea of not guilty. The Harrison girl testified that she stayed out all night Sunday night and slept in a field in Dracut. At noon Monday she was given food by a woman near the Navy Yard and taking it into a field nearby started to eat it when she was assaulted by Bourassa. During the course of her testimony she accused towards Bourassa and said: "If I was a boy I would have kicked you all over the street."

Bourassa denied having assaulted the girl, but probable cause was found and he was held under \$700 bonds for the grand jury.

GIRL SENT TO JAIL

Just before the conclusion of the session the Harrison girl was charged with being a stubborn child. She had been on probation, but Officer Slattery surrendered her Monday evening. Mrs. Harrison testified that she could do nothing with her daughter, that the girl stayed out nights and she did not know where she was half of the time.

During the hearing of the case the girl became hysterical, and crying at the top of her voice said that she was ill-treated and abused by her mother and sisters. She said: "If you put me away, God help you when I get out; I will never look at you again."

OTHER CASES.

Edward Dix, drunk, was sent to the state farm.

James Alexis, a second offender, was fined \$5. Joseph Swaseki and Michael Alexis were fined \$3, an additional dollar being attached to the fine because they were unable to speak the English language.

Frederick Redfern, a second offender, was fined \$5, but his license, on probation for three months after promising to pay the fine before the expiration of that time.

HAZEL DREW'S CHUM

May be Able to Furnish Some Clue to the Police

TROY, N. Y., July 29.—The authorities are awaiting with much interest the return to this city today of Carrie Weaver, the chum of Hazel Drew. They feel certain that the Weaver girl will materially aid them in finding some tangible clue in tracing the person or persons supposed to be responsible for Miss Drew's death. A few days before the tragedy at Teal pond Miss Weaver went to Ohio to visit relatives but her vacation being over she is now returning. A despatch has been received here containing a statement by Miss Weaver in which she wondered how Hazel Drew managed to live so well, to have so many fine dresses and to take so many pleasure trips to surrounding cities. Miss Weaver added that she never saw Hazel in the company of a man and that her chum told her she had no sweetheart.

"She could make a dollar go farther than any woman I ever saw," said Miss Weaver. "Her salary was only a little more than mine, yet I never could manage to buy as fine hats and as small costumes as she did, let alone the luncheons at fashionable restaurants and the frequent trips she made out of town. From what Hazel told me she must have had an awfully good time when she went away from home. She said not the slightest attempt was made anywhere to alter her an insult. She knew how to take care of herself, but from what our little trips together cost I know that she must have spent a great deal of money on pleasures of this kind, and for the life of me, I don't see how she managed to save enough from her wages."

Prosecutor O'Brien confidently expects that Miss Weaver will be able to give facts about the dead girl's habits and associates that will ultimately enable to solve the mystery of the killing of Hazel Drew. Subpoenas were being served today for the latest here tomorrow and it is quite likely that Carrie Weaver will be called to give her testimony before Coroner Stroppe. It is expected that the inquest will be closed at tomorrow's session.

FELL FROM ROOF

John Coo Was Fatally
InjuredWOBURN, July 28.—John Coo, aged
27, a resident of East Boston and em-
ployed by A. W. Wheeler & Co., deal-
ers in awnings, fell from the roof of the
McGrath building, opposite the com-
mon, yesterday afternoon and sustained
serious internal injuries. After tem-
porary treatment he was sent in an un-
conscious condition to the Massachu-
setts general hospital at Boston, where
he died at 6.10 last night.Coo had installed new awning at the
McGrath store, which was to be opened
today and had gone to the roof of the
building to attach iron braces to the
rafters. While so engaged he stepped
back, placing his foot in the gutter,
which crumbled beneath his weight,
and he fell headlong forty feet to the
walk below.In falling he struck George Lowell,
who was passing, his head hitting Low-
ell upon the head and inflicting a scalp
wound that called for several stitches.The main feature
of yesterday's tercentenary program
was the garden party at Spencerwood,
the beautiful residence of Lieut.-Gov.
Jette, which overlooks the St. Law-
rence just above Wolfe's cove.Yesterday was the prince's last day
in Quebec, for last evening his royal
highness went on board the Exmouth,
where he was present at a state din-
ner. Later in the night the prince
went on board the Indomitable.At 11 a. m. yesterday the prince pro-
ceeded to Victoria Park and there
planted a tree in commemoration of
his visit. At 2 p. m. there was a mili-
tant and naval turnout at which sports
were indulged in, while the evening
was taken up with a historical ball.The crowds of visitors are thinning
out, the soldiers are departing daily.

LAW IS VIOLATED

Charge Made by Vermont Com-
mission on TaxationMONTPELIER, Vt., July 28.—Fre-
quent and flagrant violations of the
tax law, both by listers and by tax-
payers and a too low appraisal of prop-
erty throughout the state, are charged
in the report submitted to Gov.
E. D. Proctor by the Vermont commis-
sion on taxation appointed by the
governor in accordance with an act of
the legislature of 1906. The report was
made public today. The commission
which is composed of O. M. Barber of
Bennington, John H. Senter of Mont-
pelier, George W. Pierce of Brattle-
boro, A. A. Olmstead of Newbury, L.
P. Slack of St. Johnsbury, and Ernest
Hitchcock of Pittsfield, recommends
the creation of a state tax commission
of three members in place of the present
single commissioner, the additional
taxation of intangible property and
many amendments designedto strengthen the present tax laws.
The report declares that less than
three per cent. of all the inventories on
file are filled as required by law, that
many taxpayers file no inventories and
that if the law imposing a penalty
of \$200 upon a lister for accepting an
inventory not properly made out were
enforced the forfeiture thus incurred
for 1907 alone would amount to more
than \$20,000,000.Messrs. Pierce and Olmstead are of the
opinion that the present law giving
the option to railroads to pay a tax
based on their gross earnings instead
of upon the appraised valuation of
their property is an unjust discrimina-
tion in favor of such corporations and
should be repealed. These two com-
missioners also recommend that a state
tax be assessed upon the franchise and
property of railroads at a rate to be
ascertained by dividing the total
amount of taxes levied by the total
appraised value of property and polls
entered in the grand lists. They also
recommend a graduated income tax.The report also contains a list of the
violations of the law which have been
observed during the past year. It states
that in many cases the listers have
failed to file inventories at all, and
that in many cases the inventories
filed are not filled out as required by
law. It also states that in many cases
the taxpayers have failed to pay their
taxes, and that in many cases the
property has been appraised at a value
much lower than its actual value.The report also contains a list of the

THE RED BOOKS

600 Will Soon Be Given
OutThe committee on printing, Alderman
Butterworth chairman, held its second
meeting of the year last night and it
was a very important meeting for in-
stance: It was voted to distribute the
600 red books. Each member of the com-
mittee will have 15 copies of the book
to distribute, and all other members of
the government will have seven each.
Each member of the government will
have one book with his name in gold let-
ters (think of it) on the front cover.
In executive session the committee voted
to let the heads of departments have a
book apiece and Clerk Dowling wise old
owl will have three or four barrels of
them for general distribution. After
having attended to this ponderous duty,
going into it "exhaustively and exhaus-
tively," the grandest committee of them
all adjourned.

STAR THEATRE

As was expected, there was an im-
mense crowd at the amateur show last
night, the attendance beating all re-
cords. That the performance was keenly
enjoyed was assured by the hearty
outbursts of laughter and applause.
There was some excellent singing and
dancing by the little girls and an
abundance of comedy was furnished by
the several quartets of boys.The performance of James West was
enthusiastically received. He has some
new jokes that are great laugh-getters
and his singing is very good.
The songs, "You'll Have to Stay
After School" and "As We Watched the
Ships Go Sailing," sung by Babe Cur-
ry and J. C. Bell, have been very suc-
cessful. The singers are generously
applauded.The new pictures today are both in-
structive and amusing.
There is no better entertainment to be
seen any place for the money. In fact
it is worth many times the price
asked.The theatre is cooled during the hot
weather by mechanical means.

LAKEVIEW THEATRE

The popular comedy drama, "Fog's
Ferry" is proving to be a good drawing
card for the Adam Good company at
Lakeview theatre this week, and the seat-
ing capacity of the theatre is taxed at
each performance. The band concerts
which are given daily at the park this
week, are so arranged that they do
not conflict with the performances at
the theatre.

Several Injured at Fire
in BostonBOSTON, July 28.—Three firemen
seriously injured by falling glass,
practically all members of ladder Co.
2 affected by the excessive smoke. Chief
Mullen of the fire department almost
knocked out by inhaling the fumes of
escaping gas and Supt. H. R. McCona-
ghey of the Boston Mutual Life Insur-
ance company rescued from his office
by firemen, were among the many ex-
citing features that attended a damag-
ing and threatening fire, which broke
out in the dry goods store of Wolcott
& Co., 31, 33 and 35 Central square,
East Boston, shortly after 6 o'clock last
night.The damage is figured at \$22,000.
The fire started in the basement of
the building, a three-story brick struc-
ture, presumably from spontaneous
combustion in a large consignment of
cotton which arrived a few days ago.The blaze was discovered at 6.03 by
E. Wyzanski, who is employed by the
Wolcott company. He observed smoke
escaping through the cracks on the first
floor. The fourteen young women that
were engaged as saleswomen in the store
were at the time preparing to go home,
the store having closed for business at
6 o'clock. Mr. Wyzanski made known
to the young women the presence of the
smoke and they as quickly as possible,
but without the slightest sign of com-
motion or excitement, left the store and
were on the street before the fire had
been observed by outsiders.

THEATRE VOYONS

"Damon and Pythias," the big hit of
the Theatre Voyons bill today, is a
most interesting picture and its story
of the early days in Greece is an in-
teresting and instructive one. The
production is an exceptionally good one
in regards actors, costumes and set-
ting. Historically the story is told in
correct and the present production af-
fords the best opportunity in years to
see this story at its best. The
comedies are exceptionally funny.

BRYAN'S CHANCES

Current Literature Say
They Can't Be IgnoredWhat are Bryan's chances for elec-
tion? That he is much stronger with
the democratic rank and file than he
was four years ago was evident at
Denver. Has his strength increased
outside the democratic party? Henry
Watterson thinks it has. He is not
much of a Bryan man, but he thinks
that the latter is "stronger than ever,"
and has a much better chance to win.
Since the election eight years ago,
when Bryan was defeated over-
whelmingly in the electoral college,
there has been a new congressional ap-
portionment which carries with it a
change in the electoral college. In the
new apportionment the south has

SIGNED BY MAYOR BAND OF ANARCHISTS

The Order for Repairs on Public Buildings

All of the orders and resolutions including the \$300 order for repairs on school houses and public buildings and the resolution endorsing the Lowell, Lawrence and Boston Interurban street railway company, adopted and passed by the city council last night were signed by Mayor Farnham today.

Some \$150 of the \$300 was appropriated for work to be done about the Riverside school in Wiggville. The school grounds there are very limited and in such close proximity to the car tracks as to render them positively dangerous. The putting in of a new street, Eugene street, has assisted in reducing the size of the grounds and the scheme is to enlarge the

grounds by blasting and to build a wall with a fence on top and sufficiently high to keep the children within bounds. Other slices of the appropriation will go toward the building of a retention wall at the new Bartlett school in Wampanoet street. New boilers are to be installed in the Lawrence street school and new floors will be laid in the kindergarten school in Pawtucketville. These are a few of the improvements that have been mapped out.

As to the work at the Wiggville school for which \$150 was appropriated, one local contractor has been quoted as saying that he could do the job for \$30 and make money at it.

CARE OF CHILDREN THE CARD SYSTEM

Board of Health Distributes Circulars

SUGGESTED BY THE SUN

Inspectors Leave Them at Tenement Houses

Acting on a suggestion offered in the editorial columns of The Sun, the local board of health is having distributed, by its inspectors, to tenement houses throughout the city, a circular containing rules for the care of children that will save many a little one's life if the rules are laid down in the circular are lived up to. The following is an abstract from the circular, and has to do with the feeding:

Use a Plain Bottle with Rubber Nipple.—Have no tubes in it, for they cannot be kept clean, and so make the milk sour. Always scald the bottle thoroughly after using. Keep the milk on ice or boil it in Hot Weather.—A refrigerator will more than pay for its cost in saving food, and in preventing sickness. In hot weather, if you do not take ice, boil the milk as soon as it enters the house and then set it in the coolest place there is.

How to Prepare Cow's Milk.—Give the following proportions: To a baby one month old, one part of milk to two parts of barley water. To a baby three months old, equal parts of milk and barley water. To a baby over four months old, more milk than barley water.

To a baby five months old, other food may be given. If the bowels are constive, use oatmeal water instead of barley water. If the milk sours on the stomach, add a tablespoonful of lime water. To Make Barley Water.—Wash one tablespoonful of pearl barley in cold water, then pour off the water and put the barley in a quart of boiling water; let it simmer covered and warm for three hours, then strain it. Make oatmeal water the same way.

Other Food.—When the centre teeth have come a baby may begin to take bread with its milk and may have beef tea or mutton broth once a day. Never give cake, candy, tea, coffee or fruit to a baby. Do not feed it from the bottle. Never give medicines or prepared foods without a doctor's order.

Under the head of "General Directions," the circular says: Bathe the baby every morning in water warm enough to take off the chill. If an infant is feverish it may be bathed again at night. Keep doors and windows open in hot weather.

FUNERALS

Dennis Sullivan, pastor of St. Mary's church, officiated at the organ. The pall bearers were Messrs. Bernard P. Williams, McDaniel, Thomas Flynn, Daniel Sullivan, Gus Golden and Martin Tawney. Interment was in the Catholic cemetery. Undertaker Thomas J. McDermott in charge.

Nestled in the Quiet Neighborhood of Jamaica Plain

BOSTON, July 29.—Developments in the Jamaica Plain hold-up and murder have attracted the police of Boston.

Not for a minute did the officials suppose that in so quiet a neighborhood as Jamaica Plain was nestled a band of men and women who regarded the shooting down of their fellow beings as an incident in everyday life. After the killing of the priest at the altar in Colorado and the revelations that came from the doings of the anarchists in Paterson, N. J., the police officials of every big city in the country were instructed to make a special investigation to locate and keep under surveillance such communities.

Chief Inspector Watts gave out long interviews at the time, telling of the results of his investigations. There was no mention made at that time of the group that the saloon hold-up and the trail of blood that followed has unveiled.

Had they known of the Jamaica Plain community they would have been able at the time to have rendered the Woburn police force assistance in their search for the murderous highwayman who terrorized that city last February.

SEEKING INFORMATION. Now all the police officials of Greater Boston are co-operating to secure

the necessary information of the location and number of anarchists harbored within their boundaries.

As in all such communities they have discovered that a woman holds an important position. In the Jamaica Plain circle it is Leoline Mauren, and the officials depend upon her capture to unravel the mystery of the trail that leads to the two bandits who escaped, but to also give them knowledge of the membership of the association that shoots to kill, which will be useful in the future.

PROBLEMS FOR POLICE. How widespread in this state are the ramifications of this organization of desperate men; what other crimes they are responsible for, and what means are necessary to stamp them out, are among the problems that the police officials must grapple with.

LAWRENCE, July 29.—It was discovered yesterday that Mrs. Edward Mauren, mother of Leoline Mauren, Monday received a letter from her daughter which was postmarked Friday, July 24, and addressed from 43 Union avenue, Jamaica Plain.

A copy of a paper containing a picture of the daughter Leoline, was shown to Mrs. Mauren, and for the moment she was almost overcome. When her eyes lighted on the picture of her daughter she gasped in surprise, and clasping her hand to her heart she warned her son, who was acting as interpreter, to say no more.

She refused to show the letter she received from her daughter, but admitted that she had received one.

ROBBERS FOILED

They Tried to Enter

Drug Store

PROPRIETOR WAS IN

THE PLACE

And They Were Scared

Away

An attempt to enter the drug store

located at 415 Devon street was made the night

before last but owing to the fact that

Mr. Tremblay was in the store at the

time and went into the rear room after

being attracted by the sound of the

burglars two boys were frightened

away.

It was shortly before midnight when

Mr. Tremblay, who was in the front

store and about to turn out the lights,

heard a grating sound coming from the

rear room. He thought it was too

loud for his cat to make and going to

towards the rear of the store flashed

the light, which had been turned low,

and was just in time to see two boys

run through the alleyway which is en-

tered from Fourth street.

The window is screened with heavy

wire and from the sound heard he is

of the opinion that the would-be bur-

glars were trying to remove the screws

which hold the guard.

In all probability the men who tried

to enter this store are the ones who

were unsuccessful in their attempt to

enter O'Brien's drug store early Mon-

day morning.

RIVER WATER FOR SPRINKLERS

SUPT. THOMAS, OF THE WATER DEPARTMENT, SAYS THE RUSTY SEDIMENT COMPLAINED OF IN THE CITY WATER AT CERTAIN POINTS IS DUE TO THE DISTURBANCE CAUSED BY THE STREET CAR SPRINKLER IN FILLING UP AT CERTAIN HYDRANTS.

WHERE THE MAINS ARE OLD THIS FRICTION CAUSED BY THE WATER RUSHING THROUGH THE PIPES UNDER GREAT PRESSURE, RUBS OFF PART OF THE RUST AND THIS PASSES OUT THROUGH THE FAUCETS IN THE VICINITY.

IT IS TO BE REGRETTED THAT A SUPPLY OF EXCELLENT WATER DRAWN FROM THE DRIVEN WELLS, SHOULD BE DAMAGED IN THIS MANNER.

THIS IS A RESULT THAT WAS NOT DREAMED OF WHEN THE CAR SPRINKLER WAS PUT ON. THE CITY WATERING CARTS OF COURSE CONTRIBUTE THEIR SHARE TO THE DISTURBANCE IN THE PIPES AND IN HOT WEATHER THIS AGITATION IS CONSIDERABLE.

THERE IS LITTLE PROBABILITY THAT THE RUSTY SEDIMENT OR ANY PART OF IT, COMES FROM THE WELLS, INASMUCH AS THE WATER ON LEAVING THE WELLS IS FOUND TO BE FREE FROM ANY SUCH IMPURITY, BUT THE CHARGE THAT THE WATER CONTAINS AT ANY POINT ANY POISONOUS SUBSTANCE IS WITHOUT FOUNDATION.

NOW IT IS WRONG TO HAVE A SPLENDID WATER SUPPLY SERIOUSLY DAMAGED BY ANY SUCH CAUSE.

WE CANNOT TELL WHETHER THE SOURCE OF SUPPLY IS INEXHAUSTIBLE BUT IN ANY CASE IT COSTS TOO MUCH TO BE USED BY THE STREET AND FIRE DEPARTMENTS INDEFINITELY IF THERE IS ANY OTHER SOURCE OF SUPPLY FOR THESE PURPOSES.

IF, HOWEVER, THE WATER SUPPLY IS DISTURBED AND CHARGED WITH RUST AS A RESULT OF WATERING THE STREETS, THERE IS BUT ONE REMEDY AND THAT IS TO PROVIDE STAND-PIPES FROM WHICH THE CAR SPRINKLERS AND WATERING CARTS CAN BE SUPPLIED WITH RIVER WATER.

IF THIS WATER COULD BE USED FOR FIRES, THE WELL WATER WOULD BE SAVED TO THAT EXTENT, BUT THIS WOULD REQUIRE A WHOLE NEW SYSTEM OF MAINS THROUGHOUT THE CITY WHICH IS BEYOND OUR REACH.

BUT IT IS QUITE PRACTICABLE AND COMPARATIVELY INEXPENSIVE TO PROVIDE STANDPIPES AT A CENTRAL POINT FROM WHICH WATER FOR STREET SPRINKLING CAN BE TAKEN. THIS WOULD OVERCOME THE TROUBLE NOW COMPLAINED OF AND WOULD MOREOVER BE A SOURCE OF SAVING FOR THE WATER DEPARTMENT BECAUSE IT IS EASIER TO GET RIVER WATER THAN TO PUMP WELL WATER.

TWO NOTABLE EVENTS IN LOWELL

THE CITY OF LOWELL IS TO HAVE TWO EVENTS THAT WILL GIVE HER A GREAT ADVERTISEMENT.

THEY ARE THE NEW ENGLAND VETERAN FIREMEN'S MUSTER TO BE HELD ON AUGUST 20 AND THE GREAT AUTOMOBILE RACES ON LABOR DAY.

THE MUSTER WILL ATTRACT AT LEAST 100,000 PEOPLE TO LOWELL. IT IS ON A BUSINESS DAY AND FOR THAT REASON SHOULD BENEFIT LOWELL MERCHANTS AND TRADERS.

HENCE THE LOCAL COMPANIES SHOULD BE ASSISTED IN PROVIDING FOR THE ENTERTAINMENT OF THE VISITORS AND THE GENERAL SUCCESS OF THE UNDERTAKING.

INASMUCH AS THE CITY AS A WHOLE IS INTERESTED IN MAKING THE MUSTER A SUCCESS, THE LOCAL COMMITTEE SHOULD RECEIVE GENEROUS ASSISTANCE FROM THOSE WHO CAN AFFORD TO CONTRIBUTE.

THE AUTOMOBILE RACES ON LABOR DAY WILL BE ANOTHER GREAT ADVERTISEMENT FOR LOWELL.

THAT WILL BE AN EXPENSIVE UNDERTAKING AND UNLESS LOCAL CONTRIBUTIONS ARE FORTHCOMING IT WILL NOT BE A SUCCESS.

THERE IS AN OPPORTUNITY FOR PUBLIC SPIRITED CITIZENS TO AID BOTH THESE ENTERPRISES AND THEREBY HELP TO BOOM LOWELL AS A LIVE AND ENTERPRISING CITY, WHOSE PUBLIC SPIRIT GUARANTEES THE SUCCESS OF EVERYTHING SHE UNDERTAKES.

TO LOWELL'S ADVANTAGE

WHEN A CITY HOSTED BY BOOMS OF ONE KIND OR ANOTHER IS STRUCK BY A BUSINESS DEPRESSION, THE COLLAPSE SOMEWHAT RESEMBLES THAT OF A BALLOON WHOSE GAS BAG HAS BEEN PUNCTURED. THE FALL IS SUDDEN AND SEVERE. WITH LOWELL THE CASE IS DIFFERENT. AS SHE PURSUES THE EVEN TENOR OF HER WAY, SHE NEVER GETS UP VERY HIGH AND, THEREFORE, HAS NOT FAR TO FALL EVEN IN THE MOST SEVERE INDUSTRIAL CATASTROPHES.

SEEN AND HEARD

"My rolling is just wearing me out," said a young lady who is spending the summer at Wilton, Laie.

"What do you mean by rolling?" was asked.

"Wait a minute," she replied. "The rolling end of the roller is just wearing me out. You go down and roll on the bare floor two hours each day. It makes me so tired. And I have tried it for two weeks and haven't lost a pound."

DON'T

A hundred times a day I hear
His mother say: "Don't do that, dear!"
From early morn till dusk 'tis all
"Don't do that, dear!" I hear her call
From the back porch and front and side
As though I were a wild and headless
thing that she wanted to get rid of.
"Don't do that, dear!" "Don't do that, dear!"
If he goes out and slams the door:
"Don't do that, dear!" and if the floor
Is lowly scrubbed and he comes near:
"Don't do that, dear!" is all I hear.
If he comes running down the stairs:
"Don't do that, dear!" and if he wears
No coat, but flings it somewhere near,
She cries and says: "Don't do that, dear!"
If he goes slumping up a tree:
"Don't do that, dear!" if he should be
Asleep, a fool I know I hear
Her call to him: "Don't do that, dear!"
His life is all "Don't this," "Don't that,"
"Don't lose the dog," "Don't chafe the cat."
"Don't go," "Don't stay," "Don't there,"
"Don't leave,"
"Don't do that, dear!" "Don't do that, dear!"
Sometimes he seems to me as still
As any mouse under a shawl
"Don't do that, dear!" falls on the air
And drives him swift away from there.
So when he finds another spot:
"Don't do that, dear!" and he says:
"What?"
And she replies and cannot say—
But—"Well, don't do it, anyway!"
—J. W. Foley, in New York Times.

PEOPLE PROTECT YOUR PROPERTY

"Keep off the grass" signs have been entirely abolished in the progressive cities. It is held that the trivial damage done by the throngs who walk on the grass on Sundays and holidays is more than compensated for by the pleasure bestowed in the knowledge that everything in the public property is free and open to all. The only admission to the public which still finds favor is the horse sign used in Glasgow, Scotland: "People, protect your property." This reminder is said to operate more effectively than any of the old prohibitions.

EDITORIAL COMMENT

GLORY IN PLENTY.

Fall River Globe: In the field and track events at the London Olympiad, the American secured 114 2-3 points to 66 and 1-3 by the representatives of the United Kingdom. This is glory enough to compensate for all the unpleasant and unfortunate experiences the American athletes have had during this notable event. The treatment that was accorded them was, from all accounts, both ungracious and unsportsmanlike.

A SAMPLE OF TAFT "PROSPERITY"

From the Omaha World Herald.

Modestly tucked away in an obscure corner of our valued contemporary, the New York Sun, the World-Herald discovers the following bit of interesting and important information:

Pittsburg, July 18.—The Republic Iron and Steel company has signed an agreement with its union workmen to hold for the coming year. The scale, which was signed last night, provides for an average reduction of 10 per cent. It is announced that the eleven plants of the Republic company scattered throughout the country will start on Monday morning. The mills have been closed since June 30 owing to the expiration of the wage scale and the need of repairs. The scale is substantially the same as that adopted by the Western Bar Iron association.

Let the significance of this item be missed, it might be mentioned that the Republic Iron and Steel company is one of the numerous great corporations and trusts of which George Rumsey Sheldon, the republican treasurer, is a director.

It is one of the constituent elements of the steel trust, under the domination of such powerful supporters of Judge Taft as Andrew Carnegie, J. Pierpont Morgan and John D. Rockefeller.

It was Mr. Morgan who ejaculated "Bully! bully!" when informed of Taft's nomination.

It was Mr. Carnegie who assured us blandly that Taft's nomination would surely be followed by his election, and that this assurance was all that was needed to "restore prosperity."

It was Mr. Rockefeller who, when the Taft fortunes hung in the balance, made his nomination certain by turning the vast influence of the Standard Oil monopoly in his favor.

All these interesting and amiable gentlemen have been telling us a great many things about the panic. They have told us there is no panic. They have said it doesn't amount to much anyhow. They have added that the certainty of Taft's election would promptly cure it, and restore us a prosperity more marvelous and abounding than any that has gone before.

Yet they shut down the mills and furnaces of the great Republic Iron and Steel company, and kept them shut down, until their employees consented to go back to work for the coming year at a 10 per cent. reduction in their wage scale!

Is this just a taste of the "prosperity" Mr. Taft's friends, and Mr. Taft's treasurer, are going to give the laboring men after Taft is elected?

If Taft's election is assured, and if his election means greater prosperity than ever, why not divide up that prosperity with the man who works for a living?

The cost of living is steadily increasing. The trusts and the railroads see to that. They continue piling the burden higher and heavier on "the ultimate victim," the consumer. Consequently a man whose wages remain just as they were is in effect suffering from a reduction. His hard-earned dollar buys less and less. But here come Treasurer Sheldon and these other eminent pillars of prosperity and, not content with this, slash one-tenth off the wages they propose to pay their men under "Taft prosperity!"

Clearly, there is a screw loose, somewhere, republican logic doesn't track. It might be interesting if Treasurer Sheldon of the republican national committee would explain why the great steel corporation of which he is a director is reducing wages.

manlike. John Bull in this connection, shown himself to be a "bad loser." We shall probably, for a time at least, while the memory of certain occurrences at these games remains fresh in the public mind, hear less of that twiddle about "hands across the water" than we have been having so frequently exploited by wind jamming after-dinner speakers and hot-air specialists.

The sentiment that seems to have prevailed all through these contests, both among the public over there and those having the management of this international meet, was distinctly hostile to the Yankees, and when it was a Britisher could not win, the sympathy of the crowd was invariably with the contestants of other nationalities than the Americans.

YOUNG HAYES' REWARD.

Fall River Globe: Young Hayes, the winner of the Marathon, is a clerk in a large New York department store. He has been earning \$20 a week. His victory is going to be much more substantial than the mere glory that attaches to it. Since the head of the concern in whose employ he is, has announced that when he returns he will be put at head of the sporting goods department at salary of \$1000 or \$5000 a year. Nothing hazy about that.

SCARLET FEVER VACCINE.

Worcester Post: The physicians of the Sick children's hospital in Toronto, Ont., believe they have developed a vaccine against scarlet fever not of any such extended efficiency as that against small pox but sufficient to afford immunity during epidemics. Records carefully kept for nine months seem to support the claim.

The method is to extract an ounce of blood from the arm of a patient when the fever is at its height. This culture is placed in a suitable receptacle, and kept for twenty-four hours at a heat that will induce the bugs to grow to the fullest extent. The organisms are then killed by heat, and suspended in a salt solution which is used for vaccination.

The theory is that the essence of the microbe creates a reaction in the human system, and assists nature in its effort to throw off the poison.

Or perhaps it would be more correct to say that the introduction of the microbe even dead arouses the counter forces of the blood to an activity that means immunity. If the discovery is sustained by experience it ought to have far reaching results, for the scarlet fever germs are of the species termed "streptococcus," which is also known to be the cause of erysipelas, and many kindred diseases. The bug has many different forms, each of which produces a different disease.

The greater part of the lumber stolen from the temporary ledge at the corner of Moody street and Riverside avenue has been returned. When the lumber was taken away Supt. Supt. Morse, however, decided that he could use it to advantage and last night the boys piled the wood on wheelbarrows and brought it back. There were ten wheelbarrows in the procession.

FRANK J. GOULD ROBBED A WOMAN
Admitted That He Knew Man Found \$97 in Her Stocking

NEW YORK, July 29.—Frank Jay Gould was put through a sharp examination last night by the defence in the alleged conspiracy plot to manufacture divorce evidence against him. He was questioned at length as to his acquaintance with Miss Bessie De Voe, whose name has figured in the case, but the most damaging admission the lawyers could draw from him, was the fact that he had met Miss De Voe and knew who she was.

As yesterday was the day set aside by the court for Mr. Gould to visit his children, Magistrate Corrigan, before whom the case is being heard, excused Mr. Gould at the day session and held court last night.

So great was the crowd of spectators and witnesses that it was necessary to move the hearing from the Tombs police court to the court of special sessions.

District Attorney Jerome submitted a copy of Mrs. Gould's complaint in the divorce action to the court in order to show that the divorce suit was actually pending at the time of Mrs. Gould's arrest.

It simply alleged misconduct on the part of Mr. Gould in North Sydney, C. B. Canada, July 25, 1905. It did not name any person or persons or go into details.

Edward F. Raynes, the district attorney's detective, told of the arrest of Mrs. Gould, Miss Fleming and Mousley, and said he found on Mousley, a photograph of Mr. Gould and the affidavit signed by Miss MacCausland.

After the prosecution rested, Messrs. Smith and Mitchell for the defense made arguments asking for the discharge of clients. Magistrate Corrigan reserved decisions on these motions.

GROTON FIRE
BARN AND HEN HOUSES DESTROYED.

HISGEN AND GRAVES

Nominated to Lead the Independence League

CHICAGO, July 29.—Thomas L. Hisgen of Massachusetts was nominated for president, and John Temple Graves for vice president, by the independence league convention last night. Hisgen was placed in nomination by Rev. R. L. Sawyer of Massachusetts.

The conclusion of Mr. Sawyer's speech was the signal for cheers from the Massachusetts seats in which California delegates and a few from Minnesota and South Dakota joined. A big banner bearing Hisgen's portrait was brought to the platform where it was joined by the California state flag.

After two minutes, Chairman Walsh began rapping for order. The Minnesota standard was put in the procession, then Illinois, Washington and Nebraska. Three minutes later the demonstration had subsided.

Bernard Suter of Atlanta, Ga., presented the name of Temple Graves. In a snappy speech he set the convention hall ringing with cheers.

STORM BREAKS OUT.

When Kansas was reached, J. I. Sheppard of that state asked the chairman if it were possible to vote for any candidate for the nomination who was not a member of the party. The reply was that the question had not yet arisen, whereupon Mr. Sheppard took the platform, announcing that he had a candidate.

He mentioned the candidate of the democratic party and a storm of hisses and hoots greeted the reference. The hall continued in an uproar for several minutes, the galleries persisting in breaking into the proceedings with jeers and remarks.

Mr. Sheppard was finally allowed to proceed. He had spoken but a few minutes when the delegates broke in upon him. Charles H. Mitchell of Ill.

nois offered a point of order, saying that it was evident that the speaker was about to place in nomination a man who was not a member of the independence party. He therefore asked that the convention proceed to name a candidate of its own.

SCENE OF RIOT.

A scene of riot immediately followed, several delegates attempting to reach the rostrum for the purpose of offering physical violence to the speaker. A number of the sergeants-at-arms threw themselves across the aisle in front of the rostrum steps and held back the infuriated men by sheer physical strength.

Mr. Mitchell persisted, however, in asking if Sheppard intended to nominate a man who was not a member of the independence party. He insisted upon a categorical answer and Chairman Walsh said:

"The gentleman will answer the question."

"Of course, I don't want to deceive you," said Mr. Sheppard. "I intend, if I am allowed to finish, to nominate Mr. William J. Bryan."

The hall broke into a wild uproar, a dozen delegates again madly struggling in the main aisle in an attempt to reach Mr. Sheppard. Canes and fists were shaken at him furiously while howls of execration went up from all sides of the hall.

Quiet was a long time coming, but when it finally arrived Chairman Walsh ruled that inasmuch as Mr. Sheppard had attempted to nominate a man who was not a member of the independence party, he was out of order. A frantic yell of approval went up from the convention. Sheppard instantly started to leave the platform, and Sergeants-at-Arms Frank Brust and Max Annenberg, realizing what might happen to Sheppard, stepped close to his side as he started down the aisle.

SHEPPARD IN DANGER.

Instantly a crowd of delegates, all of them in an ugly mood, closed in and

for a minute or two Sheppard was in actual danger. Brust and Annenberg also carried him and fought their way, foot by foot, along the passage way.

John Dailey, a delegate from the 25th assembly district of New York city, struck at Sheppard's head with a cane, and if the blow had not been intercepted, might have seriously injured him. Dailey was shoved down into a seat, and escorted by the sergeants-at-arms. Sheppard was taken to the door and told to leave the hall. He lost no time in obeying the injunction.

During the confusion Chairman Walsh strove desperately for order, but without avail. When Sheppard started down the aisle he called anxiously:

"Somebody protect that man."

He repeatedly begged the delegates to keep quiet and remember that they were gentlemen. The plea, however, fell on deaf ears until Sheppard had left the hall.

Judge Waterbury of Emporia, Kansas, took the platform for the purpose, as he expressed it, of "putting my state right." He denied that Mr. Sheppard acted with the knowledge of the delegates from his state, the denunciation of the speaker and the cause he attempted to advocate bringing cheers from the delegates and a few hisses from the galleries.

Hugh McIsaac of San Francisco, speaking for California, seconded the nomination of Hisgen of Massachusetts.

Minnesota seconded Hisgen's nomination.

Michigan seconded the nomination of Graves.

Mississippi seconded the nomination of M. W. Howard of Alabama, and Missouri followed suit. Montana declared for Hisgen. New Hampshire seconded Hisgen.

THE SHORTEST SPEECH.

New York sent to the rostrum Judge John Palmiero, who placed Reuben Lyon of that state in nomination. He spoke but a few minutes, making by far the shortest nominating speech of the night. Dr. J. D. Bush also of New York, seconded the nomination of Mr. Lyon.

West Virginia, called, brought resignations from the convention, two delegates leaving because they were not satisfied with the platform.

The incident caused little commotion and the seconding speeches concluding with seconds for Hisgen from Washington and Wyoming, and for Graves, from the District of Columbia. The convention then proceeded to ballot.

The first ballot resulted:

Hisgen 396, Howard 200, Graves 213, Lyon 71, Hearst 42.

The second ballot was:

Hisgen 550, Graves 133, Howard 109, Hearst 49.

HISGEN WINS.

On the third ballot the vote drifted toward Hisgen and it was evident his nomination was certain.

Virginia broke from Graves and placed him within a few votes of success. Then came Washington, with ten votes for Hisgen, and he was nominated. There was scramble for the "band wagon." Missouri swung its vote for Hisgen. Georgia changed its vote for Hisgen and then they came too rapidly to count, all changing from Howard and Graves. Alabama withdrew the name of Howard after Hisgen had been actually nominated and cast her vote for Hisgen.

The ballot resulted:

Hisgen 851, Howard 38, Graves 7, Hearst 2.

A roar of applause followed the announcement of the ballot and a motion making unanimous the nomination was adopted with a yell. The usual parade of standards around the hall then commenced while the band played patriotic airs.

CURRENCY PLANK

ALMOST CAUSED A BREAK IN THE PARTY.

CHICAGO, July 29.—The newly formed independence party was threatened with a dangerous schism yesterday during the debate on the currency plank of the platform in the session of the committee on resolutions. So serious did the situation become that several party leaders not members of the committee were sent for in an effort to bring the recalcitrant members into line.

William R. Hearst and Geeser Williams of California, appeared before the committee, the former making an extended statement in explanation of the position taken by the February conference of the party on the subject, the action at that gathering having formed the basis of the platform as originally drawn up yesterday.

Despite this the committee directed a revision taking new ground in the right of the government to loan treasury funds to national banks is not recognized.

The plank as corrected and adopted by the convention favors the establishment of a central governmental bank, which institution is to be the medium through which money shall be put into general circulation.

The storm broke in the committee almost as soon as the platform was taken up for consideration. The sub-committee had been busy making the final draft of the document since early morning and it did not complete its task until after noon.

It was nearly five hours later before the currency plank was disposed of, the sub-committee having finally to retire and re-write the paragraph.

Roscoe T. Hardin of New Hampshire declared that the party was about to be "sold to the worst trust of all—the National Banking Trust," while Colonel J. C. Guffey, of Kentucky, asserted that if the organization was going to ally itself with the National banks, he was going home to resume his former political affiliations.

It was at this juncture that Mr. Hearst appeared before the committee. After his speech, Milton W. Howard, of Alabama, suggested a compromise and the incorporation of the declaration favoring the central governmental bank followed.

F. C. BEHARRELL BROKE RECORDS

Expired Suddenly on Steamboat Yesterday

ON ST. JOHN RIVER, N. B.

Was Returning Home From a Trip

ST. JOHN, N. B., July 29.—While coming down the St. John river on the steamer Elaine yesterday, Frank C.

THE LATE FRANK C. BEHARRELL

Beharrell, a retired contractor and wealthy real estate owner of Lowell, Mass., died suddenly from the bursting of a blood vessel in the region of the heart. The body was brought down to this city and will be taken to Lowell.

Mr. Beharrell, who was accompanied by his brother, J. E. Beharrell, arrived here last Thursday and went to Fredericton Friday. Soon after starting on the return trip yesterday morning, he was stricken with illness, which quickly proved fatal.

On arrival of the steamer at St. John, the body was removed to an undertaker's and was viewed by the coroner, who expressed the opinion that the lining of the vessels in the heart had been affected and a sudden strain had caused a rupture. He was 56 years of age.

Mr. Beharrell was a well known contractor and real estate broker in Lowell with a residence at 89 Fremont street.

Mr. Beharrell is survived by his wife, Mrs. Bertha Beharrell, a son, Arthur C., and two brothers, Joseph of this city, and Isaac I., of Concord Junction. He was a member of Lowell council, R. A.

Company C. Team Won High Honor

Yesterday was a red letter day at the Wakefield rifle range and records were knocked "dally-west." The New England military rifle tournament is in progress and with the exception of the 200 yards range clean scores were made at all the ranges.

The rifle team representing Company C of the Sixth regiment, located in this city, was present and captured the state of Maine trophy.

The state of Maine match is open to teams of five men from any company, troop or battery unit of the organized militia of New England, for a trophy and medals presented by the governors and senate's association of Maine; distance, 200 and 500 yards; number of shots, 2 sighting and 7 shots for record

at each range; time limit, 45 minutes at each range. Prizes: First, a trophy; to become the property of the team winning it three times, not necessarily in succession, and a medal to each member of the team; second, bronze medal to each member of the second team; third, bronze medal to each member of the third team.

With the exception of the three company teams that got places in the First corps of cadets match, the same teams were entered in this contest. The competition was keen from start to finish, and for the second time today the trophy being shot for dropped into the lap of the Sixth Infantry, Co. C of Lowell landing first place, making a garrison finish, the last two men making clean scores at 500 yards, as did also the second man up, Co. K of the Second Infantry, M. V. M., tied with Co. F, First Maine, with a score of 304, but as the latter made the highest score at the 500 yards range, 162 against 157, it was given second place. The score of

FIRE ON OFFICERS Men Believed to Be the Forest Hill Bandits

WALTHAM, July 29.—Two suspicious appearing men with revolvers drawn, believed to be the desperate brigands wanted by the Boston police in the shooting at Forest Hills, shot at and narrowly missed Patrolmen Bemis and McCarthy early this morning.

The officers were patrolling their route when the two men emerged from behind the Waltham railroad station, a short distance from the officers.

The patrolmen shouted for the two strangers to stop, only to find that the command was followed by a shot which whizzed by the head of Officer McCarthy.

Quickly pulling out their revolvers the officers engaged in a running fight with the fleeing men. Several shots were fired by the officers, but none seemed to have taken effect.

A hurry-up call was sent to the station. Followed by a squad of officers with revolvers ready for use the bandits were chased up the track for some distance, when they were lost in the darkness.

A strict watch was put on all of the places along the railroad where the men would be likely to go.

When the Waltham police found that the armed desperadoes had gotten beyond them, word was immediately sent to the police of adjoining towns to be on the lookout.

FIRE AT NEGRO Who Tried to Rob Her Apartments

A PLUCKY WOMAN USED REVOLVER

And Scared Guests of Hotel Plaza

NEW YORK, July 29.—Shots fired at a negro burglar threw the Hotel Plaza and the surrounding fashionable blocks west of Fifth avenue into turmoil shortly before six o'clock this morning. The shots were fired by Mrs. Henry Heulett of Mobile, Alabama, who lives in an apartment house directly behind the Plaza.

Mrs. Heulett and her niece, Miss Addie Prendergast, lost several thousands of dollars worth of jewelry ten days ago when a burglar entered their apartments by the fire escape and got away over the roof. This morning a negro was found trying to enter Mrs. Heulett's apartment. Mrs. Heulett seized a revolver and from a window fired at the man who was on a fire escape but her shots went wild and the man escaped. Several hours later a negro was arrested charged with the attempt to rob Mrs. Heulett's apartment.

FALLON IS OUT Retires From Board of Cemetery Trustees

BOSTON, July 29.—William J. Fallon of the board of cemetery trustees tendered his resignation to Mayor Hibbard last night and the mayor then notified Superintendent James H. Morton that he was suspended.

This action followed a recommendation from the finance commission yesterday afternoon, which urged that the city discontinue the services of both men and that they be sued for \$9900, alleged to be secret profits said to have been shared by Fallon and Morton in the acquisition of additional land for the Mt. Hope cemetery.

IN COLLISION Steamer Was Struck by a Schooner

NEW YORK, July 29.—The steamer San Giovanni in today from Mediterranean ports was run into last night about sixty miles east of Fire Island by a four masted schooner which smashed the steamer's port rail and did minor damage.

So far as could be seen the schooner's name began with "Frederick." The weather was hazy and the schooner quickly disappeared before the extent of her damages could be ascertained.

A piece of the schooner's jibboom which broke off in the collision was left in the steamer's path.

The residence of the late John J. Donovan at the corner of Branch and Dover streets, was sold yesterday by Auctioneer J. E. Conant & Co. It was a mortgagee sale. The property was purchased by Robert E. Crowley. The price was \$9000.

SOCIAL AND FRATERNAL

The regular meeting of Samuel H. Hines lodge, Knights of Pythias, was held last night. Deputy Grand Chancellor Joy, assisted by P. C. C. H. Jordan as grand prelate and V. C. Williams as G. M. T. A., installed William N. Wyman as inside guard.

Remarks were made by P. C. Joy, Jordan, Boise and Brother Farly and others.

C. C. Fullerton informed the members that he will have for the good of the order a roll call, whist parties and a grand family gathering just as soon as cool weather sets in.

Tickets were received from Mr. J. J. Higgins, manager of Wonderland Park, which can be secured from the C. C. The tickets are good for three free admissions to the park next Tuesday, Aug. 4.

COLUMBIA COUNCIL, O. U. A. M. The regular meeting of Columbia council, O. U. A. M., was held Monday night in O. U. A. M. hall and considerable routine matter disposed of. During the evening ex-Councilor A. E. Joy presented a beautiful level to ex-Councilor J. W. Esterbrook.

COURT MIDDLESEX, F. OF A. M. Court Middlesex, F. of A. met Monday night at Foresters' hall. Chief Ranger John H. Condon presiding. Two propositions were received and referred to a committee. The chief ranger reported for the sub-committee of Foresters gala day at Mountain Rock, stating all arrangements were about completed. Starbird's orchestra will furnish music for concert and dance, also sports of all kinds. Some of the grand officers will be present and the prospects bid fair to be a big success. The auditing committee of the court made its report for the quarter, showing the court to be in a good healthy condition, financially and as regards sickness. Chief Ranger J. McCormack of Court Merrimack spoke interestingly on the affairs of the order. At the close of the meeting a social hour was enjoyed.

STANDARD OIL CASE

The Prosecuting Officers Discuss Whether It Should Be Pressed

LENEX, July 29.—The leading prosecuting officers of the government with the assistance of several prominent lawyers of national reputation, including Senator Frank B. Kellogg of Minnesota, took up the consideration today of the question whether the criminal suit against the Standard Oil Co. for alleged robbing and other violations of the interstate commerce laws shall be further pressed in the courts. The gathering in one of the spacious parlors of the Hotel Aspinwall included Attorney General Charles J. Bonaparte, Solicitor General Henry M. Hoyt of Washington; Edwin M. Sims of Chicago, United States district attorney for the northern district of Illinois; his first assistant, James Wilkinson of Chicago, Mr. Kellogg and several clerks from the department of justice at Washington.

A great mass of legal literature in connection with the trial of the suit of the Standard Oil Co. at Chicago some fifteen months ago was brought on from Washington and Chicago together with the text of the decision of Judge Kenesaw Mountain Landis in imposing the \$29,000 fine upon the company as well as the latest document in the case, the decision of the United States court of appeals setting aside Judge Landis' opinion and his finding.

The government's position at the present time according to its legal generals is that of an army whose forces have been checked temporarily but not beaten and they all have confidence that another campaign, ably planned and well executed, will secure victory which in such a case would mean receiving the approval of the highest court in the land. Whether such a campaign should be renewed along the old line of legal strategy, whether some other method shall be employed in routing the enemy now entrenched behind the decision of the court of appeals or whether these entrenched positions are too strong to be carried by another attack were the main points under consideration today by the counsel of legal warriors sitting here in the summer quietude of the Berkshire hills.

The Chicago lawyers, being comparatively young men and with all the enthusiasm and confidence of youth, are ardent in their desire for a retrial of the case. They have brought in the first suit together with much of the evidence. They readily admit that in that first trial mistakes were made but they are earnest in their wish for a chance to rectify such errors and to plan and prosecute a fight that in the light of former experience will be fought more tactfully and result more favorably. In this desire they have the support of Senator Kellogg while Solicitor General Bonaparte and Attorney General Hoyt will take the arguments under consideration and then decide whether they shall give the word to charge or stand fast.

BARON TO FIGHT Arrested on Charges of Hotel Keepers

BOSTON, July 29.—Baron F. van Godan Seefeld, who was arrested on Monday evening at the Hotel Touraine, was taken to Rhode Island yesterday to answer the charges of fraud made by hotel keepers.

The baron arrived in Boston with his beautiful wife and young daughter and hired apartments at the Touraine. It is alleged that the baron beat his hotel bills.

The baron expressed an intention of fighting the charges. One is made by the proprietors of the Matthews Hotel at Narragansett Pier. The owners of the Crown Hotel of Providence also accuse him. The amount involved is said to be about \$250.

The baron's wife said yesterday that she was confident of her husband being able to prove his innocence. Like himself, she attributed the charges to a misunderstanding.

LIEUT. BELCHER OWNER OF AUTO

To Be Tried by Court
Martial

THE MISUSE OF
STATE FUNDS

Is the Charge Against
Militia Officer

BOSTON, July 29.—Lieut. Robert E. Belcher, signal corps, M. V. M., is charged with having misappropriated \$450 of the Commonwealth's money due to 25 soldiers of his command, who did duty at the Chelsea fire.

He will be tried by court-martial on Aug. 12. While the papers in the case have not yet been issued, this date has been decided upon by Adj. Gen. Brigham. The court will sit in the state house at 2 o'clock in the afternoon.

The specific charge upon which Lieut. Belcher will be tried will be "conduct unbecoming an officer and a gentleman," and upon the developments of the court-martial will depend what further action may be taken.

The court will be presided over by Maj. George F. H. Murray, 9th regiment infantry, M. V. M., with Capt. Charles H. Cole, 1st corps cadets, M. V. M., as judge advocate general, and Capt. Howard L. Rogers, battery A, field artillery, M. V. M.

The court-martial was ordered by Gov. Gull yesterday afternoon after a number of complaints from soldiers of the signal corps had been brought to the attention of the adjutant general.

The men were indignant and used some very strong language about the way, as they thought, they were being used by the state. They asserted that soldiers of other organizations that had done duty in Chelsea had been paid.

The men explained to the adjutant general that the money was needed, and supposed it was being withheld because of an oversight of some kind at headquarters.

An investigation resulted, when it was discovered that money to the extent of about \$450 had been paid Lieut. Belcher, who had received for it.

BELCHER LEFT STATE.

No part of this money, an investigation has revealed, was paid over to the men and they, after waiting a considerable length of time, entered formal complaint with Adj. Gen. Brigham and Gov. Gull.

It was then that a second inquiry revealed the fact that Lieut. Belcher had left the state.

The statements of his friends was that he was in such ill health that a trip was absolutely necessary. This was accepted as the best possible solution of the difficulty. Inquiry into the matter was postponed from time to time in the hope that the lieutenant would recover sufficiently to appear and explain things to the satisfaction of the military authorities.

Y. W. C. A. NOTES.

Miss E. Stafford Miller, who made many friends during her stay in Lowell, will be a guest at "Lowell Lodge," East Northfield, for the first week in August. Others going up to attend the general conference or part of it are Miss Rachel Abbott, Miss Helen Hurd, Mrs. Phipps, Miss Alice Shepherd, Mrs. Heath, Miss Ames, Mrs. William Hodge and Miss Holgate. Large numbers of people go yearly to this gathering where the enthusiasm of Christians grows greater and deeper through the fellowship of the conference and the stirring addresses.

Miss Skilton speaks at the noon meeting today.

Next Sunday the vesper service will be at the rooms instead of the camp, and Miss Edith Russell will be the speaker.

Cannot Be Sued Says
Appellate Court

NEW YORK, July 29.—The appellate division of the supreme court holds that the owner of an automobile is not necessarily responsible in law for an accident caused by the machine while it is being operated by the chauffeur in the absence of the owner.

Three of the justices, Ingraham, Clarke and Scott, held that even if the chauffeur is running the machine for his own pleasure or use with the consent of the owner the latter is not responsible. The other two, Justices Houghton and McLaughlin, are of the opinion that the owner can escape liability only where it is clear that the chauffeur is using the machine without his employer's sanction.

The evidence showed that Burton S. Castle had given permission to his chauffeur, Harry Bees, to take his machine out on September 10, 1907, for his own pleasure. Bees took with him two women and a man, and at 1:30 in the morning, while coming down Central Park west, the machine struck George Cunningham, who was crossing the avenue, and injured him severely. Justice Clarke, writing the majority opinion reversing the judgment for damages obtained by Cunningham against Castle, says that it is clear that blame for the accident attached to Bees and not to Cunningham, who was using all possible care in crossing the street. But, says Justice Clarke, it was error for the trial judge to charge the jury that full responsibility for the injuries sustained by Cunningham rested on the owner of the machine.

Justice Clarke says that intrinsically an automobile can no more be classed as a "dangerous instrumentality" and therefore improperly entrusted to the chauffeur than a team of horses and carriage or a wagon or a sailboat or motor launch can be classed as a dangerous instrumentality, or even a gun, under certain circumstances. If a gunkeeper borrows his master's gun, Justice Clarke adds, would the master be held liable for any negligence on the part of the gunkeeper that resulted in the shooting of a man when the gunkeeper was using the gun for his own purposes and not for the service of his employer?

"I do not think," says Justice Clarke, "that the question of the ignorance or consent of the master has any bearing whatever upon his liability. The fact that the servant has used the automobile without his consent has probative force upon the proposition as to whether or not the servant was engaged in his master's business within the scope of his employment. The question is whether he was or not."

Justice Clarke goes on to say that if the accident had occurred while the chauffeur was taking the machine, say, from the garage to the machine shop to have it fixed, the master would be liable, whether or not he had knowledge of the trip, because the act had happened within the scope of the servant's employment. But if the master were to tell his chauffeur that he could use the machine for his own pleasure while the master was away on a vacation, the master would not be legally responsible for any negligence by the chauffeur during the vacation.

"It may be," concludes Justice Clarke, "that it would be wise and in the public interest that responsibility for an accident caused by an automobile should be affixed to the owner thereof, irrespective of the person driving it, but the law does not so provide."

Justices Houghton and McLaughlin are of the opinion that the act of Castle in giving his consent to the private use of the machine by the chauffeur, made the owner responsible for the accident. As they view it, the chauffeur was technically still on his master's business and the relationship of master and servant had not been severed.

But the dissenting justices are of one accord with the majority of the court that if the chauffeur had taken the machine out without the consent of his master and contrary to the latter's orders, there would be no liability on the master. It is expected that an appeal will be taken.

ROYAL PIPERS

ARE MAKING A BIG HIT AT LAKEVIEW.

With its program of Scottish airs of all kinds, martial and ballads, with its quaint Highland costumes and its Scottish dances, the Royal Pipe band of His Majesty's Royal Rifles of Halifax, N. S., will give an entertainment this week, every afternoon and evening at Lakeview park, which will be entirely new and novel in this section as well as extremely interesting.

The band played all last week at Paragon park. Wednesday morning, by special request, it appeared at Fort Revere before Governor Gull, who was so delighted with its performance that at his request, Saturday morning it played again at Fort Warren. Its martial airs were of the sort that made Uncle Sam's men take notice and realize why the Scots in battle, when stirred by such music, were among the most sturdy warriors of the world.

The bass drummer with this outfit is a whole entertainment in himself. He carries his own big drum, beats it with both hands, tossing the sticks in the air and waving them about at the same time and never missing a stroke in harmony with the time of the music. Thousands of people at Paragon park cheered themselves hoarse in continuous encores of the performance.

Don't forget Belle Grove, Thursday Eve.

Fred Rourke Returns
From Elks' Convention

Fred H. Rourke, past exalted ruler of Lowell lodge of Elks and representative to the grand convention of the order which was held at Dallas, Texas, the present month, arrived in this city last evening. Mr. Rourke left Lowell the 2d of July for New York, taking the steamer for Galveston, thence to San Antonio and from there to Dallas where he arrived the 13th. He attended the several sessions of the grand lodge and also the grand barbecue which was held at the State Fair park in which provisions were made for over 35,000 persons. A grand display of fireworks was given at Lake Cliff park July 14th. The ladies of the visiting brothers were entertained at the Elks club and Lake Cliff pavilion.

On July 16 occurred the grand parade of all the bands and the several lodges that were represented and floats were furnished by many lodges which added much beauty to the occasion. It was estimated that there were some 60,000 persons present during the convention days. The 1908 convention will be held in Los Angeles, California.

The climate of Dallas, Mr. Rourke adds, is not so warm as has been stated in the several newspapers, and within the last few years the population has increased from 45,000 to 35,000. Mr. Rourke returned home by way of New Orleans, La., where the Massachusetts delegation was entertained for several days by the grand esquire of the order, J. P. Sullivan. From there he took a steamer for New York and arrived home as before stated. Mr. Rourke speaks very highly of the convention and says that everything possible was done to make the visitors to Dallas welcome, and to use their own expression they had the "time of their lives."

SHOT AT WHALE

Was Making Straight
for Steamer—

SAN FRANCISCO, July 29.—From the deck of the little coasting steamer Coos Bay, Capt. James Bowen waged a battle with a mammoth whale while his vessel was off Cayucos, on her way up the coast. The whale was observed making straight for the steamer and Bowen was obliged to put his vessel upon a different course to avoid collision with the mammal. Even this action of the skipper did not suffice to keep the Coos Bay out of danger, and drawing a revolver the captain opened fire upon his enemy.

Twice he emptied the contents of the revolver's chambers, but the leaden missiles apparently had little effect upon the mammal, as it renewed its attack upon the vessel. Finally in a last effort to escape from the whale, the skipper of the steamer ordered full speed ahead, and gradually the Coos Bay crept ahead of her pursuer.

One member of the crew said: "For some moments it looked like the whale would surely hit us, and considerable excitement was caused aboard the ship. The mammal was all of 100 feet long and seemed of a particularly vicious species."

Even when Capt. Bowen discharged his revolver at it, the whale kept coming after us, although the water was dyed with blood."

BODY IDENTIFIED

Said to Be That of
Harry Cornish

NEW YORK, July 29.—The body of the well dressed man found in Gravesend bay last Sunday afternoon was identified at 12:30 this morning as that of Harry S. Cornish, who figured so prominently during the murder trials of Roland B. Mollneux. This identification caused a stir among the Coney Island police, because all the circumstances which have come to light would indicate that the man was murdered. But no sooner had the police been told that they had the body of Harry Cornish on their hands than the props were apparently knocked out from under the identification by Edward Kinsella, manager of Dreamland, at Coney Island, where Cornish holds many penny in the slot concessions. Kinsella was positive that it was not Cornish's body.

Charles E. Crane, manager of a toboggan slide, was the man who saw the body in the Coney Island morgue and identified it as that of Cornish. Crane says he was a special detective at the second Mollneux trial.

Crooner Bremer and physicians at an autopsy yesterday after carefully examining the peculiar form of the body on the back of the head, said the wound had been made probably with an axe.
